APPOINTMENT OF A COMMITTEE TO CONSIDER THE QUESTION OF ESTABLISHING CENTRAL RAILWAY STATIONS IN CALCUTTA.

THE following is published for general information.

G. F. E. S. NEILL, *Major*, M.S.C.,

Asst. Secy. to the Govt. of Bengal, P. W. Dept.

No. 51T—R, dated Darjeeling, the 30th May 1882.

GOVERNMENT OF BENGAL.

PUBLIC WORKS DEPARTMENT, RAILWAY BRANCH.

READ—

1. Resolution of the Government of India, Public Works Department, No. 38—44RC of the 16th January 1882.
2. Proceedings and report of a Committee of Engineers appointed by the Government of India to discuss the question of the establishment of a central railway station in Calcutta.
3. Letter from the Government of India, No. 366RC, to the Secretary to the Government of Bengal, Public Works Department, dated Simla, the 25th April 1882.

RESOLUTION.—In accordance with the views expressed in the letter from the Government of India, Public Works Department, No. 366RC of the 25th April 1882, the Lieutenant-Governor is pleased hereby to appoint a Committee,

consisting of the gentlemen named below, for the purpose of considering the question of establishing central railway stations in Calcutta—

PRESIDENT :

The Hon'ble H. J. Reynolds, B.C.S.,
Member of the Legislative Council.

MEMBERS :

Mr. F. J. Fergusson,
Official Trustee of Bengal.
Mr. H. L. Harrison, B C S.,
Chairman of the Corporation of the Town of Calcutta.
Mr. W Heysham,
Deputy Collector.
Mr. J. J. Keswick,
Firm of Jardine, Skinner & Co , and Port Commissioner.
Nawab Abdool Latif,
Municipal Commissioner of Calcutta.
Baboo Joygovind Law,
Firm of Prawn Kissen Law & Co.
Baboo Judolall Mullick,
Municipal Commissioner of Calcutta.
Maharajah the Hon'ble Sir Jotendro Mohun Tagore, K.C S.I.,
Member of the Legislative Council of Bengal.
Mr. H. B. Turner,
Firm of Turner, Morrison & Co.
Mr. D. J Zemin,
President of the Calcutta Trades' Association.

SECRETARY :

Mr. W. Heysham.

The following questions will receive the special attention of the Committee; but in considering these, or any others that may arise in the course of the discussion, the Committee will be guided by the orders in the 3rd paragraph of the letter from the Government of India quoted above :—

(1) Whether—bearing in mind the extension of the railway system in Bengal and the bridging of the Hooghly, whereby most of the traffic on the East Indian Railway and of its connected lines will be brought direct to Calcutta—it is desirable, in the interests of trade and for the general convenience of the public, that central passenger and goods stations should be established in the town.

(2) Whether the selection of sites by the Committee of Engineers is the best that can be made. In the event of any other site being recommended by the Committee, the probable cost should be stated.

(3) The widening of existing streets and the opening out of new ones in the vicinity of the stations, or as approaches thereto, should be carefully considered; and the estimated cost of any works of this nature that may be recommended should be reported.

ORDER.—Ordered that copy of this Resolution, and of the papers noted above, be forwarded to the President and to each member of the Committee for information and guidance. The President is requested to call the first meeting for the 1st proximo, or as soon after that date as possible. The report of the Commission should be submitted to the Secretary to the Government of Bengal in the Public Works Department.

By order of the Lieutenant-Governor of Bengal,

H. C. LEVINGE,

Secretary to the Govt. of Bengal,

P. W. Dept

No. 366RC, dated Simla, the 25th April 1882.

From—Colonel W S. Trevor, R E., Secretary to the Government of India, Public Works Department,

To—The Secretary to the Government of Bengal, Public Works Department.

Referring to Government of India, Public Works Department's, Resolution Nos. 38-44RC, dated 16th January 1882, I am directed to state that a Committee of Engineers lately assembled in Calcutta to consider, from a purely engineering point of view, the possibilities of the construction of a central railway station in Calcutta. The labours of this technical Committee will, it is hoped, materially clear the ground for the discussion of the general question by a Commission consisting of the leading members of the Calcutta community and representing the varied interests of the city.

2. I am directed therefore to forward copies of the report submitted by the Committee of Engineers for information and for further action as regards its consideration by a mixed Commission. His Excellency the Governor-General in Council will leave the nomination of the actual members to His Honor the Lieutenant-Governor in full assurance that the report will be placed before a thoroughly representative body. It is not desirable that the number nominated be too large; but it is necessary that the Municipality, the Chamber of Commerce, the Port Trust, the Trades Association, and the Mercantile Community, both European and Native, be represented, and the whole presided over by one of the most experienced civil officers of the Bengal Government.

3. In considering the general question of a central station, I am to state that the Committee should base their proposals, as far as technicalities are concerned, on the report now sent you. Also their discussions should be confined to the question of the central station or stations. Some of the members of the Engineer Committee have introduced opinions on the question of site for the railway bridge over the Hooghly; but I am to state that this subject is no longer open for discussion, it having been already settled that the bridge will be constructed at or near Hooghly, and run into the Eastern Bengal Railway at or near the station of Naihati.

4. The time for the meeting of the Commission must rest with His Honor the Lieutenant-Governor. The Commission will make its report to the Government of Bengal; and in forwarding it to the Government of India it should be accompanied by an expression of opinion on the whole case by His Honor the Lieutenant-Governor.

RESOLUTION ON THE REPORT ON THE CALCUTTA COURT OF SMALL CAUSES FOR THE YEAR 1881.

JUDICIAL.

Dated Darjeeling, the 29th May 1882.

READ—

The Report on the Calcutta Court of Small Causes for the year 1881.

Read also—

The Report for the year 1880, and the orders of Government recorded thereon.

The number of suits instituted during each of the past four years is shown below:—

1878-79	37,681
1879	37,199
1880	35,304
1881	34,108

There was an increase, as compared with the figures of 1880, of 134 in suits between Rs. 50 and Rs. 500 in value, and a net decrease of 1,196 in the total number of suits instituted. With the exception of a small decrease of 26 in suits of the value of Rs. 1,000 and upwards, which represents merely the ordinary fluctuation, the decrease in the number of suits instituted during the past year was confined exclusively to petty cases below Rs. 10 in value. There has been a gradual falling off in the number of cases instituted since 1878-79; the number of suits, however, instituted during that year was the highest on record, and the number is still very high. The Judges observe that, although there has been a decrease in petty litigation, the actual work of the Court has greatly increased, and so have also the number and frequency of postponements. One of the reasons given in the Report for the increase in work is that a larger number of cases is now contested than formerly. This explanation, however, is not borne out by the returns, which show that the number was lower in 1881 than in any year since 1868-69. The number of contested cases in each year from 1868-69 to 1881 was as follows:—

	Contested cases disposed of after trial.
1868-69	8,598
1869-70	10,076
1870-71	8,853
1871-72	9,555
1872-73	9,907
1873-74	9,212
1874-75	9,316
1875-76	9,150
1876-77	8,904
1878-79	10,264
1879	9,513
1880	6,745
1881	6,616

The increase of work is probably due very much to the fact that the cases now take a much longer time to try, owing to the great increase in the number of legal practitioners practising in the Court, and to their employment in almost every case. The principle upon which the business of the Court has hitherto been conducted has been, as far as possible, to dispose finally of the cases set down for hearing on each day by the close of the day. It is no longer, it is stated, possible to do this, and numbers of cases have to be adjourned, not only because the Judges cannot get through all the work, but also because the pressure of business before the Court affords defendants who have a weak defence, or who are without a defence of any kind, an opportunity, when the Board is being revised, of suggesting a defence which cannot be at once enquired into, and by this means of obtaining a postponement. The Lieutenant-Governor has no doubt that postponements are sometimes obtained upon grounds which, on subsequent investigation, are found to be unreasonable; but he believes that in many cases defendants who without proper legal advice would have had a decree given against them, are now enabled to

withstand claims advanced on slender or insufficient grounds. There is no question that the trials of suits now take a longer time than formerly, but on the whole the delays referred to ensure substantial justice. It is always in the power of the Judges, in awarding costs, to compensate the plaintiff for any loss of time or increased expenditure caused by any unwarranted delay which results from the action of the defendant. The Judges again draw attention to the increase in the work of the Court since, in 1868, powers were given to the Clerk of the Court to act as a Fifth Judge for the trial of petty suits, and they state that, in their opinion, the services of another Judge are required in order to cope with the business which now comes before the Court. The Lieutenant-Governor is satisfied that the Judges make out a good case for more assistance, for which an additional reason is found in the extension of the jurisdiction of the Court under the provisions of the new Presidency Small Cause Courts Act. Mr. Rivers Thompson has accordingly submitted to the Government of India proposals for the appointment of a Fifth Judge. The Registrar to be appointed under the Act will also have powers to try suits up to Rs. 20 in value.

The total value of the suits instituted during the year was Rs. 17,28,960 as against Rs. 17,70,036, the amount in litigation in 1880.

2. Including 1,288 cases pending from the previous year, the total number of cases set down for hearing in 1881 was 35,396, of which 34,063 were disposed of during the year, and 1,333 were pending at its close. The number of suits on account of goods sold, decided during the year, was 13,175, as compared with 13,814 decided in 1880 and 15,471 decided in 1879. The number of suits on contract in writing amounted to 4,673 against 4,795 decided in 1880. Suits for "wages, work, and materials" amounted to 4,397 against 4,709 in 1880; suits on "contract not in writing" amounted to 2,536; suits for rent not falling under the rent law to 3,449; suits "on account stated" to 872; suits for damages to 688; suits "on account of moveable property or the value thereof," to 551; interpleader suits to 319; and "suits not separately distinguished" to 2,623. The number of distraint cases under the Distress Act of 1875 disposed of was 155 against 102 in 1880 and 353 in 1879.

3. The following statement shows the result of the suits of the past three years:—

How disposed of.	1879.		1880.		1881.	
For plaintiff after trial or reference to arbitration	8,175		5,441		5 185	
For plaintiff *ex-parte* or on confession ...	8,463		10,266		9,326	
Compromised	13,534		13,062		12,586	
Nonsuited	2,317	Against	2,444	Against	2,398	Against
Dismissed after trial	1,338	plaintiff,	1,304	plaintiff,	1,483	plaintiff,
Ditto in default of plaintiff ...	3,224	6,879	3,083	6,831	5,085	6,966
Total ...	37,051		35,600		34,063	

The percentages of the cases in which the result was in favour of plaintiff during the years in question are as follow:—

1879	81·4
1880	80·8
1881	79·5

4. Excluding the amount of half costs refunded in cases compromised, the receipts during the year amounted to Rs. 2,37,846, and the expenditure to Rs. 1,59,511, the figures for the preceding year being Rs. 2,36,439 and Rs. 1,64,533 respectively. The net amount credited to the general revenues was Rs. 78,335 against Rs. 71,906 in 1880.

ORDER.—Ordered that a copy of the above Resolution be communicated to the Judges of the Calcutta Court of Small Causes.

By order of the Lieutenant-Governor of Bengal,

HORACE A. COCKERELL,

Secretary to the Government of Bengal.

NOTE.

Barometric Pressure.—The pressures in column 2 of the above table for all stations below 500 feet are reduced from those given in column 3 of the table on the previous page, by adding the weight of a column of air of the temperatures given in column 18. For stations above 500 feet elevation the reduction is made by Captain Allan Cunningham's table, "Prof. papers on Indian Engineering, No. CXIII." The temperatures at the sea-level are taken from column 3 of the above table.

Temperature.—The temperatures in column 3 are reduced from those in column 18 on the preceding page, by adding 1° Fahrenheit for every 450 feet.

Wind Resultant.—The resultant wind direction and its comparative predominance are calculated from the whole number of wind observations recorded during the month. The relative predominance in the direction of the resultant is given as a percentage of the whole number of observations. The direction is computed in the usual way by Lambert's formula.

Cloud.—This column gives the average proportion of clouded sky, a cloudless sky being indicated by 0, and one completely overcast by 1 0.

The above, being all comparable, afford the data for constructing a meteorological chart for the month, which will show the isobaric and isothermal lines and the resultant wind directions, which last may be represented by arrows of varying length, proportioned to the prevalence of the wind. To these may be added the rainfall from the previous tables.

The mean pressure, temperature, &c., are deduced from the traces of the Barograph and Thermograph, and from observations made at 6h, 10h, 16h, and 22h.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The direction of the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

GOVERNMENT OF INDIA, MILITARY (MARINE BRANCH) DEPARTMENT.

NOTICE TO MARINERS.—(22).

CEYLON—EAST COAST.

Non-existence of shoal reported distant 4 miles from Batticaloa.

WITH reference to this Department Notice to Mariners, No 29, of 15th August 1881, on the reported existence of a shoal (on which the steam vessel *Brennus*, drawing 22 feet, struck) stated to lie about 4 miles off shore with Batticaloa flagstaff bearing about S. W. by W. ½ W., the British Hydrographic Department has notified that—

Further information has been received from the Commander-in-Chief in the East Indies, and from the Government of Ceylon, in reference to searches having been made for this reported danger in H. M. S. *Ready*, and by the Colonial Government. These examinations show that no danger exists so far distant from the land, in the direction reported, and in such deep water (25 to 32 fathoms).

From these examinations, taken in connection with the evidence collected, it is considered that the *Brennus* struck on a shoal not heretofore charted, lying with Batticaloa flagstaff bearing S. 7° W., distant 7½ cables, situated in the midst of known shoal coral ground.

This new shoal, with a least depth over it of 15 feet, lies 3½ cables N. W. of the 7-feet shoal known as Tower rock; 6 cables W. ¼ S. of the 12-feet shoal known as Beacon rock; and 8½ cables E. by S. of the 19-feet shoal known as Surveyor rock.

(*The bearings are Magnetic. Variation* 1¼° *Easterly in* 1882).

By direction of the Government of India,

A. DUNDAS TAYLOR, *Comdr. (late I.N.)*,
Superintendent, Marine Survey of India.

MARINE SURVEY DEPT., *Calcutta*, 1*st June* 1882.

This notice affects the following :—

BRITISH ADMIRALTY Charts, Nos. 2031, 828, 70, and 748*b*.
INDIAN MARINE SURVEY Charts, Nos. 1256, 15*b*, and 103*a*.
Also Taylor's Sailing Directory, Vol. I, page 442.

If this Notice is received on board ship, the substance of it should be inserted on the Charts affected by it, and introduced into the Sailing Directions to which it relates.

The 18th May 1882.—The following notification is published for information.

EDUCATIONAL NOTICES.

Department Public Works half-yearly examination.

THE half-yearly examination of candidates for promotion and employment in the Public Works Department will be held at the Government Engineering College, Howrah, at 10 o'clock, on Monday, the 7th August 1882, and the following days. Applications, with fees for admission to the examination, are required to be filed before the 15th of July 1882. Candidates for the grade of accountant who are not in Government service should be under 25 years of age, and must prove to the satisfaction of the Principal that they are under that age.

The following are the centres of examination sanctioned by the Government of India as stations where candidates for Fourth Grade Accountantships are to appear for examination:—

Agra, Ajmere, Ahmedabad, Allahabad, Akyab, Baloram, Durbhunga, Howrah, Indore, Jabalpore, Lucknow, Lahore, Mhow, Moultan, Mount Aboo, Meerut, Nagpore, Neemuch, Rawalpindi, Rangoon, Saidpore, Shillong, and Simla.

Candidates for the Accountants' examination are therefore requested to select one of the places mentioned above.

SIBPORE;
The 12th June 1882.

J. S. SLATER,
Offg. Principal, Govt. Engineering College, Howrah.

THE Calcutta Medical College Session, 1882-83, will commence on the 15th June next.

2. Students who may be desirous of commencing their studies, are requested to apply to the Principal between the hours of 11 A.M. and 4 P.M. on or before the 15th June next.

Ten (10) free presentations will then be awarded. These are given to students according to their relative position in the University B.A., B.L., and F.A. Examinations, preference being given to those who have passed the highest examination.

3. No person shall be enrolled on the list of regular students of the College, who has not previously passed the First Arts Examination of the Calcutta University, or some one of the preliminary Arts Examinations of the United Kingdom recognized by the British General Medical Council.

4. All regular students of the College are required to pay Rs. 15 on entrance, Rs. 30 for the Summer session on the 15th June, and Rs. 30 for the Winter session in November of each year.

5. Students who have failed to pass, and who, under the regulations of the University, are required to attend a further course of lectures and of hospital practice before being allowed to present themselves again for examination, will pay for such further course an annual fee of Rs. 45 in two instalments of Rs. 30 and Rs. 15, payable at the beginning of the Summer and Winter session respectively.

6. Any regular students of the College may, with the permission of the Principal and the Professors of the subject, attend courses of lectures or departments of hospital practice outside and in addition to the full curriculum for the year, and he shall be entitled to certificates of attendance at such extra lectures, if the Professor is satisfied that he has really studied the subject. The fees payable in advance for such additional courses are the following:—

	Rs.
For a single course of lectures on each subject	40
For six months' attendance in each department of hospital practice	60

7. Any regular student who leaves the College before completing his University course, with the object of continuing his studies at a medical school in Europe, may receive certificates of attendance at lectures on payment of fees at the rates fixed in the foregoing rule. But in calculating the sum to be so paid, the amount of the fees already paid by him as a regular student, or, in the case of a free student, the amount which would have been paid by him had he been a paying student, shall be deducted.

8. Any person not being a regular student of the College, who may be desirous of attending any course of lectures or any department of hospital practice, may do so with the permission of the Principal and the Professor of the subject, on payment, in advance, of fees at the rates fixed in rule 6.

If such student has passed the Entrance Examination of the University, he may receive certificates of attendance at lectures, provided the Professors are satisfied that he has attended the full course of lectures, and has mastered the subject taught.

A student who has not passed the Entrance Examination will be entitled to no certificates of any kind.

9. College scholarships, prizes, and certificates of honour, are open for competition only to regular students of the College and the Hospital Apprentice class.

10. No fees are payable by the holders of the Calcutta Medical College Scholarships. The holders of the Doorga Charan Laha and all other scholarships will be required to pay fees as a regular student. These scholars may pay their fees in advance, or have their scholarship money deducted till the full amount is received.

11. Any student holding a Medical College scholarship will be permitted to draw the stipend of the said scholarship at any recognized medical school in the United Kingdom, provided he furnishes from the head of such school a certificate of good conduct and diligent prosecution of his studies.

12. The offices of class assistant, clinical clerk, dressers, &c., can be held only by students whose names are on the rolls of the College.

Orders and Notifications by the Government of India, &c.

[*Reprinted from the Gazette of India.*]

The following orders, issued by the Government of India in the the Home Department, are republished for general information:—

NOTIFICATIONS.—PUBLIC.

Simla, the 8th June 1882.

No. 865.—Under the provisions of Section 17 of the Indian Arms Act, 1878, the Governor-General in Council is pleased to direct that the following Rule for the grant of licenses for the importation into British India, by land or river, of arms, ammunition, or military stores, shall be inserted after Rule 6B of the rules framed under Section 17 of the said Act, and published in the notification mentioned in the margin:—

No. 1601, dated the 30th August 1879.

6C. Licenses to import into British India, by land or river, arms (other than arms for which the Governor-General in Council is to issue licenses under Rule 5), ammunition, for military stores, may be granted by the Magistrate of the district to which such arms, ammunition, or military stores are consigned; or, if such arms, ammunition, or military stores are consigned to a Presidency Town, by the Commissioner of Police. The fee payable in respect of each such license shall be Rs. 5; but officers granting such licenses are empowered to remit the fee when the arms, ammunition, or military stores are of a reasonable quantity, and such officers are satisfied that they are required *bonâ fide* for purposes of protection of person or property. In the case of arms, ammunition, or military stores imported from a Native State, a copy of the license shall be sent by the officer granting it to the Political Officer of the State from which they are to be imported. If the district to which the arms, ammunition, or military stores are consigned is other than a frontier district, and they are to cross the frontier by road or river, a copy of the license shall also be sent to the Magistrate of the frontier district, who shall, if he thinks necessary, before permitting the arms, ammunition, or military stores to leave his district, require the holder of the license to produce them for his inspection. In cases in which the arms, ammunition, or military stores are to cross the frontier by rail, a copy of the license shall be sent to the railway authorities at the place to which the arms, ammunition, or military stores are to be conveyed by railway. The railway authorities shall in every such instance satisfy themselves before delivery that the arms, ammunition, or military stores claimed by any consignee correspond with the description given in the original license, which must be produced by him, and also that the license is identical in substance with the copy sent to them by the officer granting

it. If the license is not produced, or the arms, ammunition, or military stores claimed do not correspond with the description in the license, the railway authorities shall give immediate notice of the fact to the nearest Magistrate. Nothing in this rule applies to import into the district of Ajmere.

The licenses shall be prepared in the following form :—

FEE FIVE RUPEES IN STAMPS.

Magistrate of the _____ *District*

or

Commissioner of Police, _____.

The ___ _____ 188 .

Endorsements to be printed on the reverse of the above form :—

This license is valid only for the period and the route named herein.

It becomes invalid if bulk is broken, or the consignment stopped, at any place on the journey.

It is given subject to the provisions of the Indian Arms Act, 1878, and of the rules framed thereunder

The contents of each package covered by this license shall be described in legible characters on the outside of such package.

This license must be delivered to the District Magistrate or the Commissioner of Police when the articles covered by it reach their destination. In the cases of consignments crossing the frontier by road or river, the articles must, within six days of their reaching British territory, be available for exhibition to the frontier Magistrate, or other officer whom he may empower in this behalf. In case of consignments crossing the frontier by rail this license must be shown to the railway authorities of the station of delivery.

The Governor-General in Council is also pleased to direct that the following rules shall be substituted for Rules 7A, 8, 9, and 10 of the rules framed under Section 17 of the Indian Arms Act, 1878, and published in Home Department notification No. 1892, dated the 25th November 1881 :—

(7A.) Nothing in Rule 5, 6, 6C or 7 shall be deemed to authorise the grant of licenses—

(*a*) to import any arms, ammunition, or military stores from Portuguese India;

(*b*) to export to Portuguese India by sea, river or land, any arms, ammunition, or military stores, except the same be exported for the exclusive use of the Government of Portuguese India, or are covered by a special license for import into Portuguese India signed by the Secretary General to the Government of Portuguese India.

(8.) Persons desirous of transporting, importing by land or river, or exporting arms, ammunition, or military stores, must apply in writing to the nearest officer authorised to grant such licenses. The application must specify—

(*a*) the place to which the articles are to be transported, imported or exported; the route of transport, import, or export; and the probable time that will be occupied in the journey:

(*b*) the quantity, description, average price, and the purpose of each kind of arms or ammunition: or

(*c*) in the case of transport or export, whether the applicant has obtained the consent of the Magistrate or Political Officer of the place of consignment. [If so, the evidence of such consent must be produced.]

(9.) Persons transporting, importing by land or river, or exporting arms, ammunition or military stores under a license, must write legibly on the cases or packages containing such articles an account of their contents.

(10.) In the case of transport, or import by land or river, the consignee must, within six days of the articles reaching their destination, deliver the transport or import license to the Magistrate of the district, or, in the case of a Presidency Town, to the Commissioner of Police. In the case of articles crossing the frontier of British India by road or river—(1) the export license must, within six days of the consignment reaching the frontier district, and before it leaves British territory, be delivered to the Magistrate of the frontier district, or other officer empowered by him on this behalf; (2) the import license must, within six days of the consignment entering British territory, be shown to the Magistrate of the frontier district, or other officer empowered by him on this behalf.

The officer to whom the transport, import, or export license, as the case may be, may be delivered, must satisfy himself that the articles correspond with the entries in the license, and that any deficiency is properly accounted for.

generally in our female education it is a matter for consideration whether education in schools should be acquire a correct knowledge of their duties as daughters, wives, and mothers, and above all, their duty to God, how to bring up children properly. I have therefore written the present work, which is purely a moral tale, children, which cannot be taught unless the girls receive a sound moral education."

The subject of this paper is "The relation of Christianity to Hinduism," by the Rev Dr. K. M. Banerji. The point sought to be established is that the Christian doctrine of human salvation through the self-sacrifice of Jesus Christ, who was both God and Man, has its counterpart in the Vaidik doctrine of salvation by means of sacrifice, Prajápati, the Lord of all, and the helper, feeder, and deliverer of man, being himself sacrifice, that is to say, having sacrificed himself for the *Devas* or emancipated men, and made himself both mortal and immortal for that purpose.	222

Nov. 11th	10	8vo. dy.	1st ...	500	Printed	0 3 0	Rev. E. F. Willis, 164, Bowbazar Street, Calcutta.	The subject of this paper is—"Brahmoism—Is it for or against Christianity?" The question is not very definitely answered; but the writer seems to think that though Brahmoism does not possess anything in dogma or practice which is decidedly opposed to Christianity, there are in it elements of serious error which may lead to its deterioration. The Brahmoism considered by the author is that represented by the Church of Babu Keshab Chandra Sen.	223
„ 29th	13	8vo. dy.	1st ...	500	ditto ...	0 3 0	ditto ...	The subject dealt with in this paper is—"The Catechetical School of Alexandria: Its lessons to the Missionary Clergy of India." After explaining the eclectic system of religious teaching which obtained in the Catechetical School of Alexandria, the writer says that "the best mode of presenting the evidences of Christianity to Hindus, especially the educated and more learned among them," is not by praising Christianity at the expense of Hinduism, as has been often done by Christian Missionaries in this country, but "by rescuing whatever elements of truth may be found underlying their philosophical systems and religious practices, and grounding on them the higher and fuller teaching of express Revelation."	224

Jan. 9th	11	8vo. dy.	1st ...	500	ditto ...	0 4 0	ditto ...	The subject of this paper is—"The Sacramental system of the Church." It has a preface in which the editor says that Protestant Missionaries in this country commit a serious mistake by preaching Christianity to the people of India in an abstract form, and not in the form of a living, organised Church.	225
Feb. 25th	23	8vo. dy.	1st ...	500	ditto ...	0 4 0	ditto ..	St. Athanasius's method of teaching Christianity is explained in this paper. The writer seems to be of opinion that the Christian Missionary in India has to work in a field which is in some respects similar to that in which, in the later days of the Roman Empire, rational expositions of Christianity, like that of St. Athanasius, were attended with success.	226

The mean pressure, temperature, &c., are deduced from the traces of the Barograph and Therm[illegible] and from observations made at 6h, 10h, 16h, and 22h.

The maximum and minimum temperatures are obtained from self-registering thermometers. [illegible] thermometers are verified, and the readings have been corrected to a standard constructed and [illegible] at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspend[illegible] feet above the ground.

The barometer readings are corrected approximately to those of the standard Newman's [illegible] formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables compute[illegible] Meteorological Office, and based on Regnault's modifications of August's formula.

The direction of the movement of the wind are taken from the trace of a Beckley's anemograp[illegible]

The mouth of the rain-gauge is one foot above the ground.

o overcast, g gloomy, t thun[illegible] dust-storm, p passing temporary showers, d drizzling rain.

The results of observations at the Alipore Observatory are not rigorously comparable with the registers of past years (at the Park-street Observatory). The barometer is about 3 feet higher at Alipore, and, other things being equal, reads therefore ·003 lower. The diurnal range of temperature is also greater at Alipore, and the mean temperature apparently about 2·70° lower; and finally, the thermometer, which has furnished the record of temperature at the Surveyor-General's Office during the last 20 years and upwards, is found to read 0·6 higher than the Kew standard thermometer, which is the standard of reference at the present Observatory.

Orders and Notifications by the Lieut.-Governor of Bengal, the High Court, Government Treasury, &c.

ORDERS BY THE LIEUT.-GOVERNOR OF BENGAL.

No. 2414A.

GENERAL.—*The 3rd June* 1882.—Mr. F. W. Badcock, Joint-Magistrate and Deputy Collector, 24-Pergunnahs, acted temporarily as Additional District and Sessions Judge, 24-Pergunnahs and Hooghly, from the afternoon of the 6th ultimo to the forenoon of the 19th idem.

The 8th June 1882.—The services of Baboo Brohmonath Sen, Deputy Magistrate and Deputy Collector, are placed at the disposal of the Revenue Department of this Government for employment as a member of the Board for the management of Rajah Lilanund Singh's Estates, with effect from the date on which he joined that appointment.

This cancels the order of the 29th April last, placing the services of Baboo Brohmonath Sen at the disposal of the Board of Revenue.

The 12th June 1882.—Baboo Ramakhoy Chatterjee, Deputy Magistrate and Deputy Collector, Cutwa, Burdwan, is allowed leave from the 18th to the 21st May 1882, inclusive, under section 127, chapter X of the Civil Leave Code, in extension of the leave granted to him under the order of the 27th January last.

Baboo Durgagati Banerjee, Personal Assistant to the Commissioner of the Patna Division, is allowed leave for two months and eight days, under section 71, chapter V of the Civil Leave Code, with effect from the 5th proximo.

Baboo Dwarka Nath Mookerjee, Temporary Deputy Magistrate and Deputy Collector, Shahabad, is allowed leave for four days, under section 127, chapter X of the Civil Leave Code, in extension of the leave granted to him under the order of the 29th April last.

Mr. R. H. Greaves is appointed to act, until further orders, in the first grade of Joint-Magistrates and Deputy Collectors in the district of Shahabad, with effect from the date on which he was relieved of his appointment as Officiating District and Sessions Judge of Noakholly.

In supersession of the order of the 20th ultimo, Mr. P. G. Melitus, Assistant Magistrate and Collector, Chittagong, is transferred to Burdwan, and is posted to the Sudder Station of that district.

This cancels the order of the 20th May last, transferring Mr. H. F. Mathews, Officiating Joint-Magistrate and Deputy Collector, from Rungpore to Burdwan.

Baboo Nobin Krishna Banerjee, Temporary Deputy Magistrate and Deputy Collector, Jungypore, Moorshedabad, is allowed leave up to the 25th May 1882 inclusive, under section 127, chapter X of the Civil Leave Code, in extension of the leave granted to him under the order of the 20th March last.

The 15th June 1882.—Baboo Kedar Nath Dutt, Deputy Magistrate and Deputy Collector, Baraset, 24-Pergunnahs, returned from leave on the forenoon of the 17th May 1882.

The 16th June 1882.—Baboo Rajendra Nath Mitra, Deputy Magistrate and Deputy Collector, 24-Pergunnahs, is appointed to act as Collector of Stamp Revenue, Calcutta, under Act I of 1879 and Act VII of 1870, and Superintendent of Excise Revenue in Calcutta, 24-Pergunnahs, and Hooghly, as far as the Sulkeah thana, under Act VII (B.C.) of 1878, during the absence, on leave, of Mr. G. M. Goodricke, or until further orders.

Baboo Rajendra Nath Mitra is vested temporarily, under Act XXIII of 1850 and Act VII (B.C.) of 1876, with the powers of a Deputy Collector of Land Revenue in Calcutta.

Baboo Deno Nath Mookerjee, Deputy Magistrate and Deputy Collector, Hazareebagh, is allowed leave for six months, under section 127, chapter X of the Civil Leave Code, with effect from such date as he may be relieved.

Baboo Shyamadhub Roy, Officiating Deputy Magistrate and Deputy Collector, Hooghly, is transferred to Hazareebagh, and is posted to the Sudder Station of that district.

Baboo Koomud Nath Mookerjee, Temporary Deputy Magistrate and Deputy Collector, on leave, is posted to the Sudder Station of the Hooghly district.

The 18th June 1882.—Mr. H. J. H. Fasson, C.S., reported his departure from India, on furlough, on the afternoon of the 19th May 1882.

Mr. R. Cornish, C.S., reported his departure from India, on furlough, on the 28th April 1882.

The 19th June 1882.—Mr. W. H. Ryland, Officiating Superintendent of Stamps and Stationery, Calcutta, is allowed leave for three months, under section 71, chapter V of the Civil Leave Code, with effect from the 8th proximo.

Mr. C. G. Longhurst is appointed to act as Superintendent of Stamps and Stationery, Calcutta, during the absence, on leave, of Mr. W. H. Ryland, or until further orders.

NOTICE TO MARINERS.—(22).

CEYLON—EAST COAST.

Non-existence of shoal reported distant 4 miles from Batticaloa.

WITH reference to this Department Notice to Mariners, No. 29, of 15th August 1881, on the reported existence of a shoal (on which the steam vessel *Brennus*, drawing 22 feet, struck) stated to lie about 4 miles off shore with Batticaloa flagstaff bearing about S. W. by W. ½ W., the British Hydrographic Department has notified that—

Further information has been received from the Commander-in-Chief in the East Indies, and from the Government of Ceylon, in reference to searches having been made for this reported danger in H. M. S. *Ready*, and by the Colonial Government. These examinations show that no danger exists so far distant from the land, in the direction reported, and in such deep water (25 to 32 fathoms).

From these examinations, taken in connection with the evidence collected, it is considered that the *Brennus* struck on a shoal not heretofore charted, lying with Batticaloa flagstaff bearing S. 7° W., distant 7¼ cables, situated in the midst of known shoal coral ground.

This new shoal, with a least depth over it of 15 feet, lies 3¼ cables N. W. of the 7-feet shoal known as Tower rock ; 6 cables W. ¼ S. of the 12-feet shoal known as Beacon rock ; and 8¼ cables E. by S. of the 19-feet shoal known as Surveyor rock.

SENATE HOUSE,
The 15th June 1882.

ORDERS BY THE VICE-CHANCELLOR AND SYNDICATE OF THE CALCUTTA UNIVERSITY.

The following changes in the Regulations in Engineering having been sanctioned by the Senate and approved by His Excellency the Governor General of India in Council, are published for general information :—

For the Regulations for the First Examination in Engineering, for the Licence in Engineering, and for the Degree of Bachelor in Engineering, the following Regulations have been substituted, with effect, as regards the First Examination in Engineering, on the 1st of August 1883, and as regards the Licence and the Degree of Bachelor in Engineering, on the 1st of January 1885 :—

FIRST EXAMINATION IN ENGINEERING

1. The First Examination in Engineering shall be held every year in Calcutta, and shall commence at such time as the Syndicate may determine, the date to be approximately notified in the Calendar for the year.

2. Any undergraduate of the University may be admitted to this Examination, provided he has prosecuted a regular course of study in a School of Engineering affiliated to the University, for two years and six months after passing the Entrance Examination.

3. Every candidate for admission to the Examination shall send his application, with a certificate in the form entered in Appendix A, to the Registrar, at least fourteen days before the date fixed for the commencement of the Examination.

4. A fee of twenty rupees shall be payable by each candidate. No candidate shall be admitted unless he has paid this fee to the Registrar. A candidate who fails to appear or to present himself for Examination shall not be entitled to claim a refund of the fee. A candidate may be admitted to one or more subsequent Examinations on payment of a like fee of twenty rupees on each occasion.

5. Every candidate shall be examined in the following subjects:—

I. Mathematics.
II. Natural Science.
III. Engineering Construction.
IV. Geodesy.
V. Drawing.

I. MATHEMATICS.

Arithmetic. The whole.

Algebra.

To the Binomial Theorem (omitting scales of notation) Exponential Theorem and Logarithms.

Geometry.

Euclid—Books 1, 2, 3, 4, and 6, with deductions, Conic Sections treated geometrically.

Trigonometry.

As far as the solution of all cases of plane triangles, DeMoivre's Theorem, Exponential values of Sine and Cosine.

Mensuration.

Mensuration of surfaces and solids.

Analytical Geometry.

Equations of the straight line, circle, ellipse, hyperbola, and parabola, without reference to the general equation of the 2nd degree.

Statics.

Parallelogram and triangle of forces, Resultant of parallel forces, Couples, Moments Equilibrium of any forces acting on a particle or rigid body. Centre of parallel forces, Centre of gravity. Friction, simple cases of tension of Strings, Levers, Pulleys, Wheel and axle, Inclined plane, Screw.

Dynamics.

Definition and measurement of mass, force, velocity, acceleration, momentum, work and energy.* Laws of motion' Uniform motion. Uniformly accelerated motion in a straight line, parabola and circle. Relative motion. Simple cases of impact.

II. NATURAL SCIENCE.

Chemistry.

Inorganic Chemistry. The metals and non-metals.

Physics.

Light, Heat, Electricity, Magnetism and the Elements of Telegraphy.

III. ENGINEERING CONSTRUCTION.

Materials. Structure, Classification, and characteristic qualities of Building Stones, Artificial Stones, Quarrying and Blasting, Preparation of Bricks and Tiles, Cementing materials, Plasters, Paints and Varnishes, Properties and preservation of timber, Iron and Steel, Lead, Copper, Zinc and the common Alloys.

IV. GEODESY.

Use of the scales, Prismatic Compass, Pocket Sextant, Level, Theodolite and Plane table. Topographical Surveying of limited areas. Practice of Levelling. Route surveying and laying out curves. Elements of Practical Astronomy. (Attested surveys, executed by the candidate, will be submitted to the Examiner, to which marks will be assigned.)

V. DRAWING.

1. Free-hand Drawing.
2. Projection (a) Orthographic, (b) Isometric, (c) Perspective.

6. The Examination shall be conducted by means of printed papers, and a paper of questions shall be set in each of the following subjects :—

Arithmetic and Algebra.
Plane Geometry and Geometrical Conic Sections.
Trigonometry and Mensuration.
Statics and Dynamics.
Analytical Geometry.
Chemistry.
Light and Heat.
Electricity, Magnetism, and the elements of Telegraphy.
Materials of Construction.
Geodesy.
Drawing.

* Special importance will be attached to a thorough comprehension of the principles of Work and Energy, and of their application to the solution of Mechanical questions.

7. As soon as possible after the Examination the Syndicate shall publish a list of the successful candidates arranged in two divisions, each in order of merit. Every candidate shall, on passing, receive a certificate in the form entered in Appendix A.

LICENCE IN ENGINEERING.

1. An Examination for a Licence* in Engineering shall be held annually in Calcutta, and shall commence at such time as the Syndicate shall determine, the date to be approximately notified in the Calendar for the year.

2. Any undergraduate of the University may be admitted to this Examination on producing a certificate from the head of an institution affiliated to the University in Engineering, shewing that he has prosecuted a regular course of study for not less than one Academical year after passing the First Examination in Engineering.

3. Every candidate for admission to the Examination shall send his application, with a certificate in the form entered in Appendix A, to the Registrar at least fourteen days before the date fixed for the commencement of the Examination.

4. A fee of twenty-five rupees shall be payable by each candidate. No candidate shall be admitted unless he has paid this fee to the Registrar. A candidate who fails to pass or to present himself for Examination shall not be entitled to claim a refund of the fee. A candidate may be admitted to one or more subsequent Examinations on payment of a like fee of twenty-five rupees on each occasion.

5. Every candidate shall be examined in one of the following Branches marked A and B :—

A.—(Civil Engineering.)

I. Mathematics.
II. Natural Science.
III. Engineering Construction.
IV. Drawing.

I. MATHEMATICS.

Differential Calculus.

Differential coefficients of simple and complex functions, successive differentiation, Differential functions of two variables, functions of functions; Implicit functions. Taylor's and Maclaurin's Theorems. Maxima and Minima, values of functions of one variable.

Integral Calculus.

Integration of simple functions, Rational fractions. Formulæ of reduction Lengths of curves. Areas of curves and surfaces. Volumes of solids. Differentiation of an integral.

Hydrostatics.

Equilibrium of fluids, Specific gravity, Equilibrium of floating bodies, Centre of pressure, Elastic fluids, Principles of Barometer, and application to determine heights of Mountains; of the air-pump. Condenser-pump, Siphon, Hydrostatic Press and the Hygrometers.

II. NATURAL SCIENCE.

Geology. (Excluding Palæontology and the Stratigraphical classification based thereon) with special reference to the practice of mining.

Mineralogy. The form of minerals. The physical, optical, and chemical character of minerals. The distribution of minerals. Paragenesis.

Metallurgy. The metallurgy of Iron, Steel, Tin, Copper, Zinc, Lead, Mercury, Silver and Gold.

* The holder of this Licence shall be styled a Licentiate in Engineering.

III. ENGINEERING CONSTRUCTION.

Practice of Building. Brick and stone masonry, Earthwork, Carpentry, Foundations, Walls, Floors and Roofs of Buildings, Construction of Masonry, Wooden and Iron bridges, Construction and maintenance of Roads, Construction of Railroads and Railway appliances.

Hydraulic Engineering. Canal and River Engineering, River training and improvements, Flow of liquids through orifices, Flow of liquids in pipes. The movements of water in Canals and Rivers, Flow of water over weirs and waste weirs, Afflux of fluids caused by obstructions, Water-wheels and Turbines, Storage of water, Supply of water to towns.

Applied Mechanics. Direct stresses, Bars and pillars of various forms in tension and compression, Transverse strain, Deflection of beams, Resistance to torsion. The equilibrium, stability and strength of Framed Structures, Stability of suspension bridges, Theory of Earth pressure, and Resistance of Block work Structures. Elements of Graphic Statics.

Mechanism. Elementary forms of Machines, Levers, Cranks, Rolling Contacts, Sliding Contacts, Mechanism for modifying motion, Accumulation and Regulation of Motion.

Steam Engine. Measurement of Heat, Joule's Equivalent, Indicators and Indicator diagrams, Boilers, Heating surface, injectors and all other parts of high and low pressure Engines.

IV. DRAWING.

Engineering and Architectural Drawing.

B.—(Mechanical Engineering.)

I. Mathematics.
II. Engineering Construction.
III. Machinery.
IV. Drawing.

I. MATHEMATICS.

As laid down for the Examination for Branch A.

II. ENGINEERING CONSTRUCTION.

Practice of Building. As laid down for the Examination for Branch A.

Applied Mechanics. As laid down for the Examination for Branch A.

Steam-Engine. The Steam-Engine as viewed under a knowledge of the doctrine of Latent Heat with history of improvements and alterations in original theories, Combustion of fuel, Heat Engines. The conversion of Motion, Indicators and details of Construction Boilers, Compound Cylinder Engines, Miscellaneous details.

Hydraulic Engineering. Hydraulic Machinery, Flow of water in pipes.

III. MACHINERY.

Mechanism and Machine design. Elementary forms of Machines. Levers, Cranks, Rolling Contacts, Sliding Contacts, Mechanism for modifying motion, Accumulation and regulation of Motion. Mode of designing Riveted Joints, Fastenings, Journals, Pivots, Axles, Shaftings, Bearings, Strength and form of toothed gearing, Belt and rope gearing, Link-work, Pistons, Stuffing boxes, Valves and Cocks.

Workshop Appliances. Measures of length and methods of measuring. Hand tools for wood and metals, Forming straight edges and surface plates. Foot and power Lathe, Machinery for Drilling, Boring, Planing, Shaping, Slotting, Punching, Shearing and Sawing. Distribution of motive power to Machine tools.

Designs. Designs of Factories and Workshops with arrangement of Machinery.

IV. DRAWING.

Machine Drawing.

6. Candidates shall also be allowed to present themselves for Examination in one or more of the following optional subjects, proficiency in which will affect their place in the division list, but will not be counted towards a pass :—

Optional Subjects.

I. MATHEMATICS.
Pure Mathematics } *as in the First Examination in Engineering.*
Mixed Mathematics }

II. NATURAL SCIENCE.
Chemistry } *as in the First Examination in Engineering.*
Physics }

III. ENGINEERING CONSTRUCTION.
Materials of Construction, *as in the First Examination in Engineering.*
IV. GEODESY, *as in the First Examination in Engineering.*

7. The Examination shall be conducted by means of printed papers, and a paper of questions shall be set in each of the following subjects :—

Branch A.

Differential and Integral Calculus.
Hydrostatics.
Geology.
Mineralogy and Metallurgy.
Details of Construction.
Roads and Railways.
Hydraulic Engineering.
Applied Mechanics.
Mechanism and Steam-Engine.
Engineering and Architectural Drawing.

Branch B.

Differential and Integral Calculus.

Geodesy.

8. As soon as possible after the Examination, the Syndicate shall publish a list of the successful candidates arranged in two divisions, each in order of merit. Every candidate shall, on passing, receive a certificate in the form entered in Appendix A.

BACHELOR IN ENGINEERING.

1. An Examination for the Degree of Bachelor in Engineering shall be held annually in Calcutta, and shall commence at such time as the Syndicate shall determine, the date to be approximately notified in the Calendar for the year.

2. Any candidate who has passed the First Examination in Arts* may be admitted to this Examination, provided he produces a certificate from the head of an institution affiliated in Engineering, shewing that he has prosecuted a regular course of study for not less than one Academical year, after passing the First Examination in Engineering.

3. Every candidate for admission to the Examination shall send his application, with a certificate in the form entered in Appendix A, to the Registrar, at least fourteen days before the date fixed for the commencement of the Examination.

4. A fee of thirty rupees shall be payable by each candidate. No candidate shall be admitted, unless he has paid this fee to the Registrar. A candidate who fails to pass or present himself for Examination shall not be entitled to claim a refund of the fee. A candidate may be admitted to one or more subsequent Examinations on payment of a like fee of thirty rupees on each occasion.

* Any undergraduate who has passed the First Examination in Engineering may proceed to the First Examination in Arts and the Bachelor of Art Examination, without completing the two years of study at an affiliated institution required under para. 2 of the First Arts and B. A. Regulations.

5. Every candidate shall be examined in the subjects and in the manner ordered in paragraphs 5, 6 and 7 of the Regulations for a Licence in Engineering.

6. As soon as possible after the Examination, the Syndicate shall publish a list of the successful candidates arranged in two divisions, each in order of merit. Every candidate shall, on passing, receive a certificate in the form entered in Appendix A.

7. The first candidate of the first division shall receive a gold medal to the value of one hundred rupees.

8. Any Licentiate in Engineering, who has passed the First Examination in Arts, may, on paying the usual fee, be admitted to the Degree of Bachelor in Engineering without further Examination.

The following orders, issued by the Government of India in the Department of Finance and Commerce, are re-published for general information :—

NOTIFICATIONS.

Simla, the 16th June 1882.

No. 1765.—Ordered that the following correspondence r garding the supply of black writing ink of Indian manufacture for use in Government offices in Madras be published in the *Gazette of India* for general information.

R. E. HAMILTON,
for *Offg. Secy. to the Govt. of India.*

Extract from the Proceedings of the Government of Madras, Financial Department, No. 374, *dated* 19*th May* 1882.

Read the following :—

No. 182, dated 10th May 1882.

From—J. G. FERRAND, Esq., Superintendent of Stationery, Madras,
To—The Chief Secretary to the Government of Madras.

In forwarding the enclosed report from the Committee for examining inks, I beg to add, first, that G. D. Iyah Pillai, whose tender for black ink is recommended for acceptance, is the well-known Madras Ink-maker referred to in the correspondence noted in the margin.

Government orders, 22nd February and 27th August 1881, Nos. 308 and 1578.

2. As regards price, his rate is 6 annas per dozen papers. The last invoice price of the ink-powders received from England is 1*s.* 1*d.* per dozen. Amrita Lall Roy of Calcutta, whose ink forms the subject of the Proceedings of the Government of India, communicated in Madras Government Proceedings, 28th ultimo, No. 344, just received, is one of the tenderers to supply Madras with black ink, and he offers to do so at 8 annas 3 pies per dozen papers. Iyah Pillai's ink is preferred by the Committee to his. The Calcutta price of his ink in bottle, as stated in the Proceedings of the Government of India above referred to, is Rs. 2 per dozen quarts. A dozen powders produce six quarts, and the cost of a dozen quarts of Iyah Pillai's ink, exclusive of bottles, will be 12 annas.

Report from (Major E. A BRUCE, Deputy Assistant Commissary-General; C. D. MACLEANE, Esq, Acting Sub-Secretary to the Board of Revenue; Surgeon T. K. ROGERS, M.B., F.R.C S., Chemical Examiner; E. M. PALMER, Esq., Assistant Accountant-General; and J. G. FERRAND Esq., Superintendent of Stationery) the Committee for Examining Inks, to the Chief Secretary to the Government of Modras, dated 10th May 1882.

With reference to G. O., 31st October 1881, No. 2100, we beg to report that the following tenders were opened, at the Stationery Office on 15th February last, for the supply of black and read inks of Indian manufacture:—

Names of Tenderers	For black ink-powder, 3,640 dozen of 1¼ ounces each paper.		For red ink-powder, 30 ounces in papers, 1 doz = 1 oz.		Value of Tender.	Bank's receipt for deposit as security.
	Per doz. rate.	Rs. A. P. 0 10 5	Per oz. rate.	Rs. A. P 0 13 7		
					Rs. A. P.	Rs. A P.
1. G. D. Iyah Pillia ...	Doz.	0 6 0	. ..	...	1,365 0 0	70 0 0
2 M Narasimooloo Chetty	,,	0 5 0	Oz.	0 2 6	1.142 3 0	64 0 0
3. Gooerdondoss Birjubookoondoss &Co.	,,	0 6 6	,,	.....	1,478 12 0	75 0 0
4 Theagaroya Moodelly	,,	0 6 0	Doz.	0 7 6	... ..	100 0 0 Money order
5 Mr. Kelkar, Poona . ..	,,	0 7 0	,,	.....	... .	80 0 0 Calcutta Currency Notes
6. Amirta Lall Roy, Calcutta	,,	0 8 3	,,	.....	... ..	95 0 0

2. Narasimooloo Chetty and Theagaroya Moodelly, who alone tendered for red ink, made each a pint of his ink in our presence. The former acknowledged his powder to be fuchsine, and the latter his to be ponceau. There was thus really no tender for red ink of Indian manufacture.

3. The samples of black ink furnished with the above tenders were tried by us and tested by Dr. Rogers, Chemical Examiner, whose report on these and on the inks specified in the mragin is herewith forwarded. Dr. Rogers also laid before the committee specimens of writing executed with the various inks which had been submitted to a considerable number of tests, showing how they had borne them. We beg to recommend the acceptance of the tender of G. D. Iyah Pillai, whose we consider to be on the whole the best of the inks tendered; and we do not think that an ink inferior to this should be supplied to public offices.

Morrell's registration blackink.
Dr Waldie's black ink, tested under instructions demi-officially received from Government

---

No. 77, dated 6th May 1882.

From—SURGEON T. K. ROGERS, M.B., F.R.C S., F.C S. (*London*), Chemical Examiner, Madras,

To—The Superintendent of Stationery, Madras.

As requested at the last meeting of the Committee, I have the honour to submit a brief abstract of the conclusions arrived at from the results of the various tests and trials which were for the most part shown to the Committee.

2. The two inks tendered in solution were both of excellent quality, but "Waldie's Black Writing Ink" was superior to "Morrell's Registration Ink."

3. The seven samples of inks tendered in powder are decidedly inferior in quality to "Morrell's" ink.

The results obtained with Iyah Pillai's ink were in every respect slightly superior to those obtained from the other six samples.

And Iyah Pillai's ink keep much better than the other six samples, which grow mouldy after a very brief exposure.

Order thereon by the Government of Madras.

The Government sanction the acceptance of Iyah Pillai's tender for the supply of black ink. It is noted that there was no tender for red ink of Indian manufacture, the samples produced being merely fuchsine and ponceau powders.

DISTRICT ROAD FUND.

NOTIFICATION No. 232.

The 20th June 1882.

THE following annual accounts and abstracts of the reports of the Road Cess Committees of the Dacca, Furreedpore, Backergunge and Mymensingh districts, for the cess year 1880-81, together with the remarks thereon of the Commissioner of the Dacca Division, are published for general information.

G. F. E. S. NEILL, *Major*, M.S.C.,

Asst. Secy. to the Govt. of Bengal, P. W. Dept.

Abstract of a report by the Chairman of the District Road Committee, Dacca, on the Committee's operations for the cess year 1880-81.

THE Road Cess Act has been worked in this district without difficulty.

All the members of the District Road Committee, as well as those of the Branch Committees of Manickgunge and Moonsheegunge, have taken interest in and done their work satisfactorily, with the exception of those who did not attend a single meeting.

The grants for village roads were in certain cases supplemented by private donations, and lands were given up free of cost for the construction of such roads in every instance. A small sum was spent on village roads in the sudder sub-division, partly owing to the fact that in certain cases the grants asked for were found on enquiry not to be within the amount that could be allotted for village roads, and partly owing to the fact that in others the roads applied for were found not to be of sufficient public importance so as to justify a grant being made.

Great efforts were made during the year in planting out fresh lengths of road with young trees, and in nursing and protecting those previously planted out. About 1,200 young trees, consisting of mangoe, jack and jaban, were planted out along the sides of two roads since the beginning of July last. There are now in all 5,415 trees, chiefly fruit-bearing trees, along several roads in the district.

All the roads in the district are reported to be in fair order, with the exception of the forest section of the road from Dacca to Toke.

The different establishments under the District Road Committe have worked well and given satisfaction in the discharge of their respective duties.

During the year under report the pay of the employés of the Road Cess Committee for September 1881 has been disbursed during that month in consequence of the Doorgah Poojah holidays, hence their pay for 13 months is shown.

a Of this sum, Rs. 171 represents the pay of clerks and mohurirs for September 1881, and was provided for in the budget estimate of the current year.

b Of this sum, Rs. 62-8 is on account of pay of peons for September 1881, which was provided for in the budget estimate of the current year.

c Sanctioned in Commissioner's No. 824R, dated 16th July 1881.

d This amount was originally provided for in the budget estimate under heading "Contingencies—Administration," being excess, but in conformity with the Commissioner's resolution No. 332R, dated 31st January 1881, it has been deducted from here and shown under "Stationery and Printing."

e Of these sums, Rs. 121-8 represents the pay for September 1881, and was provided for in the budget of the current year, but it was paid during September 1881 owing to the Doorga Poojah vacation.

Abstract of a report by the Chairman of the District Road Cess Committee, Furreedpore, on the Committee's operations for the cess year 1880-81.

The Cess collections during the year were rather unsatisfactory, as there was a heavy unrealized balance at its close.

The members of the District Road Committee generally showed great interest in the administration of the fund, and those of the Branch Committee of Madaripore also took interest in their work.

Attention was given by the District Committee as well as by the Branch Committees of Madaripore and Goalundo to the construction and repairs of village roads. There is a standing sub-committee to receive and consider the applications for village roads in the sudder sub-division; on the recommendation of this sub-committee, advances were made to the villagers for the execution of works, but in consequence of remissness on their part in taking the money and in submitting the accounts in due time, the greater portion of the estimated outlay remains unexpended during the year.

Arboriculture also received due attention of the Committee. Two nursery gardens were established, viz., one at Furreedpore and the other at Mudhukhally, from which trees are being transplanted on the several roads of the district. Good progress has been made on tree-planting on several lines of roads, and the trees planted have been properly protected.

The working of the different establishments under the Committee was generally good.

H. B. MOOKERJEE,

Vice-Chairman.

Abstract of a report by the Chairman of the District Road Cess Committee, Backergunge, on the Committee's operations for the cess year 1880-81.

The non-official members of the District Road Committee took considerable interest in the business which came on before them for discussion, while those of the branch committees took but little interest in their work. The attendance of the latter was not good, and they are generally considered to be useless. In the Bhola sub-division, seven out of fourteen members attended no meetings, while none attended more than three of the seven meetings held; six out of fourteen attended no meetings in the Perozepore sub-division, and eight not more than two meetings. Three meetings were held in the Patuakhally sub-division, at one of which there was no quorum

The grants for village works have been expended on roads and bridges, and rivers and khalls in the several sub-divisions. A small sum of Rs. 237-3-6 was spent in planting out Bhola and Perozepore station roads.

The different establishments under the committee appear to have worked well, with the exception of the overseer under the Perozepore Branch Committee, who gave a great deal of dissatisfaction in the discharge of his duties.

Explanatory memorandum to accompany the annual accounts for 1880-81.

(A) Rs. 60-5-9, incurred on account of charges for office furniture of the collection office, was shown in the monthly statements under contingencies of that office, but under Commissioner's letter No. 991R, dated 21st September 1881, has now been transferred in the annual account under head "Tools and Plant."

(B) For the increase of Rs. 60-5 9, see explanation (A).

C. R. MARRIOTT.
Vice-Chairman.

Abstract of a Report by the Chairman of the District Road Cess Committee, Mymensingh, on the Committee's operations for the cess year 1880-81.

IN this district the Road Cess Act came into actual operation since October 1875, and this report is therefore for the sixth year the Act has been in force. It seems to be popular and much appreciated by the people in general. The cess on lands was levied at the maximum rates ever since the Act has been introduced into the district, and the collections during the year under report amounted to Rs. 1,46,182, against the estimated demand of Rs. 1,45,776. The increase under this head is said to be due to revaluation of certain estates.

The majority of the members of the district road committee and of the branch committees in the several sub-divisions, with the exception of those who live at a distance from the stations, have attended almost all the meetings during the year.

The existing roads in the district have been thoroughly maintained and repaired during the year, and the sum expended was not inadequate to keep them in perfect passable order, so as to facilitate traffic in the district.

The sum expended on the construction and maintenance of village communications during the year was Rs. 37,184-13-4, and that on planting trees on district roads Rs. 274.

The percentage cost of establishments is considerably less than the maximum rate allowed under the Act, being Rs. 15·34 per cent.

The different establishments under the district road committee have performed their work satisfactorily.

R. H. GREAVES,
Vice-Chairman, Road Cess Committee.

J. C. PRICE,
Chairman, Road Cess Committee.

No. 416R, dated Dacca, the 17th March 1882.

From—F. H. PRELLEW, Esq., Commissioner of the Dacca Division,

To—The Secretary to the Government of Bengal, Public Works Department.

I HAVE the honour to submit herewith the annual accounts and reports of the road cess funds of the several districts of this division for the cess year 1880-81, received from the Chairmen of the Road Cess Committees concerned.

2. Under Government circular No. 973A, dated 14th September 1880, it is needless to recapitulate what has already been said in the reports of the district officers or to supply information which is obtainable from the accounts. I beg therefore to make the following brief remarks.

3. The collections of all the districts of the division were sufficient to meet the requirements of the year, and the object of the Road Cess Act, and the benefits conferred by it, were fully understood and appreciated by the people.

4. The construction of new works made very satisfactory progress in Mymensingh and Furreedpore. In the former district some of the most important works were completed during the year, and in the latter the Rajbari road, which is a railway feeder, has been completed, with the exception of certain bridges; and considerable progress has also been made in some other important roads. In Dacca and Backergunge, however, the progress in original works was not great. No explanation of the failure to carry out the programme of the year has been received from Backergunge, while that received from Dacca is hardly sufficient. In Backergunge better progress should have been made as the estimates of several roads received timely sanction.

5. Due attention appears to have been paid in all the districts of the division to the repair and maintenance of the existing roads. This is especially noticeable in the districts of Backergunge and Mymensingh.

6. The subject of village roads appears to have received proper attention in Backergunge and Mymensingh, where considerable sums of money were spent in their construction and maintenance. But it is to be regretted that the villagers should, as reported by the Chairman, Road Cess Committee, of the former district, give but little assistance for the construction of these works.

7. The progress made under this head in the Dacca and Furreedpore districts is small, especially in the sudder sub-divisions of these two districts, and in the sub-division of Madaripore in the latter. The explanation given by the Chairman, Road Cess Committee Dacca, seems to show that the subject of village roads is still imperfectly understood. By "village roads" are especially intended paths leading from one part of a village to another for the convenience of the villagers. If applications for grants and offers to make or keep up such works were, as stated by the Chairman, rejected because they were not of "sufficient public importance," the wishes and intentions of Government have, I think, not been attended to. It is very disappointing to find the sudder sub-division behind the mofussil sub-divisions in the working of this important part of the road cess system.

8. The alleged laxity of the villagers of the Sudder and Madaripore sub-divisions of the Furreedpore district in taking money and submitting accounts, as reported in the Chairman's letter, cannot be peculiar to these two sub-divisions only, and is probably the result of want of attention at head-quarters. I have drawn the attention of the Chairmen of both the districts to the subject, and hope that village roads will receive due consideration in future.

9. It is satisfactory to notice that the grants for village roads in the Dacca district were, in certain cases, supplemented by private donations.

10. It has been proposed to construct a number of feeder roads to the Dacca and Mymensingh Railway now under construction, and Government has promised assistance to this end.

11. The new Cess Act provides for the excavation of tanks for drinking purposes; but from the silence of the district officers on the subject, I presume very little has been done in this direction. In Furreedpore only one tank is reported to have been excavated during the year.

12. Fair progress appears to have been made in planting fruit-bearing trees in the districts of Dacca and Furreedpore; but proper attention does not appear to have been paid to the subject by the Road Cess Committees of Backergunge and Mymensingh. Throughout the whole of Mymensingh, and in several portions of Backergunge, trees can easily be planted on the roadside, and their growth will materially assist in keeping down jungle, which at present disfigures the roads in this division.

13. It has now been finally settled to open steamer communication between Furreedpore and Backergunge from the road cess funds, but the resolution has not yet been given effect to. The report of the Furreedpore Committee on the subject is also very meagre, and no notice has been taken of it in the Backergunge report. The matter was taken up with

the cordial assent of the Railway Company and at the suggestion of Government, and it is not creditable to the District Committees concerned that nothing definite should as yet have been done. The difficulties are imaginary, and a little determination would soon overcome them. I have directed the special attention of both the Chairmen to the subject.

14. The number of meetings held by the Branch Road Cess Committees of Moonshigunge, Goalundo, Patuakhaly, Atea, and Jamalpore was small; indeed, less than the minimum number of meetings required by law. I have drawn the attention of the Chairmen concerned to the subject, and requested them to see that the provisions of the Cess Act are duly attended to in future.

15. The average attendance of the members in general is not satisfactory. Most of the members reside at a distance from head-quarters, and this seems to account for the irregularity in their attendance. Those who attend, however, take interest in the management of the funds.

16. There has been some delay in the submission of the accounts and reports to Government. It is due to the non-receipt in this office of the Furreedpore accounts and reports until (2nd February last) sometime after the date on which they were due to Government. Explanation on certain discrepancies then called for from the Chairman were not submitted until the 8th instant. I have impressed on the Chairman the necessity of punctually submitting his accounts in future, and I hope there will be no occasion to notice similar delay in future.

LAND SALE NOTICES.

NOTICE is hereby given that the undermentioned mehal situated in this district will be sold at the Hooghly Collector's office on the 23rd day of June 1882, corresponding with 10th Assar 1289 B.S. (Friday). Persons purchasing the lands will be subject to the following conditions :—

(1) If the price be less than Rs. 100, the whole amount must be paid in at the time of sale.

(2) If the price be more than Rs. 100 (one hundred rupees), one-fourth of the bid money must be paid in at the time of sale. On the 15th day of the sale (including the day of sale, which will be reckoned as one day) at noon if the balance of the sale money be not paid, the sale will be cancelled, and the deposit money forfeited, and the mehal will be re-sold on the liability of the defaulting purchaser on a fresh notice being issued.

(3) The lands of this mehal will be sold to the higher bidder rent free.

FROM

THE AUDITORS OF THE ACCOUNTS OF THE COMMISSIONERS FOR MAKING IMPROVEMENTS IN THE PORT OF CALCUTTA,

To

THE COMMISSIONERS FOR MAKING IMPROVEMENTS IN THE PORT OF CALCUTTA.

Calcutta, the 6th June 1882.

GENTLEMEN,

WE have the honour to inform you that we have audited your cash and store accounts for the second-half of the official year 1881-82, and have found them to be correct.

2. The annexed statement of assets and liabilities shows your financial position at the close of the year.

3. All the revenue accounts, it will be seen, close with credit balances of larger or smaller amounts; but the transactions of the year 1881-82, considered apart from the accumulations of previous years, are as follows:—

Expenditure—				Rs. 23,801-6-8.
Ordinary		1,47,756 4 8	1,47,756 4 8	

4. As regards your capital account, we observe that there were received during the year to credit of the various works—

	Rs.	A.	P.
From the revenue accounts of Parts I, II, IV, and VI as contributions for new works, and	1,24,468	0	0
By the raising of a debenture loan	10,62,687	8	0
The expenditure on works amounted during the year to	8,77,346	3	1
The unspent balance at the close of the year on account of works under construction was ..	6,84,241	3	9
The unspent balance on account of completed works on the same date was	47,593	6	8
Total ...	7,31,834	10	5
The overdrawals on account of completed works were ..	2,06,934	7	7
Ditto ditto works under construction were	331	0	4
The overdrawals on account of stock ...	60,953	3	11
Total ...	2,68,218	11	10

The cost of the works on account of which these overdrawals have occurred is for the most part, as sanctioned by Government, to be met either from loans which have not yet been raised or from the sale proceeds of surplus land which it has not been considered advisable for the present to sell. In this latter case a loan of Rs. 1,60,000 has, with the sanction of Government, been taken from Part IV to allow of the work being carried on. This loan will be repaid when the land is sold. The overdrawal on account of stock calls for no remark, and the few remaining items have been reported to Government, and sanction has been asked to meet these excesses from the savings on completed works.

5. During the year additions have been made to your block account to the extent of Rs. 7,58,327-15-5. On the other hand your block account has been reduced by Rs 2,00,610, of which Rs. 1,41,000 represent the value of the riverside press house which was lately destroyed by fire, Rs 55,110 the amount of the annual depreciation directed to be charged off from the block of the port proper, and Rs. 4,500 the value of the River Police steam-launch which had been twice added to the block account. On the 31st March last the value of your block as shown in your accounts was Rs. 1,19,11,804-0-6. Besides this amount, Rs. 8,16,425-11-10 had been expended on works which at the close of 1881-82 were still under construction.

6. The amount by which the loan from Government has been reduced during the year is Rs. 90,734-1, and the balance on the 31st March 1882 remaining to be paid was Rs 51,62,829-13, besides the fixed loan of Rs. 17,65,000, which is not repayable.

7. Section 11 of Act IV (B.C.) of 1880 requires the Commissioners to accumulate by half-yearly instalments a sinking fund, of such an amount as will suffice to liquidate, in not more than 30 years, any loan raised by them, and in order therefore to comply with the provisions of the above section a sum of Rs. 10,104-13-1, or 2 per cent. per annum of the loan raised, was set aside from revenue as the first instalment towards the accumulation of a sinking fund to liquidate the loan of Rs. 10,00,000 raised during 1881-82 This sum is less than a sixtieth part of the loan raised; but it is calculated that if Government paper to the extent of Rs. 10,000 is purchased half-yearly, and the interest on investment again reinvested and so on, the sinking fund at the end of 30 years will have the requisite sum to liquidate the loan. We have, however, to point out that the Act referred to does not authorise the interest on these investments being taken into account in calculating the amount to be set aside half-yearly from revenue towards the formation of a sinking fund. In the case of the Calcutta Municipality the interest received upon the investment of the sums set aside from revenue for the sinking fund of the municipal loans is not allowed to be taken in reduction of the amount, 2 per cent. at least of

the loan raised, required by the Municipal Act to be set aside from revenue, but is treated as an addition to the sinking fund over and above the amount set aside from the revenue of the Municipal Commissioners. The matter, we would add, has been reported to Government for orders.

8. During the year 1881-82 a sum of Rs. 1,24,468 was contributed from revenue for new works and renewals, and the total amount contributed from revenue for this purpose to the end of 1881-82 is Rs. 41,19,988-14-1. This sum is exclusive of Rs. 40,313 contributed from the revenue of part IV towards the cost of the tug steamer, the value of which is shown in the Hooghly Bridge block, but includes the sum of Rs. 6,320-9-6 contributed from the revenue of the bridge. The balance on the 31st March last in your capital account is Rs. 40,57,680-13-8, and the difference Rs. 62,308-0-5 represents the value of a hopper barge which was sunk, and the wear and tear of certain steam cranes. We would add that in paragraph 7 of our report for the second half-year of 1880-81 the amount contributed from revenue for new works and renewals, and the amount written off on account of the hopper barge that had been lost, was overstated by Rs. 769-6-6.

9. The sources from which the expenditure upon block, works under construction and stock has been met are as follows:—

W. H. DOBBIE,

Asst. Comptroller-General to the Govt. of India.

Published in accordance with the provisions of section 53, Act V (B. C) of 1870.

By order of the Commissioners,

G. H. SIMMONS, *Secretary.*

The 16th June 1882.

No. 32A.

FROM
THE AUDITORS OF THE ACCOUNTS OF THE COMMISSIONERS FOR THE HOOGHLY BRIDGE,

To
THE COMMISSIONERS FOR THE HOOGHLY BRIDGE.

Calcutta, the 6th June 1882

GENTLEMEN,

WE have the honour to report that we have examined the accounts of the Hooghly Bridge for the half-year ending the 31st March 1882, and have found them to be correct.

2. The following statement of assets and liabilities shows the financial position of the Bridge at the close of the year.

ASSETS.

	Rs.	A.	P.
Block of Hooghly Bridge	24,96,593	10	7
Reserve section	1,08,761	1	9
Suspense account	102	1	1
Investment for Reserve Fund	5,13,589	3	0
Ditto ditto section	23 587	0	0
Works appropriation	24,238	14	3
Government promissory notes of depositors ...	9,500	0	0
Cash balance	13,958	11	10
Total ...	31,90,330	10	6

LIABILITIES.

	Rs.	A.	P.
Loan from Government	16,86,666	10	8
Contribution from revenue for repayment of bridge loan	5,55,133	5	4
Contribution from Revenue for new works ...	3,06,903	15	0
Contribution from Revenue of Port for tug steamer	40,313	0	0
Proceeds of sale of workshop buildings, tools and plant	23,200	0	0
Fine recovered from contractor	7,866	11	8
Deposit	9,509	15	11
Deposit of Government promissory notes ...	9,500	0	0
Reserve Fund	5,13,589	3	0
Fund for new works	24,238	14	3
Net revenue	13,408	14	8
Total ...	31,90,330	10	6

3. The revenue and expenditure for the year 1881-82, considered apart from the accumulations of previous years, are as follow:—

	1st Half-year Rs.	A.	P.	2nd Half-year. Rs.	A.	P.	Total. Rs.	A.	P.
Receipts ...	2,14,730	0	8	2,41,902	6	1	4,56,632	6	9
Expenditure—									
Ordinary ...	95,557	14	9	1,15,496	14	4	2,11,054	13	1
Contribution towards repayment of loan, Part V ...	378	6	0	386	15	0	765	5	0
Contribution towards repayment of bridge loan ...	.....			73,333	5	4	73,333	5	4
Contribution for Reserve Fund ...	1,00,126	2	3	1,01,063	0	9	2,01,189	3	0
Contribution for over-bridge at Howrah	.....			25,000	0	0	25,000	0	0

The total receipts are Rs. 4,56,632-6-9, and the total expenditure Rs. 5,11,342-10-5, leaving a deficit of 54,710-3-8 on the transactions of the year. At the close of 1880-81 there was a surplus of Rs. 68,119-2-4, which at the close of 1881-82 has therefore been reduced to Rs. 13,408-14-8.

4. No contribution was made during the year from Revenue for new works which it would have been correct to have met from capital receipts, and the amount standing in your books, as contributed from Revenue for new works, is the same as that mentioned in our audit report for the second half of the year 1880-81, after allowing for a transfer back to Revenue of the unspent balances amounting in all to Rs. 102-9-5 of the funds provided from Revenue, for the cost of the steam tug *Hetty*, and steam ferry *Buckland*.

5. During the year there has been no alteration in your block account, no additions to or deductions from this account having been made at the close of the year 1881-82, there were no works under construction. There remained, however, an unexpended balance of Rs. 24,238-14-3 out of the funds set aside from Revenue to meet the cost of a reserve section of the bridge. Out of this sum of Rs. 24,238-14-3, Rs. 23,587 has been invested in Government paper, and the interest on this investment has been credited in the revenue accounts of the bridge.

We have the honour to be,
GENTLEMEN,
Your most obedient servants,
E ATKINSON,
Officiating Comptroller-General.
W. H. DOBBIE,
Assistant Comptroller-General.

PART III.

Act of the Bengal Council.

GOVERNMENT OF BENGAL.

LEGISLATIVE DEPARTMENT.

[First Publication.]

THE following Act, passed by the Lieutenant-Governor of Bengal in Council, received the assent of His Honor on the 15th April 1882, and having received the assent of His Excellency the Governor General on the 9th June 1882, is hereby published for general information :—

ACT No. II OF 1882.

An Act to amend the law relating to Embankments and Water-courses.

Preamble.

WHEREAS it is expedient to make better provision for the construction, maintenance, and management of embankments and water-courses in the territories subject to the Lieutenant-Governor of Bengal: It is enacted as follows :—

PART I.

Preliminary.

Short title.

1. This Act may be called "The Bengal Embankment Act, 1882."

Local extent

It extends to the whole of the territories subject to the Lieutenant-Governor of Bengal, except the Sunderbuns, as defined under the provisions of clause 2, section 13, Regulation III of 1828, and the province of Orissa, save as otherwise expressly provided in Part VIII.

Commencement.

And it shall come into force from the day on which it may be published in the *Calcutta Gazette* with the assent of the Governor-General.

Repeal of former Acts.

2. From such day Bengal Act VI of 1873 (*to amend the law relating to embankments and water-courses*), with the exception of the sections set out and schedules specified in schedule I to this Act annexed, shall be repealed.

The references in the said sections, which are mentioned in schedule II to this Act annexed, shall be read as if the references were made to the portions of this Act mentioned against such references respectively in the third column of such schedule.

Sections 80 and 81 of this Act shall be applicable respectively to the proclamation and notice mentioned in sections 26 and 28, Bengal Act VI of 1873.

Interpretation.

3. The following words shall, for the purposes of this Act, have the meanings hereby declared, save where, from the context, a contrary intention appears :—

"Collector."

"Collector" means any Revenue Officer in independent charge of a district or portion of a district, or specially appointed by the Lieutenant-Governor of Bengal to perform the functions of a Collector under this Act.

"District."

"District" means the local area throughout which a Collector is authorised to exercise his ordinary functions.

"Embankment"

"Embankment" includes

every bank, dam, wall and dyke, made or used for excluding water from, or for retaining water upon, any land;

every sluice, spur, groyne, training wall, or other work annexed to, or portion of, any such embankment;

every bank, dam, dyke, wall, groyne, or spur, made or erected for the protection of any such embankment or of any land from erosion or overflow by or of rivers, tides, waves, or waters;

and also all buildings intended for purposes of inspection and supervision.

"Estate" means any land or share in land included under one entry on the general register of revenue-paying lands and of revenue-free lands prepared and maintained by the Collector of a district under the Land Registration Act, 1876, or any similar law for the time being in force.

"Estate."

"Land" includes interests in land and benefits arising out of land, and things attached to the earth, or permanently fastened to anything attached to the earth.

"Land."

"Public embankment" means an embankment maintained by the officers of Government.

"Public embankment."

"Public water-course" means a water-course under the charge of the officers of Government.

"Public water-course."

"Section" means a section of this Act.

"Section."

"Tenure" includes all interests in land which are held permanently at a fixed rental, or which are held rent-free, other than estates as above defined.

"Tenure."

"The Engineer" means the Engineer in charge of the public embankments of the district, or any part thereof, or any Engineer specially appointed by the Lieutenant-Governor of Bengal to perform the functions of an Engineer under this Act in respect of any tract of country or of any works.

"The Engineer."

"Water-course" includes a line of drainage, weir, culvert, pipe, or other channel, whether natural or artificial, for the passage of water.

"Water-course."

"Zemindar" means all or any of the holders of an estate; and where two or more zemindars are jointly holders thereof, they shall be jointly and severally liable under this Act.

"Zemindar."

Explanation.—For the purposes of Part VI the Government shall be deemed to be the zemindar—

(*a*) of every estate of which the zemindari title is not vested elsewhere than in the Government.

(*b*) of every estate which is let in farm or held khas under the provisions of section 43 of Regulation VIII of 1793, in consequence of the proprietor refusing or omitting to engage for the settlement thereof.

4. Every public embankment and every public water-course and all land, earth, pathways, gates, bermes, and hedges belonging to, or forming part of, or standing on, any such embankment or water-course, and every embanked tow-path maintained by Government, shall vest in the Government. The embankments mentioned in schedule D annexed to Bengal Act VI of 1873, and every embankment and water-course which may be included in such schedule under section 43 of this Act, and every embanked tow-path as aforesaid, shall be held on behalf of the Government; and all other public embankments and water-courses shall be held by Government on behalf of the persons interested in the lands to be protected or benefited by such embankments or water-courses, subject to the provisions of section 87; and all moneys received on account of such lands shall be credited to the cost of the construction and maintenance of such embankments and water-courses respectively.

Public embankments, &c., to vest in Government.

5. All plots or parcels of land which, before the commencement of this Act, have been used for the purpose of obtaining earth or other materials for the repair of any public embankment, water-course, or embanked tow-path as aforesaid, or which by agreement have been substituted for such lands, shall be deemed to be at the disposal of the Government for such purpose, without payment of compensation for the use or removal of such earth or other materials.

Survey of lands hitherto used for obtaining earth for repairs.

The Collector may cause all such plots or parcels to be ascertained, surveyed, and demarcated.

6. The Lieutenant-Governor may from time to time, by a notification in the *Calcutta Gazette*, declare the limits of any tract within which the provisions of clause (*b*), section 76, shall take effect;

Notification.

and the said provisions shall take effect one month after the publication of such notification.

As soon as possible after the said publication, the Collector shall cause a translation of the notification in the vernacular to be published in the manner prescribed in section 80.

PART II.

Powers of Collector and procedure thereon; Embankment Committees.

7. Subject to the provisions of Part III, whenever it shall appear to the Collector that any of the following acts should be done, or works executed, that is to say:

Powers of Collector.

(1) That any embankment which connects public embankments, or forms by junction with them part of a line of embankments, or that any embankment or water-course which is necessary for the protection or drainage of the neighbouring country, should be taken charge of and maintained by the officers of Government;

Taking charge of embankment by Government.

(2) That any embankment, or any obstruction of any kind, which endangers the stability of a public embankment or the safety of any town or village, or which is likely to cause loss of property by interfering with the general drainage or the flood drainage of any tract of land, should be removed or altered;

Removal of embankment or obstruction.

(3) That the line of any public embankment should be changed or lengthened, or that any public embankment should be renewed, or that a new embankment should be constructed instead of any public embankment, or that any embankment should be constructed for the protection of any lands or for the improvement of any water-course, or that a sluice in any public embankment should be made;

Changing line of embankment.

(4) That any sluice or water-course should be made, or that any public water-course should be altered for the improvement of the public health, or for the protection of any village or cultivable land;

Improvement of drainage.

(5) That any road which interferes with the drainage of any tract of land should be altered, or that any water-course under or through such road should be constructed

Alteration of roads and construction of water-courses.

he shall cause to be prepared estimates of the cost of such works, including such proportion of the establishment charges as may be chargeable to the works in accordance with the rules for the time being in force under this Act, or as may be specially ordered by the Lieutenant-Governor, together with such plans and specifications of the same as may be required. He shall also cause to be prepared from the survey map of the district a map showing the boundaries of the lands likely to be affected by the said acts and works, and he shall cause a general notice to be given of his intention to cause such works to be executed.

8. Such general notice shall as far as possible be in the form, and state the particulars mentioned in schedule III to this Act annexed; and to it shall be annexed a list of all estates and villages as far as is known, which are likely to be affected by the proposed work, and to be chargeable in respect of the expenses of executing the same; and a copy of the said estimates, specifications, and plans, together with a copy of the map as aforesaid, shall be deposited in the office of the Collector, and shall be open to the inspection of any persons interested, who shall be allowed to take copies thereof.

Form of notice.

9. Every such general notice shall be published in the manner provided by section 80 not less than thirty days before the day appointed for hearing the persons interested.

Proclamation to be published for thirty days.

10. The Collector shall, on the day appointed for the hearing, or on any subsequent day to which the hearing may be adjourned, hold an enquiry and hear the objections of any persons who may appear, recording such evidence as he may deem necessary.

Hearing of objections to works.

11. After holding such enquiry the Collector shall proceed as follows, that is to say—

Order after enquiry.

(*a*) If he considers that the proposed act or work, or any modification of the same, should not be done or executed, he shall record his opinion to that effect.

(*b*) If he considers that the proposed act or work, or any modification of it, should be done or executed, he shall submit a report to the Commissioner of the Division.

12. On receipt of a report submitted under section 11, the Commissioner, after making any further enquiry which he may deem necessary may record an order refusing to support the proposal made in the report of such Collector for the execution of such work;

Order of Commissioner.

or may forward the report submitted by such Collector, together with any remarks he may think proper, for the consideration of the Board of Revenue.

13. On receipt of the report forwarded by the Commissioner, the Board of Revenue, after making any further enquiry which they may deem necessary, may record an order refusing to support the proposal made in the report of such Collector or Commissioner,

Order of Board.

or may submit such report, together with any remarks which may be thought proper, for the consideration of the Lieutenant-Governor.

14. On receipt of such report from the Board the Lieutenant-Governor shall proceed to consider the same, and may order that the proposed act or the proposed work, or any modification thereof, be done or executed. Every such order shall be notified in the *Calcutta Gazette*.

Order of Lieutenant-Governor.

15. Notwithstanding anything contained in this Part, the Lieutenant-Governor may, by a special order passed in respect of any act or work specified in section 7, or by a general order in respect of any class of such acts or works, authorize the Collector, after holding such enquiry as is prescribed in section 10, without previous reference to any superior authority, to pass an order that such act or work or any modification thereof may be done or executed; or the Lieutenant-Governor may authorize the Commissioner or the Board of Revenue to pass such order without previous reference to any superior authority:

Special powers which may be conferred by Lieutenant-Governor.

Provided that every order passed under the authorization of the Lieutenant-Governor, given under this section, shall be subject to the provisions of section 85.

16. The Collector may make an order requiring that any railroad which interferes with the drainage of any tract of land be altered, or that any water-course under or through such railroad be constructed.

Alteration of railroads and construction of water-courses.

17. Whenever an order shall have been passed in cases falling under section 7, clause (5,) or under the section last preceding, directing that any road or railroad which interferes with the drainage of any tract of land be altered, or that any water-course be constructed under or through such road or railroad, the Collector may require the person in charge of such road or railroad to make such alteration or construct such water-course, and in the event of such person failing to comply with such requisition in such manner and within such time as the Collector shall prescribe, the Collector may cause the road or railroad to be altered or the water-course to be constructed by the officers of Government; provided that in the case of a railroad no such work shall be undertaken by the officers of Government without the permission of the Lieutenant-Governor previously obtained.

Procedure of Collector.

The expenses of such alteration or construction shall be borne by the person in charge of the said road or railroad, so far as the same shall have been incurred on account of insufficient provision having been made at the time of the construction of the said road or railroad for the natural drainage then

Expenses of alteration or construction.

existing, and the remainder of the expense, if any, shall be charged upon, and recovered from, the proprietors of the lands benefited in accordance with the provisions of this Act. If any dispute arises as to the apportionment of expenses under this clause between the person in charge of a road or railroad and the proprietors of the lands benefited, the dispute shall be decided by the Lieutenant-Governor, whose decision shall be final.

Application for new sluices, embankments, or drainage.

18. (*a*) If any person desires that a sluice be made in any public embankment for the purpose of drainage or irrigation,

(*b*) or if, within any tract of country which has been included within a notification under section 6, any person desires that any new embankment be erected, that any existing embankment be lengthened, enlarged, repaired, or removed, or that the line of any embankment be altered, or that any new water-course be made, or that any water-course be obstructed or diverted,

he may make an application in writing to the Collector. The application shall contain such particulars of the land likely to be affected by the work as may enable the Collector to judge of the advantage which may be derived from the project. If it should appear to the Collector that the work applied for is one which may probably be executed with advantage, the procedure mentioned in the seventh and following sections of this Act shall be followed in respect of the proposed work.

Power to remove houses, &c.

19. Whenever the Collector, after considering any report of the Engineer or otherwise, shall be of opinion that the removal of any trees, houses, huts, or other buildings, situated between a public embankment and the river, is necessary, or that land is required for widening an existing embanked tow-path, or for constructing a new embanked tow-path, he shall make a report to that effect to the Commissioner, accompanied by a detailed statement of the trees, houses, huts, or other buildings to be removed, or of the land required. Such report shall be submitted in the usual manner through the Board of Revenue to the Lieutenant-Governor, in order that proceedings may be taken for obtaining possession of such trees, houses, huts, and buildings, or land in accordance with the provisions of the Land Acquisition Act, X of 1870, or other law for the time being in force for the acquisition of land for public purposes.

Authority to take proceedings where lands likely to be affected by the works are in different districts.

20. If any works proposed to be undertaken in accordance with this Act, or the lands which are likely to be affected by such works, are situated within the limits of different districts, the Collector of any district within which any portion of such works or lands is situated may apply to the Commissioner of the Division for authority to proceed in such matter; and the Commissioner of the Division, with the concurrence of any other Commissioner within whose Division any such lands are situated, may give authority to such Collector, or to any other Collector within whose district any portion of such lands is situated, to carry out all or any proceedings under this Act in respect of all the lands affected by such works.

Lieutenant-Governor may appoint Embankment Committee.

21. The Lieutenant-Governor may, if he think fit, appoint an Embankment Committee for any district, and may from time to time appoint and accept the resignation of the members of such Committee, and direct that any person shall cease to be a member thereof.

Consultation of Committee by Collector.

22. The Lieutenant-Governor may from time to time direct that any such Committee shall be consulted by the Collector in the discharge of any function or the performance of any duty imposed on him by this Act; and by a notification published in the *Calcutta Gazette* may from time to time direct that any such function or duty shall be performed or discharged by such Committee.

Business of Committee.

23. The business of every such Committee shall be conducted under such rules as the Lieutenant-Governor may from time to time make in that behalf.

Reference to Commissioner.

24. Whenever, in any matter on which the Lieutenant-Governor has directed that the Collector shall consult the Committee, the Collector may differ from the Committee, he shall, if so required by the Committee, submit the question to the Commissioner of the Division for decision, with copies of any remarks which may have been recorded by the Committee or any members thereof.

PART III.

Procedure in cases of imminent danger to life or property.

Proceedings in emergencies.

25. Whenever the Collector shall be of opinion that the delay in the execution of any work, occasioned by proceedings commenced by a general notice under the seventh and following sections of this Act, would be attended with grave and imminent danger to life or property, he may forthwith cause the execution of such work to be begun in anticipation of the completion of such proceedings: Provided that he shall without delay cause to be prepared the estimates, specifications, and plans of the proposed works, together with a copy of the map as provided in section 7, and shall cause general notice to be given that the work mentioned therein has already been commenced, and thereupon such proceedings and enquiries shall be had as in and by Part II of this Act are directed.

Restoration of embankments, &c.

26. Whenever it may have been determined in the final order to be passed on any such enquiry that anything done by the Collector or by the Engineer under the last preceding section was unnecessary, any person who shall have sustained damage by the execution of such works shall receive compensation from the Government to be assessed according to the provisions contained in Part V of this Act, and on receipt of any application to that effect by the Collector from any such person affected, the land or the embank-

ments or drainage shall, so far as any alteration thereof shall appear to have been unnecessary, be, at the expense of the Government, restored as nearly as possible to the state in which they were when the Collector commenced to act under the provisions of this Part.

Authority to take proceedings where lands in different districts.

27. If any portion of the land likely to be affected by any work to be undertaken under this Part lies within another district, the Collector who causes the work to be executed, shall, when commencing upon it, give notice of the same to the Collector of such other district; and the provisions of section 20 shall be applicable to all proceedings connected with the work and the cost thereof.

PART IV.

Powers of the Engineer.

Engineer subject to control of Collector.

28. The powers conferred on the Engineer under this Act shall be exercised subject to the general control and orders of the Collector.

Power to Engineer to act in urgent cases.

29. In cases in which the Engineer may be of opinion that delay for the purpose of obtaining the orders of the Collector would be attended with grave and imminent danger to life or property, the Engineer may exercise the powers conferred on the Collector by section 25. The Engineer shall forthwith report to the Collector any action taken by him under this section, and shall be guided by any instructions which he may receive from the Collector in respect thereof.

Power to make repairs.

30. The Engineer may make any repairs in, and may do all acts necessary and proper for the maintenance of, any public embankment, public water-course, or any other work executed or taken charge of under the provisions of this Act or of any previous similar Act.

Power to make temporary roadway, water-course, or dam.

31. Whenever any person desires that a temporary roadway should be made over, or that a temporary water-course should be made through, any public embankment, or that a temporary dam should be constructed in any embanked river or public water-course, he shall apply to the Engineer, or to any person who has been appointed in that behalf by the Engineer. Such Engineer or person shall communicate the application with his opinion to the Collector, and shall await the Collector's order in respect thereof, unless he thinks that there is special reason for the immediate execution of the work, in which case he may execute the same without waiting for the orders of the Collector. If the proposed work is to be executed by an officer of Government, the applicant, before the commencement of the work, shall deposit the amount estimated by the Engineer to be necessary to defray the expenses of, and incidental to, making and removing such roadway, or of, and incidental to, making, closing, or removing such water-course or dam. If the amount deposited is found afterwards to exceed the amount required, such excess shall be returned to the said applicant.

Sluices to be opened or shut under authority of the Engineer.

32. Sluices constructed in any public embankment shall be opened or shut only by or with the general or special permission of the Engineer or of the officer in the immediate charge of the embankment, under such orders, either general or special, as he may receive from the Engineer.

Power to enter and survey land, &c.

33. It shall be lawful for the Engineer, or any person whom he may authorize in that behalf, in order to carry out any of the purposes of this Act,

to enter upon, and survey, and take levels of any land;

to dig or bore into the subsoil;

to do all other acts necessary to ascertain whether the land is adapted to the purpose projected by such Engineer, or by the Collector;

Power to mark out line.

to set out the boundaries of the land proposed to be taken, and the intended line of the work proposed to be made thereon;

to mark such levels, boundaries, and line, by placing marks and cutting trenches;

Power to clear land.

and, where otherwise the survey cannot be completed or the levels taken, to cut down and clear away any part of any standing crop, fence, or jungle:

Previous notice of entry.

Provided that no person shall enter into any building or upon any enclosed court or garden attached to a dwelling-house (unless with the consent of the occupier thereof) without previously giving such occupier at least seven days' notice in writing of his intention to do so.

Payment for damage.

The Engineer or other person so authorized shall at the time of such entry tender payment for all necessary damage to be done as aforesaid, and, in case of dispute as to the sufficiency of the amount so tendered, he shall at once refer the dispute to the decision of the Collector, and such decision shall be final.

Power to take earth from lands.

34. Whenever it is deemed requisite to repair any embankment or water-course, or embanked tow-path maintained by Government, it shall be lawful for the Engineer, or any person authorized in that behalf, to enter in and upon the lands mentioned in section 5, and take possession of, appropriate, and remove any earth or other material therefrom, and use the same for the purposes of such repairs.

Procedure where crops on such lands.

35. The Collector shall proceed in respect of any crops standing on such land as provided in section 13, Bengal Act VI of 1873; and the provisions of that section shall be applicable to claims for the payment of compensation for damage done to such crops.

Acquisition of land made permanently unfit for cultivation.

36. When any such land is rendered permanently unfit for cultivation by any such act as aforesaid, the local Government shall, upon application for that purpose made by the owner thereof, acquire such lands under the provisions of the Land Acquisition Act, 1870, or other law for the

time being in force for the acquisition of land for public purposes.

PART V.

Acquisition of lands and compensation.

Acquisition of land.

37. Whenever, in the course of proceedings under this Act, save in those cases in which the Collector has proceeded under the provisions of sections 12 and 13, Bengal Act VI of 1873, it appears that land is required for any of the purposes thereof, proceedings shall be forthwith taken for the acquisition of such land in accordance with the provisions of the Land Acquisition Act, X of 1870, or other law for the time being in force for the acquisition of lands for public purposes.

Compensation for consequential damage.

38. Subject to the provisions of section 5, whenever any land other than land required or taken by the Engineer, or any right of fishery, right of drainage, right of the use of water, or other right or property, shall have been injuriously affected by any act done or any work executed under the due exercise of the powers or provisions of this Act, the person in whom such property or right is vested may prefer a claim by petition to the Collector for compensation:

Provided that the refusal to execute any work for which application is made, and the refusal of permission to execute any work for the execution of which the permission of the Collector or any other authority is required under this Act, shall not be deemed acts on account of which a claim for compensation can be preferred under this section.

Limitation to claim for compensation.

39. No claim under the last preceding section shall be entertained which shall be made later than two years next after the completion of the work by which such right is injuriously affected.

Procedure for determining compensation.

40. When any such claim is made, proceedings shall be taken in view to determine the amount of compensation, if any, which should be made and the person to whom the same should be payable, as far as possible in accordance with the provisions of the Land Acquisition Act, X of 1870, or other law for the time being in force for the acquisition of land for public purposes.

Matters to be considered in determining compensation

41. In any such case which is referred to the Judge and Assessors for the purpose of determining whether any, and, if so, what amount of compensation should be awarded, the Judge and Assessors shall take into consideration—

First, the market value of the property or right injuriously affected at the time when the act was done or the work executed;

Secondly, the damage sustained by the claimant by reason of such act or work injuriously affecting the property or right;

Thirdly, the consequent diminution of the market value of the property or right injuriously affected when the act was done or the work executed;

Fourthly, whether any person has derived, or will derive, benefit from the act or work in respect of which the compensation is claimed, or from any work connected therewith, in which case they shall set off the estimated value of such benefit, if any, against the compensation which would otherwise be decreed to such person.

But the Judge or Assessors shall not take into consideration—

Matters not to be considered in determining compensation.

First, the degree of urgency which has led to the act or work being done or executed;

Secondly, any damage sustained by the claimant, which, if caused by a private person, would not in any suit instituted against such person justify a decree for damages.

PART VI.

COST OF WORKS, PROCEEDINGS, &c.

1. *Ascertainment thereof.*

Embankments in Schedule (D).

42. The provisions of section 47 and the following sections in this Part contained shall not apply to any of the embankments mentioned in Schedule (D) to Bengal Act VI of 1873 annexed, or which may be hereafter included therein, save so far as any works or repairs are executed therein or in relation thereto under the provisions of section 18 or of section 31; or to any of such embankments as may hereafter be erected for the protection of lands which at the commencement of this Act are protected by the embankments mentioned in the aforesaid schedule, save so far as the erection of such embankments may protect lands not protected by the embankments mentioned in the aforesaid schedule. All sums payable in respect of any works or repairs executed in or in relation to the embankments mentioned in the aforesaid schedule, except under the provisions of section 18 or of section 31, shall be paid by the Government.

Exclusion from Schedule (D).

43. If at any time after the commencement of this Act, on enquiry made by the Collector as far as possible in accordance with the provisions of Part II of this Act, it shall be found that it is unnecessary for the public interests to retain any embankment mentioned in the said Schedule (D), or any embankment or water-course which may have been included in the said Schedule (D) under the clause next following of this section, the Lieutenant-Governor may direct that the same shall be no longer included in the said schedule: Provided that the Lieutenant-Governor may restore the same to the said schedule if on any subsequent enquiry similarly conducted it shall appear to the Lieutenant-Governor that it is necessary so to do.

Addition to Schedule (D)

The Lieutenant-Governor may, at any time after the passing of this Act, by a notification published in the *Calcutta Gazette*, direct that any embankment not mentioned in the said Schedule (D), or any water-course, be included therein, and the provisions of this section shall apply to such embankment or water-course.

Contribution of public money towards the maintenance of the embankments in the pergunnahs entered in Schedule (E) to be continued.

44. In accordance with the custom heretofore in force in respect of the pergunnahs entered in Schedule (E) annexed to Bengal Act VI of 1873, the Government shall continue to contribute annually the sum noted therein for each pergunnah respectively towards the maintenance of the embankments thereof.

If such embankments are declared to be public, Collector to keep a separate account.

45. If the embankments maintained in either the said pergunnahs shall at any time be declared to be public embankments under the provisions of section 7, the Collector shall, from the date of such declaration, keep a separate account for such pergunnahs, in which the aforesaid sum shall be credited at the commencement of each financial year. The unexpended balance at the close of each year shall be carried on to the credit of the account in the next succeeding year, and shall be available for the cost of repairing or erecting all the embankments which it may be deemed necessary to maintain in such pergunnah.

Contribution may be discontinued if it be found unnecessary for the public interest to maintain the embankments.

46. If at any time after the commencement of this Act, on an enquiry made by the Collector as far as possible in accordance with the provisions of Part II, it shall be found that it is unnecessary for the public interests to retain any embankment in either of the said pergunnahs, the Lieutenant-Governor may direct that such contribution shall cease in respect of such pergunnah: Provided that such contribution shall again be made in accordance with the provisions hereinbefore contained, if it shall appear to the Lieutenant-Governor, on the report of an enquiry similarly conducted, that the maintenance of any embankment in such pergunnah has again become necessary for the public interest.

Estimates and specifications to be prepared.

47. Subject to the provisions of Part III of this Act, before the Collector or the Engineer undertakes, under the provisions of this Act, the execution of any repairs or of any work other than any new work of which the estimates, specifications, and plans have been prepared and deposited in the Collector's office for public inspection as provided in section 7, specifications and estimates of the expenses to be incurred in respect of the repairs or works, including such proportion of establishment charges as the Lieutenant-Governor shall direct, shall be prepared by the Engineer.

Preparation of further estimates and specifications.

48. Whenever it appears that the actual expenses to be incurred in respect of any work will exceed by one-tenth any estimate of such work which may have been transmitted to the office of the Collector under the next succeeding section, the Engineer shall forthwith prepare further estimates, and, if necessary, further specifications.

Estimates and specifications to be open to inspection.

49. Copies of all specifications and estimates prepared under the two last preceding sections shall be transmitted to the office of the Collector, together with vernacular translations thereof, or such abstracts thereof as the Lieutenant-Governor may from time to time direct, and may be examined by any person interested in such works or repairs.

Notice of receipt of estimates and specifications.

50. A general notice of the receipt of any such specifications and estimates shall be published in the manner prescribed in section 80, and in such general notice shall be specified all estates chargeable for, or likely to be affected by, the said works or repairs. Special notices shall also be served in respect of every estate in which the area liable to the assessment of the apportioned charge is likely to exceed one hundred acres; or instead of causing a general notice to be published, the Collector may cause special notices to the same effect to be served in respect of every estate chargeable for, or likely to be affected by, the said works or repairs. Should any objection in regard to such specifications and estimates be preferred by any such person within a period of one month from the date of service of such notice, the Collector shall pass such orders as may appear to him reasonable and proper.

Preparation of accounts and Engineer's certificate of expenses.

51. The accounts of the actual expense incurred in executing any works or repairs, or of any portion of the actual expenses with which the Collector may determine to deal separately under this and the following sections, shall be prepared as soon as possible after the completion thereof. The Engineer shall sign a certificate stating the amount of all such expenses, and specifying the boundaries of the lands which are benefited or affected by the said works or repairs, and stating generally how and to what extent the lands so specified, or any parts of them, are affected. Any such certificate may be amended at any time before the Collector has made an order charging or apportioning the amount under section 58. On receipt of such certificate or amended certificate, the Collector shall cause a statement to be prepared of the villages of which any lands are benefited or protected by such works and repairs, and of the estates to which they belong, and, except as otherwise in this Act provided, the zemindars of such estates and villages shall be liable to pay the said amount. Copies of the said accounts, certificates, and statements shall be deposited in the office of the Collector, and may there be examined by any person interested.

Notices and enquiry into objections.

52. General notice of the receipt and deposit of such accounts, certificates, and statements in the office of the Collector shall be given. Special notices thereof shall also be served in respect of every estate in which the area liable to assessment of the apportioned charges exceeds one hundred acres; or instead of causing a general notice to be published, the Collector may cause special notices to the same effect to be served in respect of every estate and tenure on or among the zemindars or tenure-holders of which any sum is charged or apportioned; and if, within one month of such general notice being given, or of such special notice (if any) being served on him, any interested person shall object to the accounts on the ground either that the work charged for has not been performed, or that the whole sum charged has not been expended, or that the rates of charge are higher than those mentioned in the estimates,

the Collector shall enquire into such objection, and pass orders thereon.

Total sum payable.

53. The Collector shall add to the amount appearing in the said certificate all sums which have been paid or have become payable in respect of the said works and repairs, whether as compensation, costs, and expenses under, and incidental to, any proceedings taken or directed to be taken under Part II or Part V of this Act, or under sections 26 to 29 of Bengal Act VI of 1873, as cost of making of surveys and plans, as cost of preparing the estimates, accounts, certificates, and statements, as cost of the issuing and service of notices up to date, or on any other account, and shall then make an order specifying the total sum found payable, and in respect of works done under section 17 and section 31 the persons by whom, or in respect of other works, the estates in respect of which, the same is payable to him. If the order is made in respect of work done under section 17 or section 31, the same shall forthwith be served upon the party or parties liable to pay; otherwise the Collector shall proceed under the provisions in the next Chapter contained.

Interest.

Interest may be charged upon any sum paid as compensation from the date of payment thereof at five per centum, or at such rate, not exceeding five per centum per annum, as the Lieutenant-Governor may from time to time determine.

2. *Liability for the costs and apportionment thereof.*

Parties liable to pay.

54. The total sum aforesaid, save so far as is otherwise provided in this Act, shall be paid to the Collector by the zemindars of the estates in which are situated the lands benefited or protected by the repairs or works executed:

Proviso in respect of the pergunnahs in Schedule (E).

Provided that the sum standing to the credit of a pergunnah in Schedule (E) to Bengal Act VI of 1873 annexed in the account kept by the Collector, at the time when the total amount payable is fixed under the provisions of section 53, shall be deducted from the total amount payable in respect of such portion of any embankment as is situated in such pergunnah, and that the zemindars of the estates situated in such pergunnah shall be charged only with the balance of the amount (if any) which may remain payable.

Recovery from under-tenants.

55. Every zemindar, who is liable under the last preceding section for the payment of the whole or a portion of such total sum, shall be entitled to recover from the holder of every tenure held immediately under him, and from the holder of any land which is declared under the provisions of section 60 to form part of his estate, the sum apportioned to such tenure or land by the Collector under the provisions of section 59. And similarly, every tenure-holder shall be entitled to recover from the holder of any tenure subordinate to his own, and from the holder of any land declared under section 60 to form part of his tenure, the sum apportioned to such subordinate tenure or land by the Collector, under the said provisions.

Notice to be given before apportionment.

56. So soon as the total sum payable as aforesaid has been ascertained, the Collector shall cause general notice to be given specifying the estates in respect of which any portion of such total sum will be chargeable and special notices to be served in respect of every estate in which the area chargeable exceeds one hundred acres; or instead of causing a general notice to be published, the Collector may cause special notices to the same effect to be served in respect of every estate and tenure on or among the zemindars or tenure-holders of which any sum is charged or apportioned. Such notices shall make it known that an enquiry will be held at a day and place therein named for the purpose of apportioning amongst the zemindars and tenure-holders the said total sum, with interest and the costs of apportionment.

Names of tenure-holders.

57. In any such enquiry the Collector shall take down in writing the names of all persons who may claim, or who may be alleged by any party interested, to be holders of tenures within any of the estates mentioned in such notice. In default of appearance of any such person, the Collector shall issue and serve a notice calling on him to appear at a date and place therein mentioned, and to show cause against being included in the order of apportionment to be made therein, and shall adjourn the enquiry till such date.

Apportionment amongst zemindars.

58. At such or any subsequently adjourned enquiry, the Collector, if there be only one estate liable, shall charge the zemindar thereof with the total amount payable; and if there be two or more estates, he shall apportion the same amongst the zemindars thereof, either—

(*a*) rateably in proportion to the respective benefits derived by such estates from such works or repairs; or

(*b*) in proportion to the areas of the lands benefited or protected thereby, and comprised within such estates respectively; or

(*c*) with the sanction of the local Government, in proportion to the amount of revenue payable for such estates respectively:

Provided that the said total amount payable in respect of the embankments on the right bank of the river Gunduk shall be chargeable, in accordance with the custom in force for such estates, to the zemindars of all the estates situated in the district of Sarun, in proportion to the amount of revenue respectively payable for such estates:

Provided also that the total amounts which may have been expended by the Government before the commencement of this Act, and the total amounts which may become payable in accordance with the provisions of this Act, on account of any year in respect of the embankments on the left bank of the river Gunduk in the district of Mozufferpore, shall be chargeable, and shall be deemed always to have been chargeable, in accordance with the custom hitherto in force in respect of such embankments; that is to say, chargeable to the zemindars of all the estates situated in the following pergunnahs, viz. Rati, Gadasand,

Hajipur, Bhatsala, Garjaul, Nac, Saresa, and Balagach, in proportion to the amounts of land revenue payable for such estates respectively, but so that the amount out of any total sum apportioned in respect of each estate in Rati, Gadasand, and Hajipur, shall bear such a proportion to the land revenue payable for such estate as shall be twice as great as the proportion which the amount apportioned in respect of each estate in the remaining pergunnahs shall bear to the land revenue payable for such estate.

Apportionment amongst tenure-holders.

59. The Collector shall, in like manner, except in respect of the said embankments on the right bank and left bank of the river Gunduk, charge or apportion the amount payable in respect of each estate upon or amongst the holders of the tenures therein ratcably in the proportion of benefit so received or of area so benefited or protected, first deducting therefrom such sum as, on the like principle of proportion, is payable in respect of such portion of the estate as is not included within any tenure.

Provision as to lands held without payment of rent, no. being estates

60. All lands held without payment of rent not being estates may, for the purposes of this Act, be deemed to form part of any estate or of any tenure within the local boundaries of which they are included; and, if they are not included within the local boundaries of any estate, then to be a part of such conterminous estate as the Collector in whose district such conterminous estate is situated shall, by an order under his seal and signature, declare.

Amount apportioned payable by instalments.

61. The amount charged to or apportioned on any estate or tenure shall be payable in equal instalments on such days as the Lieutenant-Governor shall direct, provided that no instalment shall exceed four annas for every acre of land in respect of which the same is payable, and that not more than four instalments shall be payable in any one year.

Interest.

Interest shall be charged on the unpaid portion of the said amount from the date of apportionment until payment thereof at five per centum or at such rate, not exceeding five per centum per annum, as the Lieutenant-Governor may from time to time determine.

Apportionment of further expenses

62. If after the apportionment of the expenses of any works and repairs as above prescribed any expenses not included in such apportionment shall be found to have been paid or to have become payable on account of the said works or repairs, whether as compensation or otherwise, the Collector may proceed to apportion such further expenses in the manner in this Part provided.

Alternative power of apportioning estimated expenditure for a series of years

63. Instead of the procedure prescribed above for charging upon and recovering from zemindars the expenses actually incurred in the repairs and maintenance of public embankments and water-courses and the works connected therewith, the Lieutenant-Governor may, by an order to be published in the *Calcutta Gazette*, direct that an estimate be made of the expenses to be incurred in respect of such repairs, maintenance, and works during any number of years, not exceeding thirty, which he may think fit; and may by a subsequent order fix the total sum payable during such number of years by the zemindars of the estates benefited by such repairs, maintenance, and works;

Provided that no order fixing such total sum shall be passed by the Lieutenant-Governor until three months after the amount of such estimate shall have been published in the *Calcutta Gazette* and by a general notice calling on all persons interested to prefer to the Collector any objections they may think proper against such amount being fixed as the total sum. Every such objection shall be submitted to the Lieutenant-Governor for his consideration.

Period included in the last section what to include.

64. The period fixed in any order under the section last preceding may include also years previous to the commencement of this Act, provided that in such case the total sum mentioned in the said section shall be calculated by adding the amounts actually expended before the making of such order, to the estimate of expenses to be incurred during the rest of the period included in such order.

Works in respect of which such estimate may be made

65. The total sum mentioned in section 63 or in section 64 may be made recoverable in respect of the expenses of repairs and maintenance, and the expenses of works connected with the repairs and maintenance—

(*a*) of any protective works which may be specified in such orders;

(*b*) of all the public embankments and water-courses in any district; or

(*c*) of all the public embankments and water-courses within any tract of country specified in the order of the Lieutenant-Governor; and any such tract may contain the whole or portions of any one or more districts;

and no further sum shall be recoverable during such period in respect of the expenses of such repairs, maintenance, and works connected therewith, save so far as any such works or repairs are executed under the provisions of section 18 or of section 31.

But such total sum shall not include the expenses of executing any new works which may be undertaken under the provisions of this Act within any district or tract as aforesaid.

Recovery of cost of new works

Whenever the Lieutenant-Governor shall declare that any work executed or to be executed within such district or tract is a new work within the meaning of this section, the cost of executing such work and of maintaining the same shall be payable by the zemindars to the Collector under the provisions of this Act, in addition to any total sum fixed under section 63 or section 64 as payable by them.

Mode of apportionment.

66. On publication of any order of the Lieutenant-Governor under section 63, the Collector shall proceed to charge or apportion the said total sum upon or among the zemindars and (except in respect of the embankments on the right and left banks of the river Gunduk as provided in section 58) among the tenure-holders who are liable to pay the same, as above provided.

67. The sum so apportioned in respect of any estate or tenure on account of any such period as is mentioned in section 63 shall be payable in equal portions in each of the years included in such period, and each such portion if unpaid shall carry interest at five per centum, or at such rate, not exceeding five per centum per annum, as the Lieutenant-Governor may from time to time determine, from the end of the year in which it is payable.

Payment of sum apportioned.

68. On the completion of any charge or apportionment under this Act, the Collector shall make an order specifying the estates and tenures in respect of which any sum charged or apportioned is payable, and the sums payable in respect of each of the instalments of such sums, and the dates on which such sums are payable.

Final order of apportionment.

3.—*Recovery thereof.*

69. As soon as may be after any final order of apportionment is made as provided in the section last preceding, the Collector shall cause copy of such order to be published with a general notice, stating that the amounts apportioned on the zemindars in respect of estates are payable to the Collector, and the amounts apportioned on the tenure-holders in respect of tenures are payable to the zemindars or superior tenure-holders. Instead of causing a general notice to be published, the Collector may cause special notices to the same effect to be served in respect of every estate and tenure on or among the zemindars or tenure-holders of which any sum is charged or apportioned.

Publication of final order of apportionment.

70. If any such sum payable to the Collector, or any instalment thereof, be not, pursuant to the said order, paid, the same with interest may be recovered as arrears of a demand under the provisions of the Public Demands Recovery Act, 1880, or any similar Act for the time being in force.

Recovery of sums apportioned.

71. When a recorded sharer of a joint revenue-paying estate has opened a separate account under Act XI of 1859, or under section 70 of Bengal Act VII of 1876, or any similar law for the time being in force for the regulation of the opening and maintaining of such separate accounts, he shall be entitled, in regard to the payment and realization of all sums due under this Act, to all the advantages of separate liability enjoyed by him under the said Act XI of 1859, and Bengal Act VII of 1876 respectively, in regard to the payment and realization of revenue, and shall be entitled to separate assessment and to the issue of a separate notice in every case in which special notice is by this Act required to be served, from the date on which such advantages shall take effect in respect of the demand of Government revenue.

Effect of opening separate account under Act XI of 1859 or Act VII of 1876.

Similar privileges shall attach to every recorded holder of a revenue-free estate who has opened a separate account under section 46 of Bengal Act IX of 1880 in respect of the amount of cesses payable by him.

72. Notwithstanding anything contained in section 70, any such sum shall be a first charge on the estate in respect of which it is apportioned, and shall be deemed to be a demand debited to the estate in the public accounts of the district within the meaning of section 31 of Act XI of 1859, and such charge shall not be avoided by any sale, nor shall the joint liability of the entire estate for such sum be affected by any partition of the said estate which may subsequently take place.

Liability of estate for sum apportioned.

73. If the Collector thinks it inexpedient to proceed for the recovery of such sum or any part thereof under the provisions of section 70, or having so proceeded shall have failed to realize the sum due, he may, with the sanction of the Board of Revenue, raise the amount necessary to discharge the sum or instalment remaining unpaid—

Amount apportioned may be raised by leasing or mortgaging estate.

(*a*) by mortgaging the whole or any part of such estate;

(*b*) by letting in farm or managing by himself or another the whole or any part of such estate;

(*c*) partly by one of such modes and partly by another or others of them.

For the purposes of this section the Collector may exercise all the powers of the owner of such estate, and his signature shall be a good and sufficient signature to any document necessary to carry into effect the said purposes.

74. Every zemindar or tenure-holder to whom any sum or instalment thereof is payable under an order made in pursuance of section 68 may recover the same with interest as aforesaid in the manner provided for the recovery of arrears of rent in respect of putnee tenures by the provisions of clauses 2 and 3 of section 8, sections 9, 10, 14, 15, and clauses 1, 2, and 3 of section 17 of Regulation VIII of 1819, as amended by Bengal Act VIII of 1865, or by the provisions of any similar Act for the time being in force; provided that the right or interest of any person holding from the defaulter shall not be affected by any sale held under these provisions.

Recovery by zemindars and tenure-holders.

PART VII.

Penalties.

75. Whoever wilfully obstructs any person duly authorized under this Act in removing or levelling any embankment, house, hut, or other building, or in the lawful exercise of any of the powers in this Act conferred, shall, in case such obstruction shall not amount to an offence within the provisions of the Indian Penal Code, be liable to imprisonment of either description for any period not exceeding six months, at the discretion of the Magistrate, or to fine not exceeding two hundred rupees.

Penalty for obstructing persons in exercise of powers conferred by Act.

76. (*a*) Every person who, in any of the territories to which this Act extends, without the previous permission of the Collector, shall erect, or cause or wilfully permit to be erected, any new

Penalty for unauthorized interference with embankments or drainage.

embankment, or shall add to any existing embankment, or shall obstruct or divert, or cause or wilfully permit to be obstructed or diverted, any water-course, if such act is likely to interfere with, counteract, or impede any public embankment or any public water-course;

Penalty for unauthorized interference with embankments or drainage in prohibited tract.

(*b*) every person who, within the limits of the tract included in any prohibitory notification under section 6, without the previous permission of the Collector, shall erect, or cause or wilfully permit to be erected, any new embankment, or shall add to any existing embankment, or shall obstruct or divert, or cause or wilfully permit to be obstructed or diverted, any water-course; and

Penalty for abetment of such acts.

(*c*) every person who shall abet any such act as is mentioned in clauses (*a*) and (*b*),

shall be liable, on conviction, to a fine not exceeding five hundred rupees, or in default of payment to imprisonment of either description for a period not exceeding six months.

Penalties for injuring embankments, &c.

77. No person shall, without due authority, cut through, or attempt to cut through, any public embankment, or destroy, or attempt to destroy, any such embankment, or open or shut, or obstruct any sluice in any such embankment, or any public water-course; and every person who shall commit any breach of the provisions of this section shall, in case the act shall not amount to mischief within the meaning of the Indian Penal Code, be liable to imprisonment of either description for a term not exceeding one month, or to a fine not exceeding two hundred rupees.

Penalties for diverting rivers or permitting cattle to graze on embankments, &c.

78. Every person who shall make any dam or other obstruction for the purpose of diverting or opposing the current of a river or water-course wherein or whereon there are public embankments, without the permission of the officer in immediate charge of the embankments, or shall refuse or neglect to remove any such dam or obstruction so made by him when required to remove it by the Engineer, or without the permission of the Engineer previously obtained shall cut or otherwise alter the banks of any embanked river or water-course, or remove the earth from any public embankment, or drive stakes into it, or by any other wilful act destroy or diminish the efficiency of such embankment; and every person who without such permission shall cause or knowingly and wilfully permit any cattle to graze upon any such embankment, or tether, or cause or wilfully permit any cattle to be tethered upon any such embankment, or root up any grass or other vegetation growing on any such embankment, shall be liable to imprisonment of either description for a term not exceeding six months, or to a fine not exceeding two hundred rupees.

Obstructions to be removed and damage repaired.

79. Whenever any person is convicted of an offence under either of the three last preceding sections, the convicting Magistrate may order that he shall remove the embankment or obstruction, or repair the damage, in respect of which the conviction is held, within a period to be fixed in such order. If such person neglects or refuses to obey such order within the fixed period, the Engineer may remove such embankment or obstruction or repair such damage, and the cost of such removal or repair shall be levied from such person in addition to any other penalty in the manner provided in section 307 of the Code of Criminal Procedure.

PART VIII.

Miscellaneous.

Mode of publishing proclamations and issuing notices.

80. Every proclamation and general notice by this Act required to be issued or given shall be published by affixing a copy of the same in the office of every Collector, Sub-Divisional Officer, and Munsif within whose jurisdiction, and at every police-station within the limits of which, any lands affected by such proclamation or notice are known by the Collector to be situated; and by affixing copies of the same in conspicuous positions in such hâts, bazars, towns, villages, or other public places as the Collector may direct; and also by giving notice by beat of drum at such public places that such copies have been affixed and that one copy of the papers containing the information which is the subject of such proclamation or general notice is open to inspection by all concerned at the office of the Collector.

Service of special notices.

81. Every special notice or order by this Act required to be served shall be served,

(1) by delivering a copy of the same to the person to whom it is directed, or, on failure of such service, by posting a copy on some conspicuous part of the house in which the said person resides, or by delivering a copy to any agent authorized to appear generally for the person to whom such notice or order is directed; or

(2) by sending a registered letter containing a copy of such notice or order directed to the said person at his usual place of abode, or at the place where he may be known to reside; or

(3) by posting a copy of the notice or order at the mal-cutcherry of the estate, village, or tenure to which the same relates; or if no such mal-cutcherry be found, on some conspicuous place on the said estate, village or tenure; or

(4) if the person on whom the notice or order is to be served is a zemindar, by delivering a copy thereof to the agent who shall have paid an instalment of revenue next before or who may pay the instalment next after the preparation of such notice or order, on behalf of such zemindar.

In all cases where two or more persons are holders of an estate or tenure, service under the last two clauses shall be deemed to be good and sufficient service on each and all of such persons.

Powers of Collector and Commissioner on enquiry and appeal.

82. In any enquiry or appeal held under this Act, the Collector and the Commissioner shall respectively have the same powers as those conferred on Courts by the Code of Civil Procedure of summoning and examining witnesses and compelling the production of documents

No proceedings to be impeached for mistake or want of form.

83. No proceedings under this Act shall be impeached or affected by reason of any mistake in the name of any person thereby rendered liable to pay any sum of money, or in the description of any estate or tenure or land in respect of which he is rendered liable to pay; provided the directions of this Act be in substance and effect complied with; and no proceedings under this Act shall for want of form be quashed or set aside in any Court of Justice.

Appeal from orders.

84. Every order passed by the Collector in respect of applications under section 18, and every order passed under sections 11, 50, 52, or 68, shall be appealable to the Commissioner of the Division, and every such order of the Commissioner, except when otherwise directed by this Act, shall be appealable to the Board of Revenue, but no appeal shall lie under this section against any order unless the same be presented within one month from the date of the order.

General control of Commissioner and Government.

85. All the powers of a Collector under this Act shall be exercised under the general control and orders of the Commissioner of the Division, and all the powers of Collectors and Commissioners shall be exercised subject to the general control and orders of the Board of Revenue and of the Government.

Every order passed by any of the said authorities shall be subject at any time to be varied or set aside by the controlling authority.

Orders to be final.

86 Subject to the provisions of the two sections last preceding, every order passed by the Collector in respect of applications under section 18 and every order passed under sections 11, 50, 52, or 68, and every order passed by a controlling authority in respect of such order of a Collector, shall be final, and not liable to be modified or altered otherwise than as expressly provided in this Act.

Disposal of lands no longer required for embankments.

87. Whenever the maintenance of any public embankment, or the retention of any land appropriated to the purposes thereof, may no longer be required, and the permanent relinquishment of the same may be deemed expedient, such land shall be restored by the Collector to the estate or tenure from which such land was originally taken on repayment of the compensation, if any, which was paid for such land when the same was taken for the purpose of the embankment. If persons who are entitled to the restoration of any land under this section, or any of them, refuse or neglect to pay such price within a reasonable time after demand, the same shall be sold by the Collector as a revenue-free holding for such price as he can obtain for the same. All sums obtained for lands conveyed under the provisions of this section shall, after the payment of all expenses incurred on account of the same, be applied to the payment of the cost of any new embankment or drainage works, or of the expenses of maintaining any embankment or drainage works affecting the said lands and other adjacent lands, in reduction of the amount chargeable upon the zemindars and tenure-holders of the lands benefited, as hereinbefore provided, if any amount be so chargeable.

Collector may delegate any of his powers to a Deputy Collector.

88. A Collector may delegate any of his powers under this Act to a Deputy Collector, but from any order passed by a Deputy Collector to whom powers have been so delegated, an appeal shall lie to the Collector if presented within thirty days of the date of the order.

Every such delegation of powers shall be reported to the Commissioner of the Division.

Jurisdiction.

89. All offences created by this Act shall be enquired into and tried by a Magistrate of the first or second class.

Power to make, alter, and cancel rules.

90. The Lieutenant-Governor may from time to time make rules consistent with the provisions of this Act to regulate the following matters:—

(*a*) the proceedings of any officer who, under any provision of this Act, is required or empowered to take action in any matter;

(*b*) the business of Embankment Committees;

(*c*) the cases in which, the officers to whom, and the conditions subject to which, orders and decisions given under any provision of this Act, and not expressly provided for as regards appeal, shall be appealable;

(*d*) the person by whom, the time, place, or manner at or in which, anything for the doing of which provision is made in this Act, shall be done;

(*e*) the amount of any charge made under this Act; and

(*f*) generally to carry out the provisions of this Act.

The Lieutenant-Governor may from time to time alter or cancel any rules so made.

Such rules, alterations, and cancelment shall be published in the *Calcutta Gazette*, and shall thereupon have the force of law:

Publication of rules.

Provided that no rules shall be made by the Lieutenant-Governor under the powers conferred on him by this section until a draft of the same shall have been published in the *Calcutta Gazette* for one month, after which time the Lieutenant-Governor may pass such rules as originally published, or with such alterations, additions, and omissions as he may think fit.

Saving of operation of certain Acts.

91. Nothing in this Act shall apply to any embankment, land, or water-course which is under the operation of any of the following Acts:—

The Bengal Drainage Act, 1880.

The Bengal Irrigation Act, 1876.

Bengal Act V of 1864. *(An act to amend and consolidate the law relating to the collection of Tolls on Canals and other lines of navigation, and for the construction and improvement of lines of*

navigation, within the provinces under the control of the Lieutenant-Governor of Bengal.)

PART IX.

Special provisions for the Province of Orissa.

Powers conferred on Superintendent of Embankments in Orissa.

92. The powers conferred on the Collector by section 25 may, in the Province of Orissa, be exercised by the Superintendent of Embankments with the consent of the Collector previously obtained, and the references in the said section to other parts of this Act shall be deemed to be references to the corresponding portions respectively of Act XXXII of 1855 (*An Act relating to Embankments*). The consequences mentioned in section 26 shall attach to everything done by the Superintendent of Embankments under the provisions of this section.

Power to Engineer to act in urgent cases.

93. In cases in which the Engineer in charge of any Embankment may be of opinion that delay for the purpose of obtaining the orders of the Superintendent of Embankments and the Collector would be attended with grave and imminent danger to life or property, the Engineer may exercise the powers conferred on the said Superintendent with the consent of the Collector in pursuance of the last preceding section. The Engineer shall forthwith report to the said Superintendent any action taken by him under this section, and shall be guided by any instructions which he may receive from him in respect thereof.

Sections made applicable to Orissa.

94. Sections 4, 5, 6, 34 and 76 shall extend to the Province of Orissa, the words "Superintendent of Embankments" being substituted for the word "Collector" in clauses (*a*) and (*b*) of section 76.

SCHEDULE.

SCHEDULE I.—(*Referred to in section* 2.)

(Portions of Bengal Act VI of 1873 which are not repealed.)

Power to take possession of land.

12. *Whenever any land or earth from any land the property of any person, is required for the purposes of any works commenced in pursuance of the provisions of the last preceding section, or for the purposes of section* 18 *in cases where the Collector shall be of opinion that proceedings for the acquisition of such land according to the provisions hereinafter contained in section* 25, *would cause delay as aforesaid, the Collector shall cause a proclamation to be issued in form in Schedule (B) annexed to this Act, giving notice thereof at convenient places in the locality in which such land is situated, and he may at the same time take possession of the same for the said purposes.*

Compensation for standing crops and trees.

13. *The Collector shall ascertain and record the nature and estimated value of the crops and trees (if any) standing on such land, and shall offer adequate compensation to the persons interested. If such offer is not accepted, the value of such crops and trees shall be allowed for in awarding compensation for the land under the provisions of section* 29.

21 (*Proviso*). *Provided always that in case the Collector be of opinion that the delay required by such proceedings is likely to be attended with grave and imminent danger to life or property, it shall be lawful for him forthwith to cause such trees, houses, huts, or buildings to be removed, and in such case the compensation due therefor shall be ascertained and paid in the manner hereinafter provided.*

When land taken, proclamation to be published.

26 *Whenever any land shall have been taken or used under the provisions of Part III, the Collector shall cause a proclamation to be issued in form in Schedule (C) annexed to this Act at convenient places on or near the land so taken, stating that Government has taken possession of the land, and that claims to compensation for all interests in such land shall be made to him. Thereupon the land shall vest absolutely in the Government free from all encumbrances, subject, however, to the claims for compensation to be ascertained in manner as in this Part is provided.*

Contents of proclamation.

27. *Such proclamation shall state the particulars of the land so taken, and shall require all persons interested in the land to appear personally or by agent before the Collector at a time and place therein mentioned (such time not being earlier than fifteen days after the date of issuing the proclamation), and to state the nature of their respective interests in the land, and the amount and particulars of their claims to compensation for such interest.*

Further notice to be served on certain parties.

28. *The Collector shall also serve notice to the same effect on the occupier (if any) of such land, and on all such persons known or believed to be interested therein, or to be entitled to act for persons so interested, as reside, or have agents authorized to receive service on their behalf, within the revenue district in which the land is situate.*

Proceedings after notice

29. *After service of such notice proceedings shall be had and taken to determine the amount of compensation to be payable in respect of such land, in accordance with the provisions of the Land Acquisition Act, X of* 1870, *or other law for the time being in force for the acquisition of lands for public purposes.*

NOTIFICATION.

The 21st June 1882.—It is hereby notified that in the month of August 1883, and thereafter month by month till further notice, 4,450 chests of Bengal opium will be sold under the usual conditions, by auction, in Calcutta, as follows:—

	Chests.
Opium manufactured at the Patna factory	2,225
Ditto ditto Ghazipore factory	2,225
Total ...	4,450

2 This monthly provision of 4,450 chests of opium will neither be increased nor diminished until at least twelve calendar months after notice published in the *Gazette of India* under the signature of a Secretary to the Government of India, or in the *Calcutta Gazette* under the signature of a Secretary to the Government of Bengal.

3. The division of the monthly provision of 4,450 chests of opium into 2,225 chests of opium manufactured at Patna and 2,225 chests of opium manufactured at Ghazipore, will not be modified until at least six calendar months after notice published in like manner.

4. Provided always that nothing in this notification shall be understood to prevent the Government, or the chief authority to whom the Government may delegate the duty of superintending the sale of Bengal provision opium, from selling two monthly provisions within one calendar month, instead of in the two successive calendar months in which they would otherwise be sold, whenever the occurrence of public holidays or any other circumstance shall appear to the Government to make such modification of the regular course of the monthly sales convenient.

5. Provided also that any chests of opium of which delivery is not taken by the purchasers may be sold in any subsequent month in addition to the 4,450 chests provided for that month.

GOVERNMENT OF INDIA, MILITARY (MARINE BRANCH) DEPARTMENT.

NOTICE TO MARINERS.—(22).

CEYLON—EAST COAST.

Non-existence of shoal reported distant 4 miles from Batticaloa.

WITH reference to this Department Notice to Mariners, No. 29, of 15th August 1881, on the reported existence of a shoal (on which the steam vessel *Brennus*, drawing 22 feet, struck) stated to lie about 4 miles off shore with Batticaloa flagstaff bearing about S. W. by W. ½ W., the British Hydrographic Department has notified that—

Further information has been received from the Commander-in-Chief in the East Indies, and from the Government of Ceylon, in reference to searches having been made for

this reported danger in H. M. S. *Ready*, and by the Colonial Government. These examinations show that no danger exists so far distant from the land, in the direction reported, and in such deep water (25 to 32 fathoms).

From these examinations, taken in connection with the evidence collected, it is considered that the *Brennus* struck on a shoal not heretofore charted, lying with Batticaloa flagstaff bearing S. 7° W., distant 7¼ cables, situated in the midst of known shoal coral ground.

This new shoal, with a least depth over it of 15 feet, lies 3¼ cables N. W. of the 7-feet shoal known as Tower rock; 6 cables W. ¼ S. of the 12-feet shoal known as Beacon rock; and 8¼ cables E. by S. of the 19-feet shoal known as Surveyor rock.

(*The bearings are Magnetic. Variation* 1¼° *Easterly in* 1882).

By direction of the Government of India,

A. DUNDAS TAYLOR, *Comdr.* (*late I.N.*),
Superintendent, Marine Survey of India.

COURT OF SMALL CAUSES OF CALCUTTA,
The 12th June 1882.

[First Publication.]

NOTIFICATION.

The 19th June 1882.—Under the provisions of section 69 of Act III of 1877, the Lieutenant-Governor directs that the following amended rule be substituted for Rule 114 of the rules which were published under notification dated the 19th July 1877 in the *Calcutta Gazette* of the 8th August 1877 :—

"*Rule* 114.—Every Registrar shall submit to the Inspector-General, before the 15th August of each year, an indent in quadruplicate, in the prescribed form, for all register books and other registration forms, including the forms prescribed by the Accountant-General, which will be required for his own office and those of the Sub Registrars subordinate to him during the following calendar year. When it is desired that the supply of register books, &c., should be forwarded to any sub-registry office direct instead of being sent through the office of the Registrar to whom the Sub-Registrar is subordinate, an intimation to that effect should accompany the Registrar's indent, and the indents of such Sub-Registrars should be submitted separately in quadruplicate, with the Registrar's endorsement, instead of being embodied in the Registrar's indent."

The Lieutenant-Governor also directs that Rule 116 of the same rules, which now becomes inoperative, be cancelled.

SENATE HOUSE,
The 15th June 1882.

ORDERS BY THE VICE-CHANCELLOR AND SYNDICATE OF THE CALCUTTA UNIVERSITY.

The following changes in the Regulations in Engineering having been sanctioned by the Senate and approved by His Excellency the Governor General of India in Council, are published for general information :—

For the Regulations for the First Examination in Engineering, for the Licence in Engineering, and for the Degree of Bachelor in Engineering, the following Regulations have been substituted, with effect, as regards the First Examination in Engineering, on the 1st of August 1883, and as regards the Licence and the Degree of Bachelor in Engineering, on the 1st of January 1885 :—

FIRST EXAMINATION IN ENGINEERING.

1. The First Examination in Engineering shall be held every year in Calcutta, and shall commence at such time as the Syndicate may determine, the date to be approximately notified in the Calendar for the year.

2. Any undergraduate of the University may be admitted to this Examination, provided he has prosecuted a regular course of study in a School of Engineering affiliated to the University, for two years and six months after passing the Entrance Examination.

3. Every candidate for admission to the Examination shall send his application, with a certificate in the form entered in Appendix A, to the Registrar, at least fourteen days before the date fixed for the commencement of the Examination.

4. A fee of twenty rupees shall be payable by each candidate. No candidate shall be admitted unless he has paid this fee to the Registrar. A candidate who fails to appear or to present himself for Examination shall not be entitled to claim a refund of the fee. A candidate may be admitted to one or more subsequent Examinations on payment of a like fee of twenty rupees on each occasion.

5. Every candidate shall be examined in the following subjects:—

I. Mathematics.
II. Natural Science.
III Engineering Construction.
IV. Geodesy.
V. Drawing.

I. MATHEMATICS.

Arithmetic. The whole.

Algebra.

To the Binomial Theorem (omitting scales of notation) Exponential Theorem and Logarithms.

Geometry.

Euclid—Books 1, 2, 3, 4, and 6, with deductions, Conic Sections treated geometrically.

Trigonometry.

As far as the solution of all cases of plane triangles. DeMoivre's Theorem, Exponential values of Sine and Cosine.

Mensuration.

Mensuration of surfaces and solids.

Analytical Geometry.

Equations of the straight line, circle, ellipse, hyperbola, and parabola, without reference to the general equation of the 2nd degree.

Statics.

Parallelogram and triangle of forces, Resultant of parallel forces, Couples, Moments, Equilibrium of any forces acting on a particle or rigid body. Centre of parallel forces, Centre of gravity. Friction, simple cases of tension of Strings, Levers, Pulleys, Wheel and axle, Inclined plane, Screw.

Dynamics.

Definition and measurement of mass, force, velocity, acceleration, momentum, work and energy.* Laws of motion, Uniform motion. Uniformly accelerated motion in a straight line, parabola and circle. Relative motion. Simple cases of impact.

II. NATURAL SCIENCE.

Chemistry.

Inorganic Chemistry. The metals and non-metals.

Physics.

Light, Heat, Electricity, Magnetism and the Elements of Telegraphy.

III. ENGINEERING CONSTRUCTION.

Materials. Structure, Classification, and characteristic qualities of Building Stones, Artificial Stones, Quarrying and Blasting, Preparation of Bricks and Tiles, Cementing materials, Plasters, Paints and Varnishes, Properties and preservation of timber, Iron and Steel, Lead, Copper, Zinc and the common Alloys.

IV. GEODESY.

Use of the scales, Prismatic Compass, Pocket Sextant, Level, Theodolite and Plane table. Topographical Surveying of limited areas. Practice of Levelling. Route surveying and laying out curves. Elements of Practical Astronomy. (Attested surveys, executed by the candidate, will be submitted to the Examiner, to which marks will be assigned.)

V. DRAWING.

1. Free-hand Drawing.
2. Projection (a) Orthographic, (b) Isometric, (c) Perspective.

6. The Examination shall be conducted by means of printed papers, and a paper of questions shall be set in each of the following subjects :—

Arithmetic and Algebra.
Plane Geometry and Geometrical Conic Sections.
Trigonometry and Mensuration.
Statics and Dynamics.
Analytical Geometry.
Chemistry.
Light and Heat.
Electricity, Magnetism, and the elements of Telegraphy.
Materials of Construction.
Geodesy.
Drawing.

* Special importance will be attached to a thorough comprehension of the principles of Work and Energy, and of their application to the solution of Mechanical questions.

7. As soon as possible after the Examination, the Syndicate shall publish a list of the successful candidates arranged in two divisions, each in order of merit. Every candidate shall, on passing, receive a certificate in the form entered in Appendix A.

LICENCE IN ENGINEERING.

1. An Examination for a Licence* in Engineering shall be held annually in Calcutta, and shall commence at such time as the Syndicate shall determine, the date to be approximately notified in the Calendar for the year.

2. Any undergraduate of the University may be admittted to this Examination on producing a certificate from the head of an institution affiliated to the University in Engineering, shewing that he has prosecuted a regular course of study for not less than one Academical year after passing the First Examination in Engineering.

3. Every candidate for admission to the Examination shall send his application, with a certificate in the form entered in Appendix A, to the Registrar at least fourteen days before the date fixed for the commencement of the Examination.

4. A fee of twenty-five rupees shall be payable by each candidate. No candidate shall be admitted unless he has paid this fee to the Registrar. A candidate who fails to pass or to present himself for Examination shall not be entitled to claim a refund of the fee. A candidate may be admitted to one or more subsequent Examinations on payment of a like fee of twenty-five rupees on each occasion.

5. Every candidate shall be examined in one of the following Branches marked A and B :—

(*A.—Civil Engineering.*)

I. Mathematics.
II. Natural Science.
III. Engineering Construction.
IV. Drawing.

I. MATHEMATICS.

Differential Calculus.

Differential coefficients of simple and complex functions, successive differentiation, Differential functions of two variables, functions of functions; Implicit functions. Taylor's and Maclaurin's Theorems. Maxima and Minima, values of functions of one variable.

Integral Calculus.

Integration of simple functions, Rational fractions. Formulæ of reduction Lengths of curves. Areas of curves and surfaces. Volumes of solids. Differentiation of an integral.

Hydrostatics.

Equilibrium of fluids, Specific gravity, Equilibrium of floating bodies, Centre of pressure, Elastic fluids, Principles of Barometer, and application to determine heights of Mountains; of the air-pump. Condenser-pump, Siphon, Hydrostatic Press and the Hygrometers.

II. NATURAL SCIENCE.

Geology. (Excluding Palæontology and the Stratigraphical classification based thereon) with special reference to the practice of mining.

Mineralogy. The form of minerals. The physical, optical, and chemical character of minerals. The distribution of minerals. Paragenesis.

Metallurgy. The metallurgy of Iron, Steel, Tin, Copper Zinc, Lead, Mercury, Silver and Gold.

* The holder of this Licence shall be styled a Licentiate in Engineering.

III. ENGINEERING CONSTRUCTION.

Practice of Building. Brick and stone masonry, Earthwork, Carpentry, Foundations, Walls, Floors and Roofs of Buildings, Construction of Masonry, Wooden and Iron bridges, Construction and maintenance of Roads, Construction of Railroads and Railway appliances.

Hydraulic Engineering. Canal and River Engineering, River training and improvements, Flow of liquids through orifices, Flow of liquids in pipes. The movements of water in Canals and Rivers, Flow of water over weirs and waste weirs, Afflux of fluids caused by obstructions, Water-wheels and Turbines, Storage of water, Supply of water to towns.

Applied Mechanics. Direct stresses, Bars and pillars of various forms in tension and compression, Transverse strain, Deflection of beams, Resistance to torsion. The equilibrium, stability and strength of Framed Structures, Stability of suspension bridges, Theory of Earth pressure, and Resistance of Block work Structures. Elements of Graphic Statics.

Mechanism. Elementary forms of Machines, Levers, Cranks, Rolling Contacts, Sliding Contacts. Mechanism for modifying motion, Accumulation and Regulation of Motion.

Steam Engine. Measurement of Heat, Joule's Equivalent, Indicators and Indicator diagrams, Boilers, Heating surface, injectors and all other parts of high and low pressure Engines.

IV. DRAWING.

Engineering and Architectural Drawing.

B.—(Mechanical Engineering.)

I Mathematics.
II. Engineering Construction.
III. Machinery.
IV. Drawing.

I. MATHEMATICS.

As laid down for the Examination for Branch A.

II. ENGINEERING CONSTRUCTION.

Practice of Building. As laid down for the Examination for Branch A.

Applied Mechanics. As laid down for the Examination for Branch A.

Steam-Engine. The Steam-Engine as viewed under knowledge of the doctrine of Latent Heat with history improvements and alterations in original theories, Combustion of fuel, Heat Engines. The conversion of Motion Indicators and details of Construction Boilers, Compound Cylinder Engines, Miscellaneous details.

Hydraulic Engineering. Hydraulic Machinery, Flo of water in pipes.

III. MACHINERY.

Mechanism and Machine design. Elementary form of Machines, Levers, Cranks, Rolling Contacts, Sliding Co tacts, Mechanism for modifying motion, Accumulation an regulation of Motion. Mode of designing Riveted Joint Fastenings, Journals, Pivots, Axles, Shaftings, Bearing Strength and form of toothed gearing, Belt and rope gearin Link work, Pistons, Stuffing boxes, Valves and Cocks.

Workshop Appliances Measures of length and metho of measuring. Hand tools for wood and metals, Formin straight edges and surface plates. Foot and power Lath Machinery for Drilling, Boring, Planing, Shaping, Slottin Punching, Shearing and Sawing. Distribution of moti power to Machine tools.

Designs. Designs of Factories and Workshops wi arrangement of Machinery.

IV. DRAWING.

Machine Drawing.

6. Candidates shall also be allowed to presen themselves for Examination in one or more of th following optional subjects, proficiency in whic will affect their place in the division list, but wi not be counted towards a pass :—

Optional Subjects.

I. MATHEMATICS.
Pure Mathematics } *as in the First Exami*
Mixed Mathematics } *ation in Engineering*
II. NATURAL SCIENCE.
Chemistry } *as in the First Examination*
Physics } *Engineering.*

III. ENGINEERING CONSTRUCTION.
Materials of Construction, *as in the First Examination in Engineering.*
IV. GEODESY, *as in the First Examination in Engineering.*

7. The Examination shall be conducted by means of printed papers, and a paper of questions shall be set in each of the following subjects :—

Branch A.

Differential and Integral Calculus.
Hydrostatics.
Geology.
Mineralogy and Metallurgy.
Details of Construction.
Roads and Railways.
Hydraulic Engineering.
Applied Mechanics.
Mechanism and Steam-Engine.
Engineering and Architectural Drawing.

Branch B.

Differential and Integral Calculus.
Hydrostatics.
Details of Construction.
Roads and Railways.
Applied Mechanics.
Hydraulic Engineering
Mechanism and Machine design.
Designs, and Workshop appliances.
The Steam-Engine.
Machine Drawing.

Optional.

Pure Mathematics.
Mixed Mathematics
Chemistry
Physics
Materials of Construction.
Geodesy.

8. As soon as possible after the Examination, the Syndicate shall publish a list of the successful candidates arranged in two divisions, each in order of merit. Every candidate shall, on passing, receive a certificate in the form entered in Appendix A.

BACHELOR IN ENGINEERING.

1. An Examination for the Degree of Bachelor in Engineering shall be held annually in Calcutta, and shall commence at such time as the Syndicate shall determine, the date to be approximately notified in the Calendar for the year.

2. Any candidate who has passed the First Examination in Arts* may be admitted to this Examination, provided he produces a certificate from the head of an institution affiliated in Engineering, shewing that he has prosecuted a regular course of study for not less than one Academical year, after passing the First Examination in Engineering.

3. Every candidate for admission to the Examination shall send his application, with a certificate in the form entered in Appendix A, to the Registrar, at least fourteen days before the date fixed for the commencement of the Examination.

4. A fee of thirty rupees shall be payable by each candidate. No candidate shall be admitted, unless he has paid this fee to the Registrar. A candidate who fails to pass or present himself for Examination shall not be entitled to claim a refund of the fee. A candidate may be admitted to one or more subsequent Examinations on payment of a like fee of thirty rupees on each occasion.

5. Every candidate shall be examined in the subjects and in the manner ordered in paragraphs 5, 6 and 7 of the Regulations for a Licence in Engineering.

6. As soon as possible after the Examination, the Syndicate shall publish a list of the successful candidates arranged in two divisions, each in order of merit. Every candidate shall, on passing, receive a certificate in the form entered in Appendix A.

7. The first candidate of the first division shall receive a gold medal to the value of one hundred rupees.

8. Any Licentiate in Engineering, who has passed the First Examination in Arts, may, on paying the usual fee, be admitted to the Degree of Bachelor in Engineering without further Examination.

* Any undergraduate who has passed the First Examination in Engineering may proceed to the First Examination in Arts and the Bachelor of Art Examination, without completing the two years of study at an affiliated institution required under para. 2 of the First Arts and B. A. Regulations.

CUSTOM HOUSE NOTICES.

UNTIL further notice the transhipment of free goods will be allowed without the attendance of a Preventive Officer, and without any charge. It will still, however, be necessary to obtain the permission of the Collector of Customs for transhipment under section 128 of Act VIII of 1878.

2. Unless it is clearly shown by the manifest or other document produced, that the goods to be transhipped are free goods, they will, for the purpose of transhipment, be treated as dutiable goods, and fees charged accordingly.

3. In the case of free goods, as soon as the transhipment is completed, the transhipper should return the pass to the Collector of Customs with an endorsement showing the number of packages transhipped, and the marks and numbers of the packages, if any, short-transhipped.

4. In the case of dutiable goods, the fees for transhipment will be the same as heretofore, with the exception that the extra fee of Rs. 4 per diem for work after the first day will not be charged so long as the regulation working hours from 8 A.M. to 5 P.M. are not exceeded.

5. There will be a special form of transhipment pass for free goods, the present form being used for dutiable goods.

W. H. GRIMLEY,

The 27th June 1882. *Offg. Collector of Customs.*

FROM the 1st July, and until further notice, Custom House Officers will be in attendance at the jetty gates, from Monday to Friday inclusive, from 8 A.M. to 6 P.M., and on Saturdays from 8 A.M. to 4 P.M., for the passing of goods out of the jetties, without any extra charge to importers and exporters.

The following orders, issued by the Government of India in the Department of Finance and Commerce, are republished for general information :—

NOTIFICATIONS.

Simla, the 23rd June 1882.

No. 1822.—In exercise of the powers conferred by section 46 of the Native Passenger Ships Act, VIII of 1876, the Governor-General in Council is pleased to make the following rules, to be substituted for the rules laid down in clause *A* of the Notification of the Government of India in the Department of Revenue, Agriculture, and Commerce, No. 298, dated the 8th August 1877, viz.—

I.—In the case of every ship to which the Native Passenger Ships Act applies, the scale on which provisions, fuel, and water are to be supplied to the passengers per head per diem shall be as follows :—

	For passengers bound for any port within 48 hours' sail	For passengers bound for ports over 48 hours' sail.

[NOTE.—In the case of steamers carrying an apparatus for distilling fresh water from salt water, a supply equal to five-sevenths of a gallon per head per diem shall suffice.

In Calcutta and Bombay such water shall be obtained from the municipal pipes.]

The following orders, issued by the Government of India in the Public Works Department, are republished for general information :—

Simla, the 22nd June 1882.

No. 161.

ORDER—By the Government of India, Public Works Department.

Read the following letter and enclosure :—

No. 132 R.S, dated 7th June 1882.

From—The Government of India, Public Works Department,

To—The Government of Madras, Public Works Department.

I AM directed to acknowledge the receipt of the following Proceedings of the Government of Madras:—

Public Works Department Proceedings, March 1882, Nos. 31-33
" " " April " " 9-11
" " " " " " 12-14

containing indents for stores required for the Madras and South Indian Railways.

2. It would appear, from a perusal of the items, that several articles are still being indented for from England that can be obtained, as cheaply and of as good quality, of indigenous manufacture. I am therefore directed to request that the Consulting Engineer for Railways may be instructed to arrange with the Agents of the Railway Companies to utilise, as far as possible, the products of this country rather than drawing their whole supplies of stores from England.

3. The accompanying list of articles, extracted from the items in the abovenoted indents, shew such stores as are known to be manufactured, either wholly or in part, in India; and doubtless were the present manufactures of the Madras Presidency accurately known, other items might have been added to the list. It is quite probable that the distance of some of these centres of supply from Madras renders the prices of such stores prohibitive; but the list will indicate to the Consulting Engineer, when future indents are preferred for sanction, where articles of Indian manufacture can be obtained.

List of articles entered in the indent for Public Works Stores, Madras Railway, which, on the information before the Government of India, can be had of local manufacture.

SECTIONS 59 AND 60, ACT VIII (B.C.) OF 1869.

DISTRICT DINAGEPORE.

In the Court of Subordinate Judge at Dinagepore.

Execution Case No. 22 of 1882.

Gobinda Lal Roy of Tajhat, district Rongpur, judgment-creditor,

against

No. 1, Girish Chander Chackrovarty; 2, Ram Chunder Lahiri; 3, Radha Nath Chaudhuri; 4, Krisha Coomar Nag, guardian for the minor Shivendro Narayan Chaudhuri of Rajgunge, district Dinagepore, judgment-debtors.

NOTICE is hereby given that, on the application of Gobind Lal Roy, the judgment-creditor in the above case, made under section 59, Act VIII (B.C.) of 1869, an order has been passed by this Court for the sale of the under-tenure specified in the annexed schedule, in satisfaction of his claim for arrears of rent due in respect thereof, amounting with costs and interest to the sum of Rs. 10,260-4-6.

The sale will be by public auction. In the absence of any order of postponement, the sale will be held by the Nazir of the Judge's Court at the monthly sale commencing at 1 o'clock on the 7th August 1882 (Bengalee date 23rd Sravan 1889, at Judge's court).

In the event, however, of the debt, including costs above specified, and of the costs of the sale, being tendered or paid before the knocking down of any lot, the sale will be stopped.

At the sale the public generally are invited to bid, either personally or by duly-authorized agent. No bid by or on behalf of the judgment-creditor above mentioned, however, will be accepted; nor will any sale to him be valid without the express permission of the Court previously given. The following are the further.

Conditions for Sale.

1. The amount by which the biddings are to be increased shall be determined by the officer conducting the sale. In the event of any dispute arising as to the amount bid, or as to the bidder, the lot shall at once be again put up to auction.

2. The highest bidder shall be declared to be the purchaser of any lot, provided always that he is legally qualified to bid, and provided also that it shall be in the discretion of the Court or officer holding the sale to decline acceptance of the highest bid when the price offered appears so clearly inadequate as to make it advisable to do so.

3. For reasons recorded, it shall be in the discretion of the officer conducting the sale to adjourn it, subject always to the provisions of section 291, Act X of 1877.

4. The person declared to be the purchaser shall pay, immediately after such declaration, a deposit of 25 per cent. on the amount of his purchase-money to the officer conducting the sale, and in default of such deposit the property shall forthwith be put up again and sold.

5. The full amount of the purchase-money shall be paid by the purchaser before the Court closes on the fifteenth day after the sale of the property, exclusive of such day, or if the fifteenth day be a Sunday, or other holiday, then on the first office day after the fifteenth day.

6. In default of payment of the balance of purchase-money within the period allowed, the property shall be re-sold after the issue of a fresh notification of sale. The deposit, after defraying the expenses of the sale, shall be forfeited to Government, and defaulting purchaser shall forfeit all clam to the property or to any part of the sum for which it may be subsequently sold.

Given under my hand and the seal of the Court this 20th day of June 1882.

AUGHORE NATH GHOSE,
Subordinate Judge.

PART III.

Act of the Bengal Council.

GOVERNMENT OF BENGAL.

LEGISLATIVE DEPARTMENT.

[econd Publication.]

THE following Act, passed by the Lieutenant-Governor of Bengal in Council, received the assent of His Honor on the 15th April 1882, and having received the assent of His Excellency the Governor-General on the 9th June 1882, is hereby published for general information :—

ACT No. II OF 1882.

An Act to amend the law relating to Embankments and Water-courses.

Preamble.

WHEREAS it is expedient to make better provision for the construction, maintenance, and management of embankments and water-courses in the territories subject to the Lieutenant-Governor of Bengal : It is enacted as follows :—

PART I.

Preliminary.

Short title.

1. This Act may be called "The Bengal Embankment Act, 1882."

Local extent

It extends to the whole of the territories subject to the Lieutenant-Governor of Bengal, except the Sunderbuns, as defined under the provisions of clause 2, section 13, Regulation III of 1828, and the province of Orissa, save as otherwise expressly provided in Part IX.

Commencement.

And it shall come into force from the day on which it may be published in the *Calcutta Gazette* with the assent of the Governor-General.

Repeal of former Acts.

2. From such day Bengal Act VI of 1873 (*to amend the law relating to embankments and water-courses*), with the exception of the sections set out and schedules specified in schedule I to this Act annexed, shall be repealed.

The references in the said sections, which are mentioned in schedule II to this Act annexed, shall be read as if the references were made to the portions of this Act mentioned against such references respectively in the third column of such schedule.

Sections 80 and 81 of this Act shall be applicable respectively to the proclamation and notice mentioned in sections 26 and 28, Bengal Act VI of 1873.

Interpretation.

3. The following words shall, for the purposes of this Act, have the meanings hereby declared, save where, from the context, a contrary intention appears :—

"Collector."

"Collector" means any Revenue Officer in independent charge of a district or portion of a district, or specially appointed by the Lieutenant-Governor of Bengal to perform the functions of a Collector under this Act.

"District"

"District" means the local area throughout which a Collector is authorized to exercise his ordinary functions.

"Embankment"

"Embankment" includes

every bank, dam, wall and dyke, made or used for excluding water from, or for retaining water upon, any land ;

every sluice, spur, groyne, training wall, or other work annexed to, or portion of, any such embankment ;

every bank, dam, dyke, wall, groyne, or spur, made or erected for the protection of any such embankment or of any land from erosion or overflow by or of rivers, tides, waves, or waters ;

and also all buildings intended for purposes of inspection and supervision.

"Estate." "Estate" means any land or share in land included under one entry on the general register of revenue-paying lands and of revenue-free lands prepared and maintained by the Collector of a district under the Land Registration Act, 1876, or any similar law for the time being in force.

"Land." "Land" includes interests in land and benefits arising out of land, and things attached to the earth or permanently fastened to anything attached to the earth.

"Public embankment." "Public embankment" means an embankment maintained by the officers of Government.

"Public water-course." "Public water-course" means a water-course under the charge of the officers of Government.

"Section." "Section" means a section of this Act.

"Tenure" "Tenure" includes all interests in land which are held permanently at a fixed rental, or which are held rent-free, other than estates as above defined.

"The Engineer." "The Engineer" means the Engineer in charge of the public embankments of the district, or any part thereof, or any Engineer specially appointed by the Lieutenant-Governor of Bengal to perform the functions of an Engineer under this Act in respect of any tract of country or of any works

"Water-course" "Water-course" includes a line of drainage, weir, culvert, pipe, or other channel, whether natural or artificial, for the passage of water.

"Zemindar." "Zemindar" means all or any of the holders of an estate; and where two or more zemindars are jointly holders thereof, they shall be jointly and severally liable under this Act.

Explanation.—For the purposes of Part VI the Government shall be deemed to be the zemindar—

(*a*) of every estate of which the zemindari title is not vested elsewhere than in the Government.

(*b*) of every estate which is let in farm or held khas under the provisions of section 43 of Regulation VIII of 1798, in consequence of the proprietor refusing or omitting to engage for the settlement thereof.

Public embankments, &c., to vest in Government. 4. Every public embankment and every public water-course and all land, earth, pathways, gates, bermes, and hedges, belonging to, or forming part of, or standing on, any such embankment or water-course, and every embanked tow-path maintained by Government, shall vest in the Government. The embankments mentioned in schedule D annexed to Bengal Act VI of 1873, and every embankment and water-course which may be included in such schedule under section 43 of this Act, and every embanked tow-path as aforesaid, shall be held on behalf of the Government, and all other public embankments and water-courses shall be held by Government on behalf of the persons interested in the lands to be protected or benefited by such embankments or water-courses, subject to the provisions of section 87; and all moneys received on account of such lands shall be credited to the cost of the construction and maintenance of such embankments and water-courses respectively.

Survey of lands hitherto used for obtaining earth for repairs. 5. All plots or parcels of land which, before the commencement of this Act, have been used for the purpose of obtaining earth or other materials for the repair of any public embankment, water-course, or embanked tow-path as aforesaid, or which by agreement have been substituted for such lands, shall be deemed to be at the disposal of the Government for such purpose, without payment of compensation for the use or removal of such earth or other materials.

The Collector may cause all such plots or parcels to be ascertained, surveyed, and demarcated.

Notification. 6. The Lieutenant-Governor may from time to time, by a notification in the *Calcutta Gazette*, declare the limits of any tract within which the provisions of clause (*b*), section 76, shall take effect;

and the said provisions shall take effect one month after the publication of such notification.

As soon as possible after the said publication, the Collector shall cause a translation of the notification in the vernacular to be published in the manner prescribed in section 80.

PART II.

Powers of Collector and procedure thereon; Embankment Committees.

Powers of Collector. 7. Subject to the provisions of Part III, whenever it shall appear to the Collector that any of the following acts should be done, or works executed, that is to say:

Taking charge of embankment by Government. (1) That any embankment which connects public embankments, or forms by junction with them part of a line of embankments, or that any embankment or water-course which is necessary for the protection or drainage of the neighbouring country, should be taken charge of and maintained by the officers of Government;

Removal of embankment or obstruction. (2) That any embankment, or any obstruction of any kind, which endangers the stability of a public embankment or the safety of any town or village, or which is likely to cause loss of property by interfering with the general drainage or the flood drainage of any tract of land, should be removed or altered;

Changing line of embankment. (3) That the line of any public embankment should be changed or lengthened, or that any public embankment should be renewed, or that a new embankment should be constructed instead of any public embankment, or that any embankment should be constructed for the protection of any lands or for the improvement of any water-course, or that a sluice in any public embankment should be made;

Improvement of drainage. (4) That any sluice or water-course should be made, or that any public water-course should be altered for the improvement of the public health, or for the protection of any village or cultivable land;

(5) That any road which interferes with the drainage of any tract of land should be altered, or that any water-course under or through such road should be constructed

Alteration of roads and construction of water-courses.

he shall cause to be prepared estimates of the cost of such works, including such proportion of the establishment charges as may be chargeable to the works in accordance with the rules for the time being in force under this Act, or as may be specially ordered by the Lieutenant-Governor, together with such plans and specifications of the same as may be required. He shall also cause to be prepared from the survey map of the district a map showing the boundaries of the lands likely to be affected by the said acts and works, and he shall cause a general notice to be given of his intention to cause such works to be executed.

8 Such general notice shall as far as possible be in the form, and state the particulars mentioned in schedule III to this Act annexed; and to it shall be annexed a list of all estates and villages as far as is known, which are likely to be affected by the proposed work, and to be chargeable in respect of the expenses of executing the same; and a copy of the said estimates, specifications, and plans, together with a copy of the map as aforesaid, shall be deposited in the office of the Collector, and shall be open to the inspection of any persons interested, who shall be allowed to take copies thereof.

Form of notice

9. Every such general notice shall be published in the manner provided by section 80 not less than thirty days before the day appointed for hearing the persons interested.

Proclamation to be published for thirty days.

10. The Collector shall, on the day appointed for the hearing, or on any subsequent day to which the hearing may be adjourned, hold an enquiry and hear the objections of any persons who may appear, recording such evidence as he may deem necessary.

Hearing of objections to works.

11. After holding such enquiry the Collector shall proceed as follows, that is to say—

Order after enquiry.

(*a*) If he considers that the proposed act or work, or any modification of the same, should not be done or executed, he shall record his opinion to that effect.

(*b*) If he considers that the proposed act or work, or any modification of it, should be done or executed, he shall submit a report to the Commissioner of the Division.

12. On receipt of a report submitted under section 11, the Commissioner, after making any further enquiry which he may deem necessary, may record an order refusing to support the proposal made in the report of such Collector for the execution of such work;

Order of Commissioner.

or may forward the report submitted by such Collector, together with any remarks he may think proper, for the consideration of the Board of Revenue.

13. On receipt of the report forwarded by the Commissioner, the Board of Revenue, after making any further enquiry which they may deem necessary, may record an order refusing to support the proposal made in the report of such Collector or Commissioner,

Order of Board.

or may submit such report, together with any remarks which may be thought proper, for the consideration of the Lieutenant-Governor.

14. On receipt of such report from the Board, the Lieutenant-Governor shall proceed to consider the same, and may order that the proposed act or the proposed work, or any modification thereof, be done or executed. Every such order shall be notified in the *Calcutta Gazette*.

Order of Lieutenant-Governor.

15. Notwithstanding anything contained in this Part, the Lieutenant-Governor may, by a special order passed in respect of any act or work specified in section 7, or by a general order in respect of any class of such acts or works, authorize the Collector, after holding such enquiry as is prescribed in section 10, without previous reference to any superior authority, to pass an order that such act or work or any modification thereof may be done or executed; or the Lieutenant-Governor may authorize the Commissioner or the Board of Revenue to pass such order without previous reference to any superior authority:

Special powers which may be conferred by Lieutenant-Governor.

Provided that every order passed under the authorization of the Lieutenant-Governor, given under this section, shall be subject to the provisions of section 85.

16. The Collector may make an order requiring that any railroad which interferes with the drainage of any tract of land be altered, or that any water-course under or through such railroad be constructed.

Alteration of railroads and construction of water-courses.

17. Whenever an order shall have been passed in cases falling under section 7, clause (5,) or under the section last preceding, directing that any road or railroad which interferes with the drainage of any tract of land be altered, or that any water-course be constructed under or through such road or railroad, the Collector may require the person in charge of such road or railroad to make such alteration or construct such water-course, and in the event of such person failing to comply with such requisition in such manner and within such time as the Collector shall prescribe, the Collector may cause the road or railroad to be altered or the water-course to be constructed by the officers of Government; provided that in the case of a railroad no such work shall be undertaken by the officers of Government without the permission of the Lieutenant-Governor previously obtained.

Procedure of Collector.

The expenses of such alteration or construction shall be borne by the person in charge of the said road or railroad, so far as the same shall have been incurred on account of insufficient provision having been made at the time of the construction of the said road or railroad for the natural drainage then

Expenses of alteration or construction.

existing, and the remainder of the expense, if any, shall be charged upon, and recovered from, the proprietors of the lands benefited in accordance with the provisions of this Act. If any dispute arises as to the apportionment of expenses under this clause between the person in charge of a road or railroad and the proprietors of the lands benefited, the dispute shall be decided by the Lieutenant-Governor, whose decision shall be final.

Application for new sluices, embankments, or drainage.

18. (*a*) If any person desires that a sluice be made in any public embankment for the purpose of drainage or irrigation,

(*b*) or if, within any tract of country which has been included within a notification under section 6, any person desires that any new embankment be erected, that any existing embankment be lengthened, enlarged, repaired, or removed, or that the line of any embankment be altered, or that any new water-course be made, or that any water-course be obstructed or diverted,

he may make an application in writing to the Collector. The application shall contain such particulars of the land likely to be affected by the work as may enable the Collector to judge of the advantage which may be derived from the project. If it should appear to the Collector that the work applied for is one which may probably be executed with advantage, the procedure mentioned in the seventh and following sections of this Act shall be followed in respect of the proposed work.

Power to remove houses, &c.

19. Whenever the Collector, after considering any report of the Engineer or otherwise, shall be of opinion that the removal of any trees, houses, huts, or other buildings, situated between a public embankment and the river, is necessary, or that land is required for widening an existing embanked tow-path, or for constructing a new embanked tow-path, he shall make a report to that effect to the Commissioner, accompanied by a detailed statement of the trees, houses, huts, or other buildings to be removed, or of the land required. Such report shall be submitted in the usual manner through the Board of Revenue to the Lieutenant-Governor, in order that proceedings may be taken for obtaining possession of such trees, houses, huts, and buildings, or land in accordance with the provisions of the Land Acquisition Act, X of 1870, or other law for the time being in force for the acquisition of land for public purposes.

Authority to take proceedings where lands likely to be affected by the works are in different districts.

20. If any works proposed to be undertaken in accordance with this Act, or the lands which are likely to be affected by such works, are situated within the limits of different districts, the Collector of any district within which any portion of such works or lands is situated may apply to the Commissioner of the Division for authority to proceed in such matter; and the Commissioner of the Division, with the concurrence of any other Commissioner within whose Division any such lands are situated, may give authority to such Collector, or to any other Collector within whose district any portion of such lands is situated, to carry out all or any proceedings under this Act in respect of all the lands affected by such works.

Lieutenant-Governor may appoint Embankment Committee.

21. The Lieutenant-Governor may, if he think fit, appoint an Embankment Committee for any district, and may from time to time appoint and accept the resignation of the members of such Committee, and direct that any person shall cease to be a member thereof.

Consultation of Committee by Collector.

22. The Lieutenant Governor may from time to time direct that any such Committee shall be consulted by the Collector in the discharge of any function or the performance of any duty imposed on him by this Act; and by a notification published in the *Calcutta Gazette* may from time to time direct that any such function or duty shall be performed or discharged by such Committee.

Business of Committee.

23. The business of every such Committee shall be conducted under such rules as the Lieutenant-Governor may from time to time make in that behalf.

Reference to Commissioner.

24. Whenever, in any matter on which the Lieutenant-Governor has directed that the Collector shall consult the Committee, the Collector may differ from the Committee, he shall, if so required by the Committee, submit the question to the Commissioner of the Division for decision, with copies of any remarks which may have been recorded by the Committee or any members thereof.

PART III.

Procedure in cases of imminent danger to life or property.

Proceedings in emergencies.

25. Whenever the Collector shall be of opinion that the delay in the execution of any work, occasioned by proceedings commenced by a general notice under the seventh and following sections of this Act, would be attended with grave and imminent danger to life or property, he may forthwith cause the execution of such work to be begun in anticipation of the completion of such proceedings: Provided that he shall without delay cause to be prepared the estimates, specifications, and plans of the proposed works, together with a copy of the map as provided in section 7, and shall cause general notice to be given that the work mentioned therein has already been commenced, and thereupon such proceedings and enquiries shall be had as in and by Part II of this Act are directed.

Re-toration of embankments, &c.

26. Whenever it may have been determined in the final order to be passed on any such enquiry that anything done by the Collector or by the Engineer under the last preceding section was unnecessary, any person who shall have sustained damage by the execution of such works shall receive compensation from the Government to be assessed according to the provisions contained in Part V of this Act, and on receipt of any application to that effect by the Collector from any such person affected, the land or the embank-

ments or drainage shall, so far as any alteration thereof shall appear to have been unnecessary, be, at the expense of the Government, restored as nearly as possible to the state in which they were when the Collector commenced to act under the provisions of this Part.

Authority to take proceedings where lands in different districts.

27. If any portion of the land likely to be affected by any work to be undertaken under this Part lies within another district, the Collector who causes the work to be executed, shall, when commencing upon it, give notice of the same to the Collector of such other district; and the provisions of section 20 shall be applicable to all proceedings connected with the work and the cost thereof.

PART IV.

Powers of the Engineer.

Engineer subject to control of Collector.

28 The powers conferred on the Engineer under this Act shall be exercised subject to the general control and orders of the Collector.

Power to Engineer to act in urgent cases.

29. In cases in which the Engineer may be of opinion that delay for the purpose of obtaining the orders of the Collector would be attended with grave and imminent danger to life or property, the Engineer may exercise the powers conferred on the Collector by section 25. The Engineer shall forthwith report to the Collector any action taken by him under this section, and shall be guided by any instructions which he may receive from the Collector in respect thereof.

Power to make repairs.

30 The Engineer may make any repairs in, and may do all acts necessary and proper for the maintenance of, any public embankment, public water-course, or any other work executed or taken charge of under the provisions of this Act or of any previous similar Act.

Power to make temporary roadway, water-course, or dam.

31. Whenever any person desires that a temporary roadway should be made over, or that a temporary water-course should be made through, any public embankment, or that a temporary dam should be constructed in any embanked river or public water-course, he shall apply to the Engineer, or to any person who has been appointed in that behalf by the Engineer. Such Engineer or person shall communicate the application with his opinion to the Collector, and shall await the Collector's order in respect thereof, unless he thinks that there is special reason for the immediate execution of the work, in which case he may execute the same without waiting for the orders of the Collector. If the proposed work is to be executed by an officer of Government, the applicant, before the commencement of the work, shall deposit the amount estimated by the Engineer to be necessary to defray the expenses of, and incidental to, making and removing such roadway, or of, and incidental to, making, closing, or removing such water-course or dam. If the amount deposited is found afterwards to exceed the amount required, such excess shall be returned to the said applicant.

Sluices to be opened or shut under authority of the Engineer.

32. Sluices constructed in any public embankment shall be opened or shut only by or with the general or special permission of the Engineer or of the officer in the immediate charge of the embankment, under such orders, either general or special, as he may receive from the Engineer.

Power to enter and survey land, &c.

33. It shall be lawful for the Engineer, or any person whom he may authorize in that behalf, in order to carry out any of the purposes of this Act,

to enter upon, and survey, and take levels of any land;

to dig or bore into the subsoil;

to do all other acts necessary to ascertain whether the land is adapted to the purpose projected by such Engineer, or by the Collector;

Power to mark out line.

to set out the boundaries of the land proposed to be taken, and the intended line of the work proposed to be made thereon;

to mark such levels, boundaries, and line, by placing marks and cutting trenches;

Power to clear land.

and, where otherwise the survey cannot be completed or the levels taken, to cut down and clear away any part of any standing crop, fence, or jungle:

Previous notice of entry.

Provided that no person shall enter into any building or upon any enclosed court or garden attached to a dwelling-house (unless with the consent of the occupier thereof) without previously giving such occupier at least seven days' notice in writing of his intention to do so.

Payment for damage.

The Engineer or other person so authorized shall at the time of such entry tender payment for all necessary damage to be done as aforesaid, and, in case of dispute as to the sufficiency of the amount so tendered, he shall at once refer the dispute to the decision of the Collector, and such decision shall be final.

Power to take earth from lands.

34. Whenever it is deemed requisite to repair any embankment or water-course, or embanked tow-path maintained by Government, it shall be lawful for the Engineer, or any person authorized in that behalf, to enter in and upon the lands mentioned in section 5, and take possession of, appropriate, and remove any earth or other material therefrom, and use the same for the purposes of such repairs.

Procedure where crops on such lands.

35 The Collector shall proceed in respect of any crops standing on such land as provided in section 13, Bengal Act VI of 1873; and the provisions of that section shall be applicable to claims for the payment of compensation for damage done to such crops.

Acquisition of land made permanently unfit for cultivation.

36. When any such land is rendered permanently unfit for cultivation by any such act as aforesaid, the local Government shall, upon application for that purpose made by the owner thereof, acquire such lands under the provisions of the Land Acquisition Act, 1870, or other law for the

time being in force for the acquisition of land for public purposes.

PART V.

Acquisition of lands and compensation.

Acquisition of land.

37. Whenever, in the course of proceedings under this Act, save in those cases in which the Collector has proceeded under the provisions of sections 12 and 13, Bengal Act VI of 1873, it appears that land is required for any of the purposes thereof, proceedings shall be forthwith taken for the acquisition of such land in accordance with the provisions of the Land Acquisition Act, X of 1870, or other law for the time being in force for the acquisition of lands for public purposes.

Compensation for consequential damage.

38. Subject to the provisions of section 5, whenever any land other than land required or taken by the Engineer, or any right of fishery, right of drainage, right of the use of water, or other right or property, shall have been injuriously affected by any act done or any work executed under the due exercise of the powers or provisions of this Act, the person in whom such property or right is vested may prefer a claim by petition to the Collector for compensation :

Provided that the refusal to execute any work for which application is made, and the refusal of permission to execute any work for the execution of which the permission of the Collector or any other authority is required under this Act, shall not be deemed acts on account of which a claim for compensation can be preferred under this section.

Limitation to claim for compensation.

39. No claim under the last preceding section shall be entertained which shall be made later than two years next after the completion of the work by which such right is injuriously affected.

Procedure for determining compensation.

40. When any such claim is made, proceedings shall be taken in view to determine the amount of compensation, if any, which should be made and the person to whom the same should be payable, as far as possible in accordance with the provisions of the Land Acquisition Act, X of 1870, or other law for the time being in force for the acquisition of land for public purposes.

Matters to be considered in determining compensation.

41. In any such case which is referred to the Judge and Assessors for the purpose of determining whether any, and, if so, what amount of compensation should be awarded, the Judge and Assessors shall take into consideration—

First, the market value of the property or right injuriously affected at the time when the act was done or the work executed ;

Secondly, the damage sustained by the claimant by reason of such act or work injuriously affecting the property or right ;

Thirdly, the consequent diminution of the market value of the property or right injuriously affected when the act was done or the work executed ;

Fourthly, whether any person has derived, or will derive, benefit from the act or work in respect of which the compensation is claimed, or from any work connected therewith, in which case they shall set off the estimated value of such benefit, if any, against the compensation which would otherwise be decreed to such person.

But the Judge or Assessors shall not take into consideration—

Matters not to be considered in determining compensation.

First, the degree of urgency which has led to the act or work being done or executed ;

Secondly, any damage sustained by the claimant, which, if caused by a private person, would not in any suit instituted against such person justify a decree for damages.

PART VI.

COST OF WORKS, PROCEEDINGS, &c.

1. *Ascertainment thereof.*

Embankments in Schedule (D).

42. The provisions of section 47 and the following sections in this Part contained shall not apply to any of the embankments mentioned in Schedule (D) to Bengal Act VI of 1873 annexed, or which may be hereafter included therein, save so far as any works or repairs are executed therein or in relation thereto under the provisions of section 18 or of section 31 ; or to any of such embankments as may hereafter be erected for the protection of lands which at the commencement of this Act are protected by the embankments mentioned in the aforesaid schedule, save so far as the erection of such embankments may protect lands not protected by the embankments mentioned in the aforesaid schedule. All sums payable in respect of any works or repairs executed in or in relation to the embankments mentioned in the aforesaid schedule, except under the provisions of section 18 or of section 31, shall be paid by the Government.

Exclusion from Schedule (D).

43. If at any time after the commencement of this Act, on enquiry made by the Collector as far as possible in accordance with the provisions of Part II of this Act, it shall be found that it is unnecessary for the public interests to retain any embankment mentioned in the said Schedule (D), or any embankment or water-course which may have been included in the said Schedule (D) under the clause next following of this section, the Lieutenant-Governor may direct that the same shall be no longer included in the said schedule : Provided that the Lieutenant-Governor may restore the same to the said schedule if on any subsequent enquiry similarly conducted it shall appear to the Lieutenant-Governor that it is necessary so to do.

Addition to Schedule (D)

The Lieutenant-Governor may, at any time after the passing of this Act, by a notification published in the *Calcutta Gazette*, direct that any embankment not mentioned in the said Schedule (D), or any water-course, be included therein, and the provisions of this section shall apply to such embankment or water-course.

44. In accordance with the custom heretofore in force in respect of the pergunnahs entered in Schedule (E) annexed to Bengal Act VI of 1873, the Government shall continue to contribute annually the sum noted therein for each pergunnah respectively towards the maintenance of the embankments thereof.

Contribution of public money towards the maintenance of the embankments in the pergunnahs entered in Schedule (E) to be continued.

45. If the embankments maintained in either the said pergunnahs shall at any time be declared to be public embankments under the provisions of section 7, the Collector shall, from the date of such declaration, keep a separate account for such pergunnahs, in which the aforesaid sum shall be credited at the commencement of each financial year. The unexpended balance at the close of each year shall be carried on to the credit of the account in the next succeeding year, and shall be available for the cost of repairing or erecting all the embankments which it may be deemed necessary to maintain in such pergunnah.

If such embankments are declared to be public, Collector to keep a separate account.

46. If at any time after the commencement of this Act, on an enquiry made by the Collector as far as possible in accordance with the provisions of Part II, it shall be found that it is unnecessary for the public interests to retain any embankment in either of the said pergunnahs, the Lieutenant-Governor may direct that such contribution shall cease in respect of such pergunnah: Provided that such contribution shall again be made in accordance with the provisions hereinbefore contained, if it shall appear, to the Lieutenant-Governor, on the report of an enquiry similarly conducted, that the maintenance of any embankment in such pergunnah has again become necessary for the public interest.

Contribution may be discontinued if it be found unnecessary for the public interest to maintain the embankments.

47. Subject to the provisions of Part III of this Act, before the Collector or the Engineer undertakes under the provisions of this Act, the execution of any repairs or of any work other than any new work of which the estimates, specifications, and plans have been prepared and deposited in the Collector's office for public inspection as provided in section 7, specifications and estimates of the expenses to be incurred in respect of the repairs or works, including such proportion of establishment charges as the Lieutenant-Governor shall direct, shall be prepared by the Engineer

Estimates and specifications to be prepared.

48. Whenever it appears that the actual expenses to be incurred in respect of any work will exceed by one-tenth any estimate of such work which may have been transmitted to the office of the Collector under the next succeeding section, the Engineer shall forthwith prepare further estimates, and, if necessary, further specifications.

Preparation of further estimates and specifications.

49. Copies of all specifications and estimates prepared under the two last preceding sections shall be transmitted to the office of the Collector, together with vernacular translations thereof, or such abstracts thereof as the Lieutenant-Governor may from time to time direct, and may be examined by any person interested in such works or repairs.

Estimates and specifications to be open to inspection.

50. A general notice of the receipt of such specifications and estimates shall be published in the manner prescribed in section 80, and in such general notice shall be specified all estates chargeable for, or likely to be affected by, the said works or repairs. Special notices shall also be served in respect of every estate in which the area liable to the assessment of the apportioned charge is likely to exceed one hundred acres; or instead of causing a general notice to be published, the Collector may cause special notices to the same effect to be served in respect of every estate chargeable for, or likely to be affected by, the said works or repairs. Should any objection in regard to such specifications and estimates be preferred by any such person within a period of one month from the date of service of such notice, the Collector shall pass such orders as may appear to him reasonable and proper.

Notice of receipt of estimates and specifications.

51. The accounts of the actual expense incurred in executing any works or repairs, or of any portion of the actual expenses with which the Collector may determine to deal separately under this and the following sections, shall be prepared as soon as possible after the completion thereof. The Engineer shall sign a certificate stating the amount of all such expenses, and specifying the boundaries of the lands which are benefited or affected by the said works or repairs, and stating generally how and to what extent the lands so specified, or any parts of them, are affected Any such certificate may be amended at any time before the Collector has made an order charging or apportioning the amount under section 58. On receipt of such certificate or amended certificate, the Collector shall cause a statement to be prepared of the villages of which any lands are benefited or protected by such works and repairs, and of the estates to which they belong, and, except as otherwise in this Act provided, the zemindars of such estates and villages shall be liable to pay the said amount. Copies of the said accounts, certificates, and statements shall be deposited in the office of the Collector, and may there be examined by any person interested.

Preparation of accounts and Engineer's certificate of expenses.

52 General notice of the receipt and deposit of such accounts, certificates, and statements in the office of the Collector shall be given Special notices thereof shall also be served in respect of every estate in which the area liable to assessment of the apportioned charges exceeds one hundred acres; or instead of causing a general notice to be published, the Collector may cause special notices to the same effect to be served in respect of every estate and tenure on or among the zemindars or tenure-holders of which any sum is charged or apportioned; and if, within one month of such general notice being given, or of such special notice (if any) being served on him, any interested person shall object to the accounts on the ground either that the work charged for has not been performed, or that the whole sum charged has not been expended, or that the rates of charge are higher than those mentioned in the estimates,

Notices and enquiry into objections.

the Collector shall enquire into such objection, and pass orders thereon.

Total sum payable.

53. The Collector shall add to the amount appearing in the said certificate all sums which have been paid or have become payable in respect of the said works and repairs, whether as compensation, costs, and expenses under, and incidental to, any proceedings taken or directed to be taken under Part II or Part V of this Act, or under sections 26 to 29 of Bengal Act VI of 1873, as cost of making of surveys and plans, as cost of preparing the estimates, accounts, certificates, and statements, as cost of the issuing and service of notices up to date, or on any other account, and shall then make an order specifying the total sum found payable, and in respect of works done under section 17 and section 31 the persons by whom, or in respect of other works, the estates in respect of which, the same is payable to him. If the order is made in respect of work done under section 17 or section 31, the same shall forthwith be served upon the party or parties liable to pay; otherwise the Collector shall proceed under the provisions in the next Chapter contained.

Interest.

Interest may be charged upon any sum paid as compensation from the date of payment thereof at five per centum, or at such rate, not exceeding five per centum per annum, as the Lieutenant-Governor may from time to time determine.

2. *Liability for the costs and apportionment thereof.*

Parties liable to pay.

54. The total sum aforesaid, save so far as is otherwise provided in this Act, shall be paid to the Collector by the zemindars of the estates in which are situated the lands benefited or protected by the repairs or works executed:

Proviso in respect of the pergunnahs in Schedule (E).

Provided that the sum standing to the credit of a pergunnah in Schedule (E) to Bengal Act VI of 1873 annexed in the account kept by the Collector, at the time when the total amount payable is fixed under the provisions of section 53, shall be deducted from the total amount payable in respect of such portion of any embankment as is situated in such pergunnah, and that the zemindars of the estates situated in such pergunnah shall be charged only with the balance of the amount (if any) which may remain payable.

Recovery from under-tenants.

55. Every zemindar, who is liable under the last preceding section for the payment of the whole or a portion of such total sum, shall be entitled to recover from the holder of every tenure held immediately under him, and from the holder of any land which is declared under the provisions of section 60 to form part of his estate, the sum apportioned to such tenure or land by the Collector under the provisions of section 59. And similarly, every tenure-holder shall be entitled to recover from the holder of any tenure subordinate to his own, and from the holder of any land declared under section 60 to form part of his tenure, the sum apportioned to such subordinate tenure or land by the Collector, under the said provisions.

Notice to be given before apportionment.

56. So soon as the total sum payable as aforesaid has been ascertained, the Collector shall cause general notice to be given specifying the estates in respect of which any portion of such total sum will be chargeable and special notices to be served in respect of every estate in which the area chargeable exceeds one hundred acres; or instead of causing a general notice to be published, the Collector may cause special notices to the same effect to be served in respect of every estate and tenure on or among the zemindars or tenure-holders of which any sum is charged or apportioned. Such notices shall make it known that an enquiry will be held at a day and place therein named for the purpose of apportioning amongst the zemindars and tenure-holders the said total sum, with interest and the costs of apportionment.

Names of tenure-holders.

57. In any such enquiry the Collector shall take down in writing the names of all persons who may claim, or who may be alleged by any party interested, to be holders of tenures within any of the estates mentioned in such notice. In default of appearance of any such person, the Collector shall issue and serve a notice calling on him to appear at a date and place therein mentioned, and to show cause against being included in the order of apportionment to be made therein, and shall adjourn the enquiry till such date.

Apportionment amongst zemindars.

58. At such or any subsequently adjourned enquiry, the Collector, if there be only one estate liable, shall charge the zemindar thereof with the total amount payable; and if there be two or more estates, he shall apportion the same amongst the zemindars thereof, either—

(*a*) rateably in proportion to the respective benefits derived by such estates from such works or repairs; or

(*b*) in proportion to the areas of the lands benefited or protected thereby, and comprised within such estates respectively; or

(*c*) with the sanction of the local Government, in proportion to the amount of revenue payable for such estates respectively:

Provided that the said total amount payable in respect of the embankments on the right bank of the river Gunduk shall be chargeable, in accordance with the custom in force for such estates, to the zemindars of all the estates situated in the district of Sarun, in proportion to the amount of revenue respectively payable for such estates:

Provided also that the total amounts which may have been expended by the Government before the commencement of this Act, and the total amounts which may become payable in accordance with the provisions of this Act, on account of any year in respect of the embankments on the left bank of the river Gunduk in the district of Mozufferpore, shall be chargeable, and shall be deemed always to have been chargeable, in accordance with the custom hitherto in force in respect of such embankments; that is to say, chargeable to the zemindars of all the estates situated in the following pergunnahs, viz. Rati, Gadasand,

Hajipur, Bhatsala, Garjaul, Nae, Saresa, and Balagach, in proportion to the amounts of land revenue payable for such estates respectively, but so that the amount out of any total sum apportioned in respect of each estate in Rati, Gadasand, and Hajipur, shall bear such a proportion to the land revenue payable for such estate as shall be twice as great as the proportion which the amount apportioned in respect of each estate in the remaining perguunahs shall bear to the land revenue payable for such estate.

Apportionment amongst tenure-holders.

59. The Collector shall, in like manner, except in respect of the said embankments on the right bank and left bank of the river Gunduk, charge or apportion the amount payable in respect of each estate upon or amongst the holders of the tenures therein rateably in the proportion of benefit so received or of area so benefited or protected, first deducting therefrom such sum as, on the like principle of proportion, is payable in respect of such portion of the estate as is not included within any tenure.

Provision as to lands held without payment of rent, not being estates.

60. All lands held without payment of rent not being estates may, for the purposes of this Act, be deemed to form part of any estate or of any tenure within the local boundaries of which they are included; and, if they are not included within the local boundaries of any estate, then to be a part of such conterminous estate as the Collector in whose district such conterminous estate is situated shall, by an order under his seal and signature, declare.

Amount apportioned payable in instalments.

61. The amount charged to or apportioned on any estate or tenure shall be payable in equal instalments on such days as the Lieutenant-Governor shall direct, provided that no instalment shall exceed four annas for every acre of land in respect of which the same is payable, and that not more than four instalments shall be payable in any one year.

Interest.

Interest shall be charged on the unpaid portion of the said amount from the date of apportionment until payment thereof at five per centum or at such rate, not exceeding five per centum per annum, as the Lieutenant-Governor may from time to time determine.

Apportionment of further expenses.

62. If after the apportionment of the expenses of any works and repairs as above prescribed any expenses not included in such apportionment shall be found to have been paid or to have become payable on account of the said works or repairs, whether as compensation or otherwise, the Collector may proceed to apportion such further expenses in the manner in this Part provided.

Alternative power of apportioning estimated expenditure for a series of years.

63. Instead of the procedure prescribed above for charging upon and recovering from zemindars the expenses actually incurred in the repairs and maintenance of public embankments and water-courses and the works connected therewith, the Lieutenant-Governor may, by an order to be published in the *Calcutta Gazette*, direct that an estimate be made of the expenses to be incurred in respect of such repairs, maintenance, and works during any number of years, not exceeding thirty, which he may think fit; and may by a subsequent order fix the total sum payable during such number of years by the zemindars of the estates benefited by such repairs, maintenance, and works;

Provided that no order fixing such total sum shall be passed by the Lieutenant-Governor until three months after the amount of such estimate shall have been published in the *Calcutta Gazette* and by a general notice calling on all persons interested to prefer to the Collector any objections they may think proper against such amount being fixed as the total sum. Every such objection shall be submitted to the Lieutenant-Governor for his consideration.

Period included in the last section what to include.

64. The period fixed in any order under the section last preceding may include also years previous to the commencement of this Act, provided that in such case the total sum mentioned in the said section shall be calculated by adding the amounts actually expended before the making of such order, to the estimate of expenses to be incurred during the rest of the period included in such order.

Works in respect of which such estimate may be made.

65. The total sum mentioned in section 63 or in section 64 may be made recoverable in respect of the expenses of repairs and maintenance, and the expenses of works connected with the repairs and maintenance—

(*a*) of any protective works which may be specified in such orders;

(*b*) of all the public embankments and water-courses in any district; or

(*c*) of all the public embankments and water-courses within any tract of country specified in the order of the Lieutenant-Governor; and any such tract may contain the whole or portions of any one or more districts;

and no further sum shall be recoverable during such period in respect of the expenses of such repairs, maintenance, and works connected therewith, save so far as any such works or repairs are executed under the provisions of section 18 or of section 31.

But such total sum shall not include the expenses of executing any new works which may be undertaken under the provisions of this Act within any district or tract as aforesaid.

Recovery of cost of new works.

Whenever the Lieutenant-Governor shall declare that any work executed or to be executed within such district or tract is a new work within the meaning of this section, the cost of executing such work and of maintaining the same shall be payable by the zemindars to the Collector under the provisions of this Act, in addition to any total sum fixed under section 63 or section 64 as payable by them.

Mode of apportionment.

66. On publication of any order of the Lieutenant-Governor under section 63, the Collector shall proceed to charge or apportion the said total sum upon or among the zemindars and (except in respect of the embankments on the right and left banks of the river Gunduk as provided in section 58) among the tenure-holders who are liable to pay the same, as above provided.

Payment of sum apportioned.

67. The sum so apportioned in respect of any estate or tenure on account of any such period as is mentioned in section 63 shall be payable in equal portions in each of the years included in such period, and each such portion if unpaid shall carry interest at five per centum, or at such rate, not exceeding five per centum per annum, as the Lieutenant-Governor may from time to time determine, from the end of the year in which it is payable.

Final order of apportionment.

68. On the completion of any charge or apportionment under this Act, the Collector shall make an order specifying the estates and tenures in respect of which any sum charged or apportioned is payable, and the sums payable in respect of each of the instalments of such sums, and the dates on which such sums are payable.

3.—*Recovery thereof.*

Publication of final order of apportionment.

69. As soon as may be after any final order of apportionment is made as provided in the section last preceding, the Collector shall cause copy of such order to be published with a general notice, stating that the amounts apportioned on the zemindars in respect of estates are payable to the Collector, and the amounts apportioned on the tenure-holders in respect of tenures are payable to the zemindars or superior tenure-holders. Instead of causing a general notice to be published, the Collector may cause special notices to the same effect to be served in respect of every estate and tenure on or among the zemindars or tenure-holders of which any sum is charged or apportioned.

Recovery of sums apportioned.

70. If any such sum payable to the Collector, or any instalment thereof, be not, pursuant to the said order, paid, the same with interest may be recovered as arrears of a demand under the provisions of the Public Demands Recovery Act, 1880, or any similar Act for the time being in force.

Effect of opening separate account under Act XI of 1859 or Act VII of 1876.

71. When a recorded sharer of a joint revenue-paying estate has opened a separate account under Act XI of 1859, or under section 70 of Bengal Act VII of 1876, or any similar law for the time being in force for the regulation of the opening and maintaining of such separate accounts, he shall be entitled, in regard to the payment and realization of all sums due under this Act, to all the advantages of separate liability enjoyed by him under the said Act XI of 1859, and Bengal Act VII of 1876 respectively, in regard to the payment and realization of revenue, and shall be entitled to separate assessment and to the issue of a separate notice in every case in which special notice is by this Act required to be served, from the date on which such advantages shall take effect in respect of the demand of Government revenue.

Similar privileges shall attach to every recorded holder of a revenue-free estate who has opened a separate account under section 46 of Bengal Act IX of 1880 in respect of the amount of cesses payable by him.

Liability of estate for sum apportioned.

72. Notwithstanding anything contained in section 70, any such sum shall be a first charge on the estate in respect of which it is apportioned, and shall be deemed to be a demand debited to the estate in the public accounts of the district within the meaning of section 31 of Act XI of 1859, and such charge shall not be avoided by any sale, nor shall the joint liability of the entire estate for such sum be affected by any partition of the said estate which may subsequently take place.

Amount apportioned may be raised by leasing or mortgaging estate.

73. If the Collector thinks it inexpedient to proceed for the recovery of such sum or any part thereof under the provisions of section 70, or having so proceeded shall have failed to realize the sum due, he may, with the sanction of the Board of Revenue, raise the amount necessary to discharge the sum or instalment remaining unpaid—

(*a*) by mortgaging the whole or any part of such estate;

(*b*) by letting in farm or managing by himself or another the whole or any part of such estate;

(*c*) partly by one of such modes and partly by another or others of them.

For the purposes of this section the Collector may exercise all the powers of the owner of such estate, and his signature shall be a good and sufficient signature to any document necessary to carry into effect the said purposes.

Recovery by zemindars and tenure-holders.

74. Every zemindar or tenure-holder to whom any sum or instalment thereof is payable under an order made in pursuance of section 68 may recover the same with interest as aforesaid in the manner provided for the recovery of arrears of rent in respect of putnee tenures by the provisions of clauses 2 and 3 of section 8, sections 9, 10, 14, 15, and clauses 1, 2, and 3 of section 17 of Regulation VIII of 1819, as amended by Bengal Act VIII of 1865, or by the provisions of any similar Act for the time being in force; provided that the right or interest of any person holding from the defaulter shall not be affected by any sale held under these provisions.

PART VII.

Penalties.

Penalty for obstructing persons in exercise of powers conferred by Act.

75. Whoever wilfully obstructs any person duly authorized under this Act in removing or levelling any embankment, house, hut, or other building, or in the lawful exercise of any of the powers in this Act conferred, shall, in case such obstruction shall not amount to an offence within the provisions of the Indian Penal Code, be liable to imprisonment of either description for any period not exceeding six months, at the discretion of the Magistrate, or to fine not exceeding two hundred rupees.

Penalty for unauthorized interference with embankments or drainage.

76. (*a*) Every person who, in any of the territories to which this Act extends, without the previous permission of the Collector, shall erect, or cause or wilfully permit to be erected, any new

embankment, or shall add to any existing embankment, or shall obstruct or divert, or cause or wilfully permit to be obstructed or diverted, any water-course, if such act is likely to interfere with, counteract, or impede any public embankment or any public water-course;

Penalty for unauthorized interference with embankments or drainage in prohibited tract.

(*b*) every person who, within the limits of the tract included in any prohibitory notification under section 6, without the previous permission of the Collector, shall erect, or cause or wilfully permit to be erected, any new embankment, or shall add to any existing embankment, or shall obstruct or divert, or cause or wilfully permit to be obstructed or diverted, any water-course; and

Penalty for abetment of such acts.

(*c*) every person who shall abet any such act as is mentioned in clauses (*a*) and (*b*),

shall be liable, on conviction, to a fine not exceeding five hundred rupees, or in default of payment to imprisonment of either description for a period not exceeding six months.

Penalties for injuring embankments, &c.

77. No person shall, without due authority, cut through, or attempt to cut through, any public embankment, or destroy, or attempt to destroy, any such embankment, or open or shut, or obstruct any sluice in any such embankment, or any public water-course; and every person who shall commit any breach of the provisions of this section shall, in case the act shall not amount to mischief within the meaning of the Indian Penal Code, be liable to imprisonment of either description for a term not exceeding one month, or to a fine not exceeding two hundred rupees.

Penalty for diverting water or penning cattle to graze on embankments, &c.

78. Every person who shall make any dam or other obstruction for the purpose of diverting or opposing the current of a river or water-course wherein or whereon there are public embankments, without the permission of the officer in immediate charge of the embankments, or shall refuse or neglect to remove any such dam or obstruction so made by him when required to remove it by the Engineer, or without the permission of the Engineer previously obtained shall cut or otherwise alter the banks of any embanked river or water-course, or remove the earth from any public embankment, or drive stakes into it, or by any other wilful act destroy or diminish the efficiency of such embankment; and every person who without such permission shall cause or knowingly and wilfully permit any cattle to graze upon any such embankment, or tether, or cause or wilfully permit any cattle to be tethered upon any such embankment, or root up any grass or other vegetation growing on any such embankment, shall be liable to imprisonment of either description for a term not exceeding six months, or to a fine not exceeding two hundred rupees.

Obstructions to be removed and damage repaired.

79. Whenever any person is convicted of an offence under either of the three last preceding sections, the convicting Magistrate may order that he shall remove the embankment or obstruction, or repair the damage, in respect of which the conviction is held, within a period to be fixed in such order. If such person neglects or refuses to obey such order within the fixed period, the Engineer may remove such embankment or obstruction or repair such damage, and the cost of such removal or repair shall be levied from such person in addition to any other penalty in the manner provided in section 307 of the Code of Criminal Procedure.

PART VIII.

Miscellaneous.

Mode of publishing proclamations and issuing notices.

80. Every proclamation and general notice by this Act required to be issued or given shall be published by affixing a copy of the same in the office of every Collector, Sub-Divisional Officer, and Munsif within whose jurisdiction, and at every police-station within the limits of which, any lands affected by such proclamation or notice are known by the Collector to be situated; and by affixing copies of the same in conspicuous positions in such hâts, bazars, towns, villages, or other public places as the Collector may direct; and also by giving notice by beat of drum at such public places that such copies have been affixed and that one copy of the papers containing the information which is the subject of such proclamation or general notice is open to inspection by all concerned at the office of the Collector.

Service of special notices.

81. Every special notice or order by this Act required to be served shall be served,

(1) by delivering a copy of the same to the person to whom it is directed, or, on failure of such service, by posting a copy on some conspicuous part of the house in which the said person resides, or by delivering a copy to any agent authorized to appear generally for the person to whom such notice or order is directed; or

(2) by sending a registered letter containing a copy of such notice or order directed to the said person at his usual place of abode, or at the place where he may be known to reside; or

(3) by posting a copy of the notice or order at the mal-cutcherry of the estate, village, or tenure to which the same relates; or if no such mal-cutcherry be found, on some conspicuous place on the said estate, village or tenure; or

(4) if the person on whom the notice or order is to be served is a zemindar, by delivering a copy thereof to the agent who shall have paid an instalment of revenue next before or who may pay the instalment next after the preparation of such notice or order, on behalf of such zemindar.

In all cases where two or more persons are holders of an estate or tenure, service under the last two clauses shall be deemed to be good and sufficient service on each and all of such persons.

Powers of Collector and Commissioner on enquiry and appeal.

82. In any enquiry or appeal held under this Act, the Collector and the Commissioner shall respectively have the same powers as those conferred on Courts by the Code of Civil Procedure of summoning and examining witnesses and compelling the production of documents.

No proceedings to be impeached for mistake or want of form.

83. No proceedings under this Act shall be impeached or affected by reason of any mistake in the name of any person thereby rendered liable to pay any sum of money, or in the description of any estate or tenure or land in respect of which he is rendered liable to pay; provided the directions of this Act be in substance and effect complied with; and no proceedings under this Act shall for want of form be quashed or set aside in any Court of Justice.

Appeal from orders.

84. Every order passed by the Collector in respect of applications under section 18, and every order passed under sections 11, 50, 52, or 68, shall be appealable to the Commissioner of the Division, and every such order of the Commissioner, except when otherwise directed by this Act, shall be appealable to the Board of Revenue, but no appeal shall lie under this section against any order unless the same be presented within one month from the date of the order.

General control of Commissioner and Government.

85. All the powers of a Collector under this Act shall be exercised under the general control and orders of the Commissioner of the Division, and all the powers of Collectors and Commissioners shall be exercised subject to the general control and orders of the Board of Revenue and of the Government.

Every order passed by any of the said authorities shall be subject at any time to be varied or set aside by the controlling authority.

Orders to be final.

86. Subject to the provisions of the two sections last preceding, every order passed by the Collector in respect of applications under section 18 and every order passed under sections 11, 50, 52, or 68, and every order passed by a controlling authority in respect of such order of a Collector, shall be final, and not liable to be modified or altered otherwise than as expressly provided in this Act.

Disposal of lands no longer required for embankments.

87. Whenever the maintenance of any public embankment, or the retention of any land appropriated to the purposes thereof, may no longer be required, and the permanent relinquishment of the same may be deemed expedient, such land shall be restored by the Collector to the estate or tenure from which such land was originally taken on repayment of the compensation, if any, which was paid for such land when the same was taken for the purpose of the embankment. If persons who are entitled to the restoration of any land under this section, or any of them, refuse or neglect to pay such price within a reasonable time after demand, the same shall be sold by the Collector as a revenue-free holding for such price as he can obtain for the same. All sums obtained for lands conveyed under the provisions of this section shall, after the payment of all expenses incurred on account of the same, be applied to the payment of the cost of any new embankment or drainage works, or of the expenses of maintaining any embankment or drainage works affecting the said lands and other adjacent lands, in reduction of the amount chargeable upon the zemindars and tenure-holders of the lands benefited, as hereinbefore provided, if any amount be so chargeable.

Collector may delegate any of his powers to a Deputy Collector.

88. A Collector may delegate any of his powers under this Act to a Deputy Collector, but from any order passed by a Deputy Collector to whom powers have been so delegated, an appeal shall lie to the Collector if presented within thirty days of the date of the order.

Every such delegation of powers shall be reported to the Commissioner of the Division.

Jurisdiction.

89. All offences created by this Act shall be enquired into and tried by a Magistrate of the first or second class.

Power to make, alter, and cancel rules.

90. The Lieutenant-Governor may from time to time make rules consistent with the provisions of this Act to regulate the following matters:—

(*a*) the proceedings of any officer who, under any provision of this Act, is required or empowered to take action in any matter;

(*b*) the business of Embankment Committees;

(*c*) the cases in which, the officers to whom and the conditions subject to which orders and decisions given under any provision of this Act, and not expressly provided for as regards appeal, shall be appealable;

(*d*) the person by whom, the time, place or manner at or in which, anything for the doing of which provision is made in this Act, shall be done;

(*e*) the amount of any charge made under this Act; and

(*f*) generally to carry out the provisions of this Act.

The Lieutenant-Governor may from time to time alter or cancel any rules so made.

Publication of rules.

Such rules, alterations, and cancelment shall be published in the *Calcutta Gazette*, and shall thereupon have the force of law:

Provided that no rules shall be made by the Lieutenant-Governor under the powers conferred on him by this section until a draft of the same shall have been published in the *Calcutta Gazette* for one month, after which time the Lieutenant-Governor may pass such rules as originally published, or with such alterations, additions, and omissions as he may think fit.

Saving of operation of certain Acts.

91. Nothing in this Act shall apply to any embankment, land, or watercourse which is under the operation of any of the following Acts:—

The Bengal Drainage Act, 1880.

The Bengal Irrigation Act, 1876.

Bengal Act V of 1864. *(An act to amend and consolidate the law relating to the collection of Tolls on Canals and other lines of navigation, and for the construction and improvement of lines of*

navigation, within the provinces under the control of the Lieutenant-Governor of Bengal.)

PART IX.

Special provisions for the Province of Orissa.

Powers conferred on Superintendent of Embankments in Orissa.

92. The powers conferred on the Collector by section 25 may, in the Province of Orissa, be exercised by the Superintendent of Embankments with the consent of the Collector previously obtained, and the references in the said section to other parts of this Act shall be deemed to be references to the corresponding portions respectively of Act XXXII of 1855 (*An Act relating to Embankments*). The consequences mentioned in section 26 shall attach to everything done by the Superintendent of Embankments under the provisions of this section.

Power to Engineer to act in urgent cases.

93. In cases in which the Engineer in charge of any Embankment may be of opinion that delay for the purpose of obtaining the orders of the Superintendent of Embankments and the Collector would be attended with grave and imminent danger to life or property, the Engineer may exercise the powers conferred on the said Superintendent with the consent of the Collector in pursuance of the last preceding section. The Engineer shall forthwith report to the said Superintendent any action taken by him under this section, and shall be guided by any instructions which he may receive from him in respect thereof.

Sections made applicable to Orissa.

94. Sections 4, 5, 6, 34 and 76 shall extend to the Province of Orissa, the words "Superintendent of Embankments" being substituted for the word "Collector" in clauses (*a*) and (*b*) of section 76.

SCHEDULE.

SCHEDULE I.—(*Referred to in section* 2.)

(Portions of Bengal Act VI of 1873 which are not repealed.)

Power to take possession of land.

12. *Whenever any land or earth from any land the property of any person, is required for the purposes of any works commenced in pursuance of the provisions of the last preceding section, or for the purposes of section* 18 *in cases where the Collector shall be of opinion that proceedings for the acquisition of such land according to the provisions hereinafter contained in section* 25, *would cause delay as aforesaid, the Collector shall cause a proclamation to be issued in form in Schedule (B) annexed to this Act, giving notice thereof at convenient places in the locality in which such land is situated, and he may at the same time take possession of the same for the said purposes.*

Compensation for standing crops and trees.

13. *The Collector shall ascertain and record the nature and estimated value of the crops and trees (if any) standing on such land, and shall offer adequate compensation to the persons interested. If such offer is not accepted, the value of such crops and trees shall be allowed for in awarding compensation for the land under the provisions of section* 29:

21 (Proviso).—Provided always that in case the Collector be of opinion that the delay required by such proceedings is likely to be attended with grave and imminent danger to life or property, it shall be lawful for him forthwith to cause such trees, houses, huts, or buildings to be removed, and in such case the compensation due therefor shall be ascertained and paid in the manner hereinafter provided.

When land taken, proclamation to be published.

26. *Whenever any land shall have been taken or used under the provisions of Part III, the Collector shall cause a proclamation to be issued in form in Schedule (C) annexed to this Act at convenient places on or near the land so taken, stating that Government has taken possession of the land, and that claims to compensation for all interests in such land shall be made to him. Thereupon the land shall vest absolutely in the Government free from all encumbrances, subject, however, to the claims for compensation to be ascertained in manner as in this Part is provided.*

Contents of proclamation.

27. *Such proclamation shall state the particulars of the land so taken, and shall require all persons interested in the land to appear personally or by agent before the Collector at a time and place therein mentioned (such time not being earlier than fifteen days after the date of issuing the proclamation), and to state the nature of their respective interests in the land, and the amount and particulars of their claims to compensation for such interest.*

Further notice to be served on certain parties.

28. *The Collector shall also serve notice to the same effect on the occupier (if any) of such land, and on all such persons known or believed to be interested therein, or to be entitled to act for persons so interested, as reside, or have agents authorized to receive service on their behalf, within the revenue district in which the land is situate.*

Proceedings after notice.

29. *After service of such notice proceedings shall be had and taken to determine the amount of compensation to be payable in respect of such land, in accordance with the provisions of the Land Acquisition Act, X of* 1870, *or other law for the time being in force for the acquisition of land for public purposes.*

Notice is hereby given, as required by section 8, Act II of 1882, to all persons interested, that it appears to the Collector that the following work should be done; that is to say [here state the nature of the work and the purpose for which it is to be undertaken.] * *For the execution of this work the undermentioned land will be required to be taken up :—*

1	2	3
Pergunnah in which land is situated.	Village in which land is situated.	Area of land.

Estimates of the proposed work, with the necessary specifications and plans, together with a copy of the survey map showing the lands likely to be affected by the said work, are open for inspection by any interested person at this office who is allowed to take copies thereof.

* The words in italics and the tabular form to be omitted if no land is to be acquired.

* The total probable cost of such work will be the sum of Rs. , and the rate per acre of the area benefited or protected by the said work is estimated at Rs.

The following estates and villages will probably be affected by the work proposed [*here set out a list of the estates and villages*]*.

Any person interested and wishing to show cause against the execution of the works specified, is hereby required to appear before the Collector for that purpose on the day of

The day of

PART V.

Acts of the Governor General's Council assented to by the Governor General.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

[Second publication.]

The following Act of the Governor General of India in Council received the assent of His Excellency the Governor General on the 7th June, 1882, and is hereby promulgated for general information :—

ACT No. XVII OF 1882.

An Act to amend the Indian Ports Act, 1875.

WHEREAS it is enacted by the Indian Ports Act, 1875, section thirty-eight, that no vessel of the burden of two hundred tons or upwards shall be moved in any port to which that section has been specially extended without having a Pilot, Harbour-master or Assistant of the Master Attendant or Harbour-master on board; and that no vessel of any burden less than two hundred tons and exceeding one hundred tons shall be moved in any such port without having on board a Pilot, Harbour-master or Assistant of the Master Attendant or Harbour-master, unless authority in writing so to do has been obtained from the Conservator or some officer empowered by him to give such authority;

And whereas it is expedient to exempt Native vessels when moved in the Port of Bombay from the provisions of the recited section;

And whereas it is also expedient to exempt pleasure-yachts throughout British India from the levy of port-dues;

It is hereby enacted as follows :—

Short title. Commencement.

1. This Act may be called the Indian Ports Act, 1882; and it shall come into force at once.

Amendment of section 38 of Act XII of 1875 as to Native vessels in Port of Bombay.

2. To the recited section the following words shall be added :—

"Nothing in this section shall apply to Native vessels when they are moved in the Port of Bombay.

"If any question arises as to whether any vessel is a Native vessel within the meaning of this section, the decision thereon of such authority as the Governor of Bombay in Council may from time to time appoint in this behalf shall be conclusive."

Addition to Act XII of 1875.

3. After section fifty-eight of the Indian Ports Act, 1875, the following section shall be inserted, namely :—

Port-dues not chargeable on pleasure-yachts.

"58A. No port-dues shall be chargeable in respect of any pleasure-yacht."

RESOLUTION ON THE REPORT ON THE CALCUTTA MEDICAL INSTITUTIONS FOR 1881.

MEDICAL AND MUNICIPAL DEPARTMENT—MEDICAL.

Darjeeling, the 22nd June 1882.

RESOLUTION.

READ—

The Report on the Calcutta Medical Institutions for 1881.

The public health of Calcutta during the year under review presents no unusual features. The following statement shows the number of deaths from the principal diseases recorded in each of the last seven years :—

	Cholera.	Diarrhœa and dysentery.	Fevers.	Small-pox.	Other causes.	Total.	Ratio per *mille* of population.
1875	1,674	1,579	5,328	720	4,785	14,086	32·7
1876	1,851	1,864	4,361	73	4,817	12,966	30·1
1877	1,418	1,683	5,151	67	5,385	13,704	31·9
1878	1,338	2,010	6,086	1,435	5,467	16,396	38·1
1879	1,186	1,516	4,796	772	4,774	13,044	30·3
1880	805	1,267	3,797	114	5,698	11,681	27·1
1881	1,693	1,491	3,765	133	5,948	13,030	30·0

The general death-rate was 30 per 1,000, which is higher than that recorded for 1880, but lower than the normal rate. The most remarkable fact made apparent by the above figures is the large increase in the number of deaths from cholera. These were more than twice as numerous as in 1880, and are among the highest recorded in the Town since the introduction of filtered water. The number of deaths from fever was 3,765. This is slightly less

than in 1880, and falls considerably short of the number registered in any previous year. The total number of fever patients treated in the hospitals during the year was 4,417, of whom 365 died, giving a proportion of 82·6 per 1,000. In 1880 the number of fever cases treated was 5,021—330 died—and the death-rate was 65·72. Dr. Payne points out that there is some apparent variance as regards fever between the record of the hospitals and that of the Town generally. The former shows the mortality from this cause to be above, and the latter shows it to be below, the average rate. The deaths recorded in Calcutta are no criterion of the salubrity of the Town. Sick natives, who do not speedily recover or die, betake themselves to their homes in the mofussil. This practice, however, prevails to a larger extent among the upper and middle classes, than among the lower ranks of the population from which the majority of hospital patients is drawn. It is true that the hospital figures of mortality are included in those of the Town at large, but they are relatively so small that they do not materially affect the total. The Surgeon-General considers the hospital death-rate is a truer test of the mortality from fever than that to be deduced from the Town registers; and having in view the epidemic character of the disease in Nuddea and the surrounding districts, he inclines to the opinion that there was, during 1881, a larger amount of fatal fever in Calcutta than before.

2. The following statement shows the number of patients treated in each of the Calcutta hospitals:—

Number.	Medical Institutions.	1881.				1880.			
		Total treated.			Died per *mille* of treated.	Total treated.			Died per *mille* of treated.
		In-door.	Out-door.	Total.		In-door.	Out-door.	Total.

	Grand Total ...	20,764	254,950	275,714	142·68	21,548	25[illegible]	[illegible]	

The number of in-patients fell from 21,458 in 1880 to 20,764 during the year under review. The decrease was confined to the Campbell Hospital (807) and the General Hospital (305). There was an increase of 292 at the Medical College and an increase of 83 at Howrah, while in the Mayo and Police Hospitals the numbers were practically unchanged. It is explained that only a portion of the Campbell Hospital building was available for patients during several months owing to the extensive repair works that were being carried out. Part of the increase at the Medical College is attributed to this cause.

Out-door patients are treated only at the Medical College and the Mayo and Howrah Hospitals. There was an increase in the two former of 1,210 and 3,097 respectively, while at Howrah there was a falling off of 834. The total increase over the numbers of 1880 was therefore 3,473. The out-door practice of the Mayo Hospital and its associated dispensaries was as follows:—

Mayo Hospital	48,059
Chandnee ditto	68,592
Chitpore Dispensary	19,908
Park Street ditto	31,282
Sukea Street ditto	15,513

The daily average of patients at each of the hospitals was—

	In-door.	Out-door.
Medical College	276·7	385·4
General Hospital	136·4	.....
Mayo Hospital, &c.	93·3	1,349·4
Campbell Hospital	372·3	.....
Police ditto	98·7	.....
Howrah General ditto	63·2	110·4

Out of 275,174 persons treated, 165,945 were adult males, 39,209 adult females, and 70,560 children. The proportion of male to female adults is rather more than 4 to 1—much the same as in former years. The number of in-patients was,—adult males 14,867, adult females 4,183, and children

1,186. It thus appears that the proportion of males to females was less among the in-patients than among the out-patients.

3. The following table shows the mortality in the Calcutta hospitals in each year since 1874. Cases treated in the Eye Infirmary have been excluded :—

Years.	All diseases except cases treated in Eye Infirmary.			Cholera.			Death-rate excluding cholera.	Number of deaths registered by the municipality.	Rate per *mille* of population.
	Treated.	Died.	Died per *mille*.	Treated.	Died.	Died per *mille*.			
1874	19,490	3,037	155	628	311	495	144	11,527	30·8
1875	22,062	3,641	165	728	371	509	153	14,086	32·7
1876	21,087	3,004	145	695	369	530	152	12,964	30·1
1877	23,977	3,172	132	546	284	521	123	13,704	31·9
1878	27,908	4,518	161	579	323	557	153	16,396	38·1
1879	22,197	3,602	162	634	351	553	150	13,045	30·3
1880	21,032	2,966	138	356	183	514	131	11,681	27·1
1881	20,156	2,876	142	589	304	516	131	13,030	30·0

The small excess over the previous year is wholly attributable to deaths from cholera. The mortality among hospital patients was, as a rule, greater among adults than among children. Thus the death-rates per 1,000 in each of the Calcutta institutions, exclusive of the Police Hospital, were—

	Adults.	Children.	Total.
Medical College	134·4	92·4	129·8
General Hospital	46·4	69	47·8
Campbell ditto	243·3	102·3	237·4
Mayo ditto	152·7	179	153·8
Howrah ditto	194·8	125	192

The conditions of the General Hospital are exceptional. In all the others, except the Mayo, the death-rate is lower for children than for adults; but the whole number of children treated was comparatively so small that it produced little effect on the combined death-rate.

The Surgeon-General writes thus with regard to the features of particular diseases noticed during the past year :—

Cholera showed considerable increase in the hospitals as it did in the Town. The proportion of deaths to cases was an ordinary rate. Small-pox showed the same prevalence and rather less fatality than in the previous year. Of fevers there were fewer cases, but they were more fatal than before. This greater fatality fell chiefly on natives of Calcutta, and did not extend to Howrah, where, however, European cases were more severe, as they were in the General Hospital of Calcutta. This points to sailors as the chief sufferers.

In respiratory affections there was but a trifling difference from the previous year, either in quantity or fatality, and the same is true of dysentery and diarrhœa. Parturient women were treated in smaller numbers, and, on the whole, with results somewhat less favourable than those of 1880.

4. In accordance with a suggestion made in the Report for 1880, and approved by the Lieutenant-Governor, no detailed analysis has been made of the statistics of operative surgery in the various hospitals. It is, however, noticed that in the Campbell Hospital the number of deaths after operation, which had been remarked by the Lieutenant-Governor as excessive in 1879, has fallen from 326 per 1,000 in that year to 133·8 in 1880 and 90·9 in the year under review. The death-rates after operation in the Medical College and the Mayo Hospital were respectively 86·3 and 75·5.

5. The Report contains an interesting account of the results of the enquiry into the alleged prevalence of "hospitalism" in the Medical College Hospital, and the steps taken during the past year to give effect to the recommendations of the Committee appointed to report upon the matter. The facts that were elicited in the course of the enquiry were altogether inconsistent with the theory that the prevalence of septic disease was attributable to any radical defect in the construction of the hospital. At the same time, however, the Committee indicated several matters in which, in their opinion, improvement was highly desirable. "The means of segregating dangerous cases were quite insufficient; space was inadequate to meet the demands on the hospital.

The work of a large out-patient department was done on the ground-floor, and the obstetric wards were under one roof with the rest." Much has been done to remove all these defects. Out-patients are now treated in a separate building at some distance from the hospital. A fine obstetric hospital has been built, and was opened shortly after the close of the year. The space thus set free has been utilized for the segregation of dangerous cases and for the accommodation of the Physicians and Surgeons, while arrangements have been made for an ample water-supply. The Lieutenant-Governor regards with satisfaction the progress that has been made.

6. With regard to antiseptic surgery, the experience of the past 12 months points in the same direction as that of former years. The true practical value of Listerism can only be accurately measured after lengthened observation. Dr. Payne writes: "To measure with precision the merits of a new method is seldom the simple task it may appear to be, for the adoption of such a method is seldom unaccompanied by aids and accessories, which contribute to results, and that this is true of Listerism is seen in the scrupulous care with which cleanliness and other precautions have been enforced in the treatment of wounds—matters which before would have been left to nurses and dressers." The important part that is played by cleanliness and care in dressing has been fully recognized by Dr. Cayley at the Mayo Hospital, where the mortality, after operations, is, as it has been, exceptionally small. Dr. Cayley writes: "I employ a modified form of Listerism, that is, I endeavour as much as possible by cleanliness and a free use of antiseptics both in cleansing and dressing to keep wounds aseptic, without always following the exact details of Lister's methods." At the Medical College the First Surgeon carried out the Listerian system in its entirety. The Second Surgeon, Dr. Raye, failed in some cases to keep wounds aseptic by means of the treatment, and fatal results ensued. Dr. Raye, however, had reason to believe that some of the apparent failures were due to defects in the application of the method, and that he had not attached sufficient importance to details. The results obtained in the two wards were, so far as appears from the figures, about equally good. It is to be noticed that at the Campbell Hospital only ordinary antiseptic dressings are used, and Listerism is not attempted. The death-rate, after major operations, was, however, only very little higher in this hospital than in the Medical College Hospital. The evidence hitherto available affords no means of determining how far the successful results obtained in the different hospitals are attributable to the strict observance of Lister's system, how far to the use of simple antiseptics and to the general improvement in cleanliness and care which has resulted since attention was directed to the subject, and how far to independent circumstances.

7. The educational aspect of the question has not been lost sight of. Even after liberal allowance has been made for the lessened use of expensive articles of diet, the cost of strict Listerian treatment is admittedly much greater than that of the ordinary methods; spray producers, which are essential to its application, are costly and fragile, and can only be properly used with skilled assistance; and however great the value of this treatment may be, when it is applied with care and skill, and without regard to cost, there is no hope of its being within the reach of the mass of the population of these provinces. The pupils whose medical training is one of the chief functions of the Calcutta hospitals will seldom be called on to practise Listerism in afterlife, and their practical usefulness would be much impaired if they were taught to look upon the costly appliances of the system as indispensable.

8. The number of in-patients treated by the Obstetric Physician shows a considerable falling off, being only 1,008 in 1881 against 1,277, 1,204, 1,238, 1,109, and 1,155 in the five preceding years. There were 6,500 out-patients during the first six months of the year. The cases treated during the second half have been amalgamated with those of the general out-door dispensary.

9. In the Ophthalmic Hospital 608 persons were treated during the year, of whom 555 were fresh admissions. Of these, 299 were cured and 188 relieved. Three hundred and sixty operations were performed, of which 218 resulted in cures, while 88 persons were relieved. Besides these, 6,505 out-patients were treated during the year.

10. The following table shows the number of cases of enteric and remittent fever treated in each of the hospitals in each year since 1872 :—

Enteric fever presented itself during the year only in the General, Howrah, and Mayo Hospitals. Dr. Payne remarks that only the record of the last three or four years can be regarded as reliable. The figures of the past year present no marked difference from the rest of the trustworthy series. The Lieutenant-Governor is glad to notice that in all the hospitals the use of the cinchona febrifuge has almost entirely superseded the use of quinine.

11. In the Medical College Hospital the number of in-patients was 4,773, or 200 more than in the previous year. There were 620 deaths, giving a death-rate per 1,000 of 129·8 against 128 in 1880 and 130 in 1879. If 155 moribund cases are excluded, the death-rate becomes 100 against 96·8 last year.

The death-rate among the Christians treated was 64 against 69·6 and [illegible] 1880 and 1879. The mortality among the native patients was at the rate of 185 per 1,000 against 195 in 1880 and 190 in 1879. The death-rate from fevers was 48·1 for Christians and 107·5 for natives. From cholera the rate was 500 and 466 respectively. During the year only 464 patients were treated in the Campbell Hospital against 537 in 1880. Both years were much below the average on account of the reduced space available in the Campbell Hospital.

12. In the General Hospital the number of patients treated fell from 3,168 in 1880 to 2,863 in the year under review. The greater part of the decrease of 305 occurred among the sailors, of whom there were only 1,444 during 1881 against 1,661 in the previous year. There were 239 paying and 1,180 non-paying patients against 247 and 1,260 respectively in 1880. The falling off among the number of sailors treated is attributed partly to their having resorted more largely to the Howrah Hospital than formerly. The number of deaths was 137 against 102 in 1880, the death-rate being 47·8 against 32. There were 19 deaths from cholera, 11 from dysentery, 5 from typhoid fever, 16 from phthisis, 5 from pneumonia, and 8 from remittent fever ; 59 major and 251 minor operations were performed during the year. The latrine accommodation is reported to be defective. This should receive the immediate attention of the Superintendent, and no time should be lost in getting it put on a proper footing. Dr. Birch considers that the diet is "certainly liberal," and reports that he has never had a complaint from a patient since he has been in charge.

13. At the Campbell Hospital the number of admissions fell to 6,074. The decrease is due to the reduction of available space, occasioned by the repairs which were in progress for over five months of the year. Malarious fever was the most prevalent disease, and contributed 1,491 cases. Next in order came dysentery, diarrhœa, ulcers, and splenic affections. There were 84 cases of small-pox, of which 18 were among Europeans. There were 132 cases of cholera against 78 in 1880, and the number of deaths was 79 against 44. The total number of deaths was 1,442, and the death-rate per 1,000 was 237·4 against 230 in the previous year. If the moribund and cholera cases are excluded, the true death-rate was 200. There were 11 obstetric cases with two deaths. In these two cases the patients are said to have been admitted in a moribund state.

A new scale of diet introduced during the year is favourably reported on. The cook-sheds of the hospital are said to be in an unsatisfactory state, and an observation ward is much wanted. The Superintendent should report what steps he proposes to take to remedy these defects.

14. At the Mayo Hospital the most fatal disease was cholera, which occasioned 83 deaths out of 160 cases, or 51·8 per cent. The mortality from fever was slight, being only 10 per cent. One case is said to have presented all the characteristics of true typhoid. The deaths from dysentery and diarrhœa were very numerous. Many of the patients were admitted in a moribund state. There were 173 operations with 21 deaths, which gives a percentage of 12·1.

15. At the Howrah Hospital 9,720 natives and 4,431 Europeans were treated during the year. Among in-patients there was an increase of 58 Europeans and 25 natives; while there was a falling off among the out-patients of 607 Europeans and 227 natives. This decrease is said to be only apparent and due to the register being more carefully prepared. Of the Europeans, 276 were sailors, against 196 in the year before; the total mortality was higher than that of the previous year, the death-rate per 1,000 among European patients being 44·77 in 1881 against 29·41 in 1880, while among natives it was 293·81 against 291. The Superintendent considers the new ward for natives has been of great value in reducing the number of cases of septic poisoning after severe injuries and operations. The water used in the hospital is brought in skins from Calcutta, and is unfavourably noticed by the Superintendent. The Surgeon-General will make the necessary enquiries on this subject. The project of a water-supply to Howrah is under consideration. The other arrangements of the hospital are satisfactory.

16. The financial results of the management of the Calcutta hospitals during the year were, on the whole, satisfactory. The amount of invested capital rose from Rs. 5,30,200 at the beginning of the year to Rs. 5,34,700 at its close. The total expenditure, exclusive of the amount invested, was Rs. 4,03,350 against Rs. 3,85,186 in the previous year. The increase is due to the large expenditure during the current year on building and repairs, chiefly in connection with the Campbell Hospital. The expenditure on this account rose from Rs. 33,685 in 1880 to Rs. 74,309 in 1881. The reduction in the other main heads of expenditure amounted to Rs. 22,560, of which Rs. 12,066 was under the head of diet and stimulants. There is a difference of Rs. 4,226 between the opening balance for 1881 and the closing balance shown in the Report for 1880. This is due to the inclusion in the accounts for the past year of the receipts and disbursements of Prince Gholam Mahomed's Fund. The closing balance for 1881 amounted to Rs. 13,364-12-4.

17. In the *Medical College Hospital* the total expenditure was Rs. 89,184 against Rs. 1,01,750 in 1880. There was a slight increase under the heads of establishment and miscellaneous charges; all the other heads show a decrease. The expenditure on bazar medicines in the hospital fell from Rs. 1,018 to Rs. 857, and in the associated dispensary (Choonee Lal Seal's) it rose from Rs. 175 to Rs. 370. The expenditure on Europe medicines was Rs. 9,204 against Rs. 11,440. The latter sum included expenditure on instruments purchased for the first time. The cost of diet and stimulants fell from Rs. 29,752 to Rs. 25,787. The reduction is said to be due chiefly to the cheapness of provisions in the year under review. The average cost of each diet for Europeans was 6 annas against 6 annas 6 pies in 1880, and for natives it was 2 annas 6 pies against 2 annas 10 pies. The miscellaneous charges rose from Rs. 9,915 to Rs. 10,993. The increase was chiefly due to the larger quantity of dressing and bandaging cloth required for the antiseptic treatment adopted in the First Surgeon's Ward.

18. The expenditure in the *Presidency General Hospital* was Rs. 1,05,894 against Rs. 1,02,352 in 1880. The accounts of Prince Gholam Mahomed's Fund were amalgamated with those of the hospital: the receipts from the Fund were Rs. 1,511, the expenditure Rs. 681, and the closing balance Rs. 5,057. The increase in the total expenditure was attributable to the higher charges for building and repairs. The receipts from the Port Commissioners fell from Rs. 65,168 to Rs. 39,235. The decrease was mainly due to the reduction in the payments for seamen from the Port Hospital Dues Fund. These were reduced from Rs. 2 to Re. 1-4 per diem in November 1880, and to Re. 1 in August 1881. Dr. Payne points out that this rate is insufficient, as the total actual cost per patient per diem was Rs. 1-13-4 in 1880 and Rs. 1-7-8 in 1881. It is believed that if all establishment and miscellaneous charges were included, the average cost would be found to be higher. Government, however, were

compelled to reduce the rate, and to place this heavy charge on the public revenues in order to avoid legislating to raise the limit of the Port Hospital Dues, and thus throwing additional expense upon the Shipping of the Port. The cost of bazar medicines fell from Rs. 1,855 to Rs. 1,599, and that of Europe medicines from Rs. 5,176 to Rs. 4,449. The expenditure on diet was at the same rate as in 1879 and 1880. The expenditure on stimulants was, however, considerably reduced, being only Rs. 842 against Rs. 1,206 in 1880. This result is satisfactory. The average cost per patient per diem of diet and stimulants combined was 7 annas 9 pies against 8 annas 1 pie in 1880. This includes paying patients.

19. In the *Campbell Hospital* the total expenditure amounted to Rs. 1,02,773 against Rs. 69,295 in 1880. The whole of the large increase is due to the expenditure on repairs and improvements, which amounted to Rs. 49,474. Apart from this outlay, there was a reduction under every head of expenditure. This was, however, mainly due to the smaller number of patients treated. The daily average cost of diet was 7 annas 2 pies for Europeans and 2 annas 4 pies for natives. The repairs and improvements have been carried out on a most extensive scale. They included the construction of a dead-house, the conversion of the old Blind Asylum into a new dispensary office and quarters for the Resident Surgeons, the re-roofing of a large portion of the Hospital building, as well as the ordinary quadrennial repairs. In the Police Hospital the charges were much the same as in the previous year. The average cost of diets fell from 2 annas 8 pies to 2 annas 6 pies, the result of a fall in prices for all articles of food in 1881.

20. The funds of the *Mayo Hospital* are in a most flourishing condition. The invested capital on 1st January 1881 amounted to Rs. 3,34,900, and this was increased during the year by Rs. 2,500, bringing the total up to Rs. 3,37,400. The Surgeon-General suggests that in view of the sums invested in this hospital from annual income, the payments of Government should be re-considered. These payments amounted to Rs. 37,366 during the year under review. The proposal will be considered in the Financial Department of this Government. The total expenditure amounted to Rs. 59,413 against Rs. 55,159 in the previous year. The expenditure on Europe medicines amounted to Rs. 9,784, which is Rs. 4,096 in excess of that of 1880. It is explained that there is now a large stock of medicines in hand, which is expected to last for some time. The daily average cost of diets was 2 annas 11 pies against 2 annas 8 pies in 1880. If diets privately supplied are excluded, the cost becomes 3 annas 2 pies against 2 annas 11 pies last year. Not only was the average cost higher than in any other Calcutta hospital, but it was higher than the cost in the same hospital in the previous year, although 1881 was a notoriously cheaper year than 1880. The Lieutenant-Governor considers that some explanation should have been given of this.

21. At the *Howrah Hospital* the income from private sources fell from Rs. 31,763 to Rs. 23,665. The decrease is attributed chiefly to the reduction in the charge for treatment of sailors from Re. 1-4 to Re. 1 per diem. The receipts from this source appear to have been credited under the head of "Receipts from local or other funds." The Government grant amounted to Rs. 5,276 against Rs. 8,649 in the previous year. The total expenditure was Rs. 28,042 against Rs. 34,950. There was a large increase of expenditure under the head of bazar medicines, which is not explained. The average cost of diet for Europeans rose from 7 annas 11 pies to 9 annas 2 pies. This increase is abnormal. The cost of native diets was the lowest in all the hospitals.

22. The total expenditure on the sick in all the hospitals taken together was Rs. 2,90,106, of which Rs. 2,74,388 was paid by Government. The average daily attendance was 2,889, of whom 1,044 were in-patients and 1,845 out-patients. Of the daily average 381 were Europeans and 2,508 natives.

23. The number of Europeans treated in the Medical College and General Hospital was 5,043, of whom 277 died, giving a death-rate of 54 per mille against 50, the average of the previous three years. Similarly the number of natives treated at the Medical College and Campbell Hospitals was 8,667, of whom 1,922 died, giving a death-rate of 221 per mille against 235, the average of the previous three years. The total charge for diet and stimulants in the Medical College and the General and Campbell Hospitals was lower than it has

ever been before. It amounted only to Rs. 70,231 against 82,584 in 1880, and 78,878 in 1879. Thus a large reduction in the expenditure on diet and stimulants has been accompanied by a considerable decrease in the death-rate for natives, and a very small increase in that for Europeans. This small increase is wholly attributable to the reduction in the number of sailor patients whose ailments are usually trifling, and tend to keep down the European death-rate.

ORDER.—Ordered that a copy of this Resolution, and of the Report, be submitted for the information of the Government of India, in the Home Department.

Ordered also that a copy of this Resolution be forwarded to the Surgeon-General, Bengal, for information and guidance.

Ordered also that a copy of this Resolution, and of the Report, be forwarded to the Chairman of the Corporation of the Town of Calcutta, and to the Commissioner of Police, Calcutta, for information.

Ordered also that extract paragraph 20 of this Resolution, together with extract paragraph 66 of the Report, be forwarded to the Financial Department of this Government for consideration.

Ordered also that the foregoing Resolution be published in the *Calcutta Gazette* for general information.

By order of the Lieutenant-Governor of Bengal,

COLMAN MACAULAY,

Secretary to the Government of Bengal.

REPORT ON THE WORKING OF THE JUTE WAREHOUSE ACT IN THE SUBURBS OF CALCUTTA DURING THE YEAR 1881-82.

No. 47MM, dated Alipore, the 8th June 1882.

Memo. by F. B. PEACOCK, Esq., Commissioner of the Presidency Division.

COPY, with enclosures, submitted to the Secretary to the Government of Bengal, in the Medical and Municipal Department, with reference to paragraphs 3 and 4 of his letter No. 723, dated the 20th August 1881.

No. 2FB, dated Alipore, the 25th May 1882.

From—R. C. STERNDALE, Esq., Vice-Chairman, Suburban Municipality,

To—The Magistrate of the 24-Pergunnahs.

UNDER section 27, Act V of 1879 (B.C.), I have the honour to submit, for transmission to Government, the annual report on the working of the Jute Act during the year 1881-82 in the Suburbs of Calcutta, together with a statement showing the jute warehouses in the Suburbs for which licenses were granted during that period.

2. The number of licenses issued was 92, and the amount of license fee payable on account of the said licenses amounted to Rs. 15,912, as will appear from the accompanying statement.

3. Under orders of Government, dated 20th August 1881, the period for which licenses were granted, known as the jute year, and which ran from 1st August to 31st July, was changed to the official or financial year, viz. from 1st April to 31st March, and at the same time the rate of fees was reduced from 10 per cent. on valuations to 5 per cent.; this entailed a good deal of trouble and necessitated a readjustment of accounts with all the existing license-holders.

4. The following amounts were charged against Jute Fund, viz., inspection establishment, Rs. 1,884; proportion of executive charges at 10 per cent. on the collections, Rs. 1,604-11-2; and the amount made over to the Commissioner of Calcutta Police for maintenance of fire-brigade, Rs. 7,411-1-1, as per bills submitted by him.

5. The account shows that there is, even with 100 per cent. reduction in the fees, a comparatively large balance; but the charges have been hitherto low, and a certain margin is necessary to meet the probable increase in the cost of the fire-brigade, which recent serious fires have shown to be hardly equal to the suppression of extensive conflagration.

6. There were 16 cases instituted against as many persons before the criminal bench for breach of the Jute Act, viz. one under clause 2, section 6, Act V of 1879, for using the roof of a warehouse for drying loose jute without the sanction in writing of the Commissioners; five cases under clause 1, section 6, Act V of 1879, for storing jute in buildings other than the licensed warehouses in the occupation of the defendants; nine under section 12 of the said Act for establishing warehouses without license, and one case under section 16 for omitting to give notice on change of occupation, and an aggregate sum of Rs. 425 was levied as fines inflicted on 14 persons, and two persons in two cases were warned and discharged. Of this amount Rs. 135 only was received from the Magistrate during the year.

7. A statement showing in debtor and creditor form the income and expenditure under the Jute Act V of 1879 (B.C.), as called for by paragraph 4 of the Government letter No. 723, dated 20th August 1881, is herewith submitted.

8. Twenty-six fires occurred in the Suburbs during the year under review. A tabular statement showing the property destroyed by fire, and the estimated value thereof as furnished by the Deputy Commissioner of Police, is also herewith submitted.

9. The jute crop during the year under review was a bumper one; but owing to the dulness of the market for a considerable portion of the year, the warehouses in the Suburbs remained overstocked; they are now gradually being cleared by petty sales.

NOTE.

ure.—The pressures in column 2 of the above table for all stations below 500 feet e given in column 3 of the table on the previous page, by adding the weight of a emperatures given in column 18. For stations above 500 feet elevation the y Captain Allan Cunningham's table, "Prof. papers on Indian Engineering, emperatures at the sea-level are taken from column 3 of the above table.

he temperatures in column 3 are reduced from those in column 18 on the preceding ahrenheit for every 450 feet.

—The resultant wind direction and its comparative predominance are calculated ber of wind observations recorded during the month. The relative predominance e resultant is given as a percentage of the whole number of observations. The in the usual way by Lambert's formula.

umn gives the average proportion of clouded sky, a cloudless sky being indicated tely overcast by 10.

all comparable, afford the data for constructing a meteorological chart for the ow the isobaric and isothermal lines and the resultant wind directions, which last y arrows of varying length, proportioned to the prevalence of the wind. To these nfall from the previous tables.

The mean pressure, temperature, &c., are deduced from the traces of the Barograph and Thermograph and from observations made at 6h, 10h, 16h, and 22h.

The maximum and minimum temperatures are obtained from self-registering thermometers are verified, and the readings have been corrected to a standard at the Kew Observatory. They are exposed under a thatched shed open at the sides feet above the ground.

The barometer readings are corrected approximately to those of the standard formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the Meteorological Office, and based on Regnault's modifications of August's formula.

The direction of the movement of the wind are taken from the trace of a Recorder mouth of the rain-gauge is one foot above the ground.

Report of Fluctuation of Traffic on the Eastern Bengal Rail... four weeks ending 22nd April 1882.

Report on Goods Traffic for the four weeks ending 22nd Apr...

EASTERN BENGAL RAILWAY COMPANY, TRAFFIC SUPERINTENDENT'S OFFICE, SEA...

No. W—29-57, dated Calcutta, the 13th June 1882.

From—W. INNES, ESQ., Traffic Superintendent, Eastern Bengal Railway Company,
To—The Agent, Eastern Bengal Railway Company.

I beg to forward the usual comparative statement of traffic for the four weeks ending the 22nd ... last, from which it will be seen that the gross weight carried over the railway during that period was 10,23,256 ma...unds, being an increase of 3,36,795 maunds, or 49 per cent., over the figures for the corresponding period of 1881.

All the principal staples, with the exception of grain and seeds, contribute to this satisfactory ...sult, jute alone contributing 1,60,859 maunds.

Increases.

Cotton in bundles ... ...
Less do. in bales ... ...

Net increase ...

The revival of the improvement in this staple which was noted in the previous four weeks ... still continues, nearly the whole quantity being despatched from Dacca and Narayanganj.

Gunny in bundles ... ...
Less decrease in bales ... ...

Net increase ...

The greater part of this increase is made up of consignments received from the Northern Bengal State Railway.

Hides ... ...

There was a decrease recorded last month as due to an accumulation of this staple in the Calcutta Bazar; that ... more than made good by the present increase. Dacca exports the bulk of the total quantity.

Jute in drums ... ...
Do. in bales ... ...

Net increase ...

The increase hitherto recorded from month to month still continues, there being still, according to reports, considerable quantities of last season's jute on hand.

Railway materials (foreign) ... ...

This increase consists of partly materials forwarded to Ranaghat for the Central Bengal Railway Company, and partly ... the Calcutta and South Eastern Railway for the Mugrahat Extension.

Salt ... ...

This important staple still continues to improve, traffic to all stations sharing in the improvement.

Sugar ... ...

During the last four months, we have carried 69,152 maunds of sugar more than during the ... total quantity carried this month, Kissengunge contributes 35,459, maunds, and Chooadanga 10,0... due to exports on a larger scale than usual to Europe.

Tobacco ... ...

Of the total quantity carried, 35,310 maunds comes from the Northern Bengal State Railway.

Miscellaneous ... ...

This heading embraces all traffic not otherwise classified, and shares in the general improvement.

Decreases.

Grain, including rice ... ...

The cause of this large decrease is attributable to the small demand for exportation.

Seeds ... ...

The decrease in this staple is due to the continued dulness of the market.

Report on the Fluctuations in Traffic on the Northern Bengal State Railway for the month of May 1882.

GENERAL REMARKS.

Forward advices from the District confirm the statement made in last month's Traffic Report as to the large quantity of last year's crop of jute still available for despatch. What benefit owners hope to derive by holding it back is, in the face of such a larger crop as this season's sowings give promise of, a mystery.

Enquiries go to show that, in spite of the large stocks held and the comparatively low prices obtained for last year's cultivation, about one-third more land is under cultivation with jute than last year.

When it is remembered how very narrow a margin of profit business is done for in an important staple like jute, and that figures show that the average price per maund at the port was Rs. 4-6 against Rs. 3-9-3 for May 1882 (the month sowings are made), it is proof positive that jute even at the lower rate is, in the estimation of the cultivator, the best paying crop he can grow

INCREASES.

Ginger ... ... Mds. 4,625

Seventy-one maunds of this staple only were carried during May 1881, against 4,696 under review. The increased weight carried is in fulfilment of shipping contracts.

Gunny-bags ... ... Mds. 5,462

Although this is a considerable increase over the weight of gunny-bags carried during May last year, there has really been a falling off in despatches as compared with last month's (April) traffic. This has been brought about by a falling off in the demand for gunny-bags of all sorts, and a decline in mill-made bags.

Jute ... ... Mds. 10,543

The jute market has been extremely dull during the month, and a further concession of about two annas a maund has been made by holders, but without the effect of causing any large quantity to change hands. This will account for the drop in despatches from 29,000 maunds in April to 19,000 maunds this month. When the prices ruling during May last year are compared with those at which the article is now being offered, it is a matter for satisfaction that the month's working shows an increase (however small) instead of a decrease.

Tea ... ... Mds. 5,473

The season, although at first giving promise of being an unusually early one, has, owing to want of seasonable weather during the months of February and March, turned out a late one throughout the Darjeeling district, and the short despatches only as the season are now being made up.

Tobacco ... ... Mds. 22,284

This staple is gradually, but surely, being drawn to the line by the low rates now in force. The weight carried during the month under review is, it will be seen, more than double that hauled during May last year.

All other goods ... ... Mds. 21,627

This increase is in both upwards and downwards traffic. In May 1881, 28,152 maunds passed up and 10,051 maunds down. This month 41,529 maunds passed up and 18,301 maunds down.

DECREASES.

Ale ... ... Mds. 615

A reduction in the quantity of commissariat beer for the use of the troops at Darjeeling is the cause of this falling off; the decrease will, in all probability, be met by an increase later on.

Country produce ... ... Mds. 23,497

Over eight lakhs of maunds of rice are stored in Calcutta, and comparatively little business is being done. In these circumstances it is matter of surprise that so much as 1,24,240 maunds should have been despatched, and that the falling off is not much more serious.

Piece goods ... ... Mds. 830

The heavy despatch made for some months past accounts for this decrease.

Railway material ... ... Mds. 22,683

Less locomotive coal and a cessation in despatch of material for the Dinagepore extension in view of the setting in of the monsoons and consequent stoppage of work is the reason of the short weight shown under this head

Salt ... ... Mds. 5,408

This decrease is a mere trade fluctuation and will most likely be met by an increase next month.

Sugar ... ... Mds. 1,309

The only reason that can be assigned for the falling off in this staple, in spite of the reduced rate, is that the local outturn being unusually large for the area under cultivation has rendered it unnecessary to import for a time.

TRAFFIC SUPERINTENDENT'S OFFICE, *Saidpur, the 15th June* 1882. G. M. DRURY, *Traffic Superintendent.*

Report of Fluctuation of Traffic on the Patna-Gya State Railway for the month of May 1882.

THE total quantity of goods carried during the month of May 1882 aggregated maunds 1,31,321 as compared with maunds 1,38,840 carried during the corresponding period of 1881, and maunds 1,37,398 carried during the previous month, showing a decrease of maunds 5,519 and 6,077 respectively.

Of the several increases and decreases, the following are the most prominent ones and worthy of separate explanation:—

INCREASES.

Coal ... ...

Coal ... ... Mds. 36,198

This is Messrs. Turner & Co.'s coal for construction purposes, a small portion being also for private parties.

Ghee ... ... Mds. 1,920

This is an export traffic from Durbhangah and Somastipur to Howrah. The increase is due to the river being unnavigable. Merchants avail themselves of the railway when the demand in Calcutta requires quick supply, otherwise boats are resorted to.

Hides and horns ... ... Mds. 2,677

Depends on local collection.

Iron ... ... Mds. 1,575

Due to the Jail and other civil buildings being under construction at Durbhangah, and also to machinery received during the month indigo consists.

Railway materials ... ... Mds. 47,398

Due to the three extensions of Tirhoot State Railway being under construction.

Saltpetre ... ... Mds. 3,638

Since the Government rules regarding manufacture of saltpetre have been relaxed, this traffic has improved steadily, and will shortly regain its former place as one of the principal staples of traffic on this line.

Seeds, oil ... ... Mds. 18,016

The business done under this head during the month is satisfactory, but it cannot be expected to be as high as during the past year owing to small crops and the bad quality of the outturn.

Sugar ... ... Mds. 3,056

Messrs. Watson & Co. have established a Factory in the neighbourhood of Durbhangah, hence the increase in export of this staple. Its further increase depends on the success of the enterprise.

DECREASES.

Food-grains ... ... Mds. 26,630

Wheat and barley having been harvested, demand for other grains has decreased.

Lime and kunkur ... ... Mds. 4,314

This traffic would have been very high, but as the rolling stock is limited, repeated applications from merchants for its conveyance have been refused, and a very large accumulation of this staple exists.

Piecegoods, English ... ... Mds. 4,312

During the last few months large quantities were imported, which have not been exhausted as yet. The season for Hindoo marriages also has passed away, and there is not much demand.

Salt ... ... Mds. 12,704

This is mainly due to the decrease in salt duty lately ordered by Government.

Spices ... ... Mds. 16,778

This cannot well be explained.

Tobacco ... ... Mds. 27,341

Previous remarks are applicable to this also. The temporary check to through booking and the insufficiency of rolling stock has caused considerable delay to tobacco and other merchandize which await despatch in large quantities.
